

affect historic or cultural resources, nor will the proposed action affect endangered and threatened species. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action and retention of the Backlands under Facility Operating License No. DPR-36 (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are identical.

Alternative Use of Resources

The action does not involve the use of any different resource than those previously considered in the Final Environmental Statement for the Maine Yankee Atomic Power Station, dated July 1972.

Agencies and Persons Consulted

On June 11, 2002, the staff consulted with the Maine State official, Mr. Patrick Dostie of the State of Maine, Department of Human Services, regarding the environmental impact of the proposed action. The State official had a question related to the type of effluents (e.g. contaminated dust) that demolition of the slightly contaminated structures could generate. The NRC staff responded to Mr. Dostie's question and provided information that clarified this issue with respect to this licensing action.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated August 16, 2001, as supplemented by letter dated November 19, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike

(first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site,

<http://www.nrc.gov/reading-rm/adams/html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 19th day of July 2002.

Acting Chief, Section 1, Project Directorate IV-1, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension

[Rule 17f-2(c), SEC File No. 270-35, OMB Control No. 3235-0029]

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) the Securities and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Rule 17f-2(c) allows persons required to be fingerprinted pursuant to section 17(f)(2) of the Securities Exchange Act of 1934 to submit their fingerprints through a national securities exchange or a national securities association in accordance with a plan submitted to and approved by the Commission. Plans have been approved for the American, Boston, Chicago, New York, Pacific, and Philadelphia stock exchanges and for the National Association of Securities Dealers and the Chicago Board Options Exchange.

It is estimated that 85,000 registered broker-dealers submit approximately 275,000 fingerprint cards to exchanges or a registered security association on an annual basis. It is approximated that it should take 15 minutes to comply with Rule 17f-2(c). The total reporting burden is estimated to be 68,750 hours.

Because the Federal Bureau of Investigation will not accept fingerprint

cards directly from submitting organizations, Commission approval of plans from certain exchanges and national securities associations is essential to the Congressional goal of fingerprint personnel in the security industry. The filing of these plans for review assures users and their personnel that fingerprint cards will be handled responsibly and with due care for confidentiality.

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Please direct your written comments to Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 5th Street, NW., Washington, DC 20549.

Dated: July 18, 2002.

Margaret H. McFarland,
Deputy Secretary.

450 Fifth Street, NW., Washington, DC 20549-0102 (telephone (202) 942-8090).

Applicant's Representations

1. Each Series will be a series of a Trust and each Trust will be a UIT registered under the Act.² The Depositor is registered under the Securities Exchange Act of 1934 as a broker-dealer and is the depositor of each Series. Each Series will be created by a trust indenture between the Depositor and a banking institution or trust company as trustee ("Trustee").

2. The Depositor acquires a portfolio of securities, which it deposits with the Trustee in exchange for certificates representing units of fractional undivided interest in the Series' portfolio ("Units"). The Units are offered to the public by the Depositor and dealers at a price which, during the initial offering period, is based upon the aggregate market value of the underlying securities plus a front-end sales charge. The Depositor may reduce the sales charge in compliance with rule 22d-1 under the Act in certain circumstances, which are disclosed in the prospectus.

3. The Depositor will maintain a secondary market for Units and continually offer to purchase these Units at prices based upon the market value of the underlying securities. Investors may purchase Units on the secondary market at the current public offering prices plus a front-end sales charge. If the Depositor discontinues maintaining such a market at any time for any Series, holders of the Units ("Unitholders") of that Series may redeem their Units through the Trustee.

A. Deferred Sales Charge and Waiver of Deferred Sales Charge Under Certain Circumstances

1. Applicants request an order to the extent necessary to permit one or more Series to impose a sales charge on a deferred basis ("deferred sales charge" or "DSC"). For each Series, the Depositor would set a maximum sales charge per Unit, a portion of which may be collected "up front" (*i.e.*, at the time an investor purchases the Units). The DSC would be collected subsequently in installments ("Installment Payments") as described in the application. The Depositor would not add any amount for interest or any similar or related charge to adjust for such deferral.

2. When a Unitholder redeems or sells Units, the Depositor intends to deduct any unpaid DSC from the redemption or sale proceeds. When calculating the

¹ Any future Series that relies on the requested order will comply with the terms and conditions of the application.

² All presently existing Trusts that currently intend to rely on the requested order have been named as applicants.
