

Form 1900–10. EPA will use this information to reconcile the contractor's costs. Establishment of the final costs and fixed fee is necessary to close-out the contract. Responses to the information collection are mandatory for those completing work under a cost reimbursement contract, and are required to receive final payment. Information submitted is protected from public release in accordance with the Agency's confidentiality regulation, 40 CFR 2.201 *et seq.*

Burden Statement: EPA estimates that the annual hourly burden for this collection will remain the same as reported in the previous information collection because there has been no change in the information being collected and approximately the same number of contracts represents the total number of annual contracts that are closed-out. EPA estimates that the annual hourly burden will be 42.9 hours based on the following: Each response will take approximately 40 minutes, and EPA closes-out approximately 65 contracts per year. The annual dollar burden is estimated at \$1,346.15 based on a combination of contractor employees providing the information. The total cost of the contractor provided information is estimated to be \$20.71 for the 40 minute period. Minimal operation and maintenance costs are expected for photocopying and postage.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those which request or receive Agency information, products or services, or participate in Agency processes.

Title: Information Collection Request for Customer Satisfaction Surveys, OMB Control Number 2090–0019, EPA ICR Number 1711.04, expiring 03/31/03.

Abstract: Voluntary customer surveys will involve individuals who experience EPA services directly. Though EPA will use all available feedback gathering mechanisms to determine the level of customer satisfaction with attributes of its services, much of this collection will be electronic (60%). The EPA will use information obtained to assist in evaluating and improving service delivery and processes. The Agency

may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The EPA encourages comments to evaluate or suggest: whether the proposed collection of information is necessary for the proper performance of the functions of the Agency; the accuracy of the Agency's burden estimate, and the validity of the methodology and assumptions used; how to enhance the quality, utility, and clarity of the information to be collected; and how to minimize the burden of the collection of information on those who are to respond, including appropriate applications of information technology.

Burden: The average estimated respondent burden is 7.2 minutes. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency, including the time needed to: review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Time is the only direct respondent cost. Respondent cost was calculated using the March 2002 Bureau of Labor Statistics figure of \$23.15 as the hourly wage (with benefits) for civilian wage and salary workers. The EPA estimates the following for the year 2003–2005:

Year	Respondents	Burden hours	Respondent cost
2003	39,823	4691	\$2.72/response (\$108,596.65).
2004	40,148	4821	\$2.77/response (\$111,606.15).
2005	40,073	4821	\$2.78/response (\$111,606.15).

Dated: July 18, 2002.
