FEDERAL TRADE COMMISSION

Agency Information Collection Activities; Proposed Collection; Comment Request; Extension

AGENCY: Federal Trade Commission (FTC).

ACTION: Notice.

SUMMARY: The FTC is seeking public comments on its proposal to extend through December 31, 2005 the current Paperwork Reduction Act ("PRA") clearance for information collection requirements contained in its Fuel Rating Rule ("Rule"). That clearance expires on December 31, 2002.

DATES: Comments must be filed by September 23, 2002.

ADDRESSES: Send written comments to Secretary, Federal Trade Commission, Room H-159, 600 Pennsylvania Ave., NW., Washington, DC 20580. All comments should be captioned "Fuel Rating Rule: Paperwork Comment." Comments in electronic form should be sent to: FuelRatingPRA@ftc.gov as prescribed below.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the proposed information requirements should be sent to Neil Blickman, Attorney, Division of Enforcement, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Ave., NW., Washington, DC 20580, (202) 326-3038.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. "Collection of information" means agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3); 5 CFR 1320.3(c). As required by section 3506(c)(2)(A) of the PRA, the FTC is providing this opportunity for public comment before requesting that OMB extend the existing paperwork clearance for the regulations noted herein.

The FTC invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

If a comment contains nonpublic information, it must be filed in paper form, and the first page of the document must be clearly labeled "confidential." Comments that do not contain any nonpublic information may instead be filed in electronic form (in ASCII format, WordPerfect, or Microsoft Word) as part of or as an attachment to email messages directed to the following email

box: FuelRatingPRA@ftc.gov. Such comments will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with Section 4.9(b)(6)(ii) of the Commission's Rules of Practice, 16 CFR 4.9(b)(6)(ii).

The Fuel Rating Rule establishes standard procedures for determining, certifying, and disclosing the octane rating of automotive gasoline and the automotive fuel rating of alternative liquid automotive fuels, as required by the Petroleum Marketing Practices Act. 15 U.S.C. 2822(a)-(c). The Rule also requires refiners, producers, importers, distributors, and retailers to retain records showing how the ratings were determined, including delivery tickets or letters of certification.

Estimated annual hours burden: 42,000 total burden hours (17,000 recordkeeping hours + 25,000 disclosure hours).

Recordkeeping: Based on industry sources, staff estimates that 200,000 fuel industry members each incur an average annual burden of approximately five minutes to ensure retention of relevant business records for the period required by the Rule, resulting in a total of 17,000 hours, rounded.

Disclosure: Staff estimates that affected industry members incur an average burden of approximately one hour to produce, distribute, and post octane rating labels. Because the labels are durable, only about one of every eight industry members (i.e., approximately 25,000 of 200,000 industry members) incur this burden each year, resulting in a total annual burden of 25,000 hours.

Estimated annual cost burden: \$739,000, rounded (\$672,000 in labor costs and \$67,000 in non-labor costs).

Labor costs: Staff estimates that the work associated with the Rule's recordkeeping and disclosure requirements is performed by skilled clerical employees at an average rate of \$16.00 per hour. Thus, the annual labor cost to respondents of complying with the recordkeeping and disclosure requirements of the Rule is estimated to be \$672,000 ((17,000 hours + 25,000 hours) × \$16.00 per hour).

Capital or other non-labor costs: \$67,000, rounded up to the nearest thousand.

Staff believes that there are no current start-up costs associated with the Rule. Because the Rule has been effective since 1979 for gasoline, and since 1993 for liquid alternative automotive fuels, industry members already have in place the capital equipment and other means necessary to comply with the Rule. Retailers (approximately 175,000
