

support or confidential password related requests.

8. Each caller (or e-mail request) will be given a unique ticket number generated by the RARS after calling or e-mailing the Technical Support Center. These identifiers will be used within the agency and by the public to obtain information on the status of the problem, issue, or request.

9. Within the agency, the collection of TINs is minimized and access to TINs will be available only to those persons whose jobs require such access (e.g., FCC staff and contractors responsible for password resets in the CORES system and/or requiring the information for licensing related issues). Whenever possible, the FRN will be used in place of the TIN when collecting information on the caller or e-mail requestor.

10. Data resident on network servers are backed-up daily to magnetic media. One week's worth of back-up tapes is stored on-site in fireproof safes. Each week, the previous week's backup tapes are sent to an off-site storage location. These tapes are kept for a minimum of eleven (11) years.

RETENTION AND DISPOSAL:

1. Records will be actively maintained as long as an individual utilizes the system or the records are purged and archived using date specific parameters.

2. Audits of inactive users in the system will occur regularly and, if no activity is shown for the contact person within eleven (11) years, the record will be purged and archived following FCC standard electronic record archiving procedures.

3. Paper records will be archived after being keyed or scanned into the system. The records are retained at the FCC and then destroyed in accordance with the appropriate records retention schedule.

4. Electronic records will be backed up on tape weekly and stored indefinitely at an off-site storage location.

BILLING CODE 6712–01–P

FEDERAL EMERGENCY MANAGEMENT AGENCY

Fee Schedule for Processing Requests for Map Changes, for Flood Insurance Study Backup Data, and for National Flood Insurance Map and Insurance Products

AGENCY: Federal Emergency
Management Agency (FEMA).

ACTION: Notice.

SUMMARY: This notice contains the revised fee schedules for processing certain types of requests for changes to National Flood Insurance Program (NFIP) maps, for processing requests for Flood Insurance Study (FIS) technical and administrative support data, and for processing requests for particular NFIP map and insurance products. The changes in the fee schedules will allow FEMA to reduce further the expenses to the NFIP by recovering more fully the costs associated with processing

conditional and final map change requests; retrieving, reproducing, and distributing technical and administrative support data related to FIS analyses and mapping; and producing, retrieving, and distributing particular NFIP map and insurance products.

DATES: The revised fee schedules are effective for all requests dated September 1, 2002, or later.

FOR FURTHER INFORMATION CONTACT:

Matthew B. Miller, P.E., Chief, Hazards Study Branch, Federal Insurance and Mitigation Administration, 500 C Street SW., Washington, DC 20472; by telephone at (202) 646–3461 or by facsimile at (202) 646–4596 (not toll-free calls); or by email at matthew.miller@fema.gov.

SUPPLEMENTARY INFORMATION: This notice contains the revised fee schedules for processing certain types of requests for changes to NFIP maps, requests for FIS technical and administrative support data, and requests for particular NFIP map and insurance products.

Effective Dates. The revised fee schedule for map changes is effective for all requests dated September 1, 2002, or later. The revised fee schedule supersedes the current fee schedule, which was established on June 1, 2000.

The revised fee schedule for requests for FIS backup data also is effective for all requests dated September 1, 2002, or later. The revised fee schedule supersedes the current fee schedule, which was established on June 1, 2000.

The revised fee schedule for requests for particular NFIP map and insurance products, which are available through the FEMA Map Service Center (MSC), is effective for all written requests, on-line Internet requests made through the FEMA Flood Map Store, and all telephone requests received on or after September 1, 2002. The revised fee schedule supersedes the current fee schedule, which was established on May 1, 2002.

Evaluations Performed. To develop the revised fee schedule for conditional and final map change requests, FEMA evaluated the actual costs of reviewing and processing requests for Conditional Letters of Map Amendment (CLOMAs), Conditional Letters of Map Revision Based on Fill (CLOMR–Fs), Conditional Letters of Map Revision (CLOMRs), Letters of Map Revision Based on Fill (LOMR–Fs), Letters of Map Revision (LOMRs), and Physical Map Revisions (PMRs).

To develop the revised fee schedule requests for FIS technical and administrative support data, FEMA

evaluated the actual costs of retrieving, reproducing, and distributing archived data in seven categories. These categories are discussed in more detail below.

To develop the revised fee schedule for requests for particular NFIP map and insurance products, FEMA (1) evaluated the actual costs incurred at the MSC for producing, retrieving, and distributing those products; (2) analyzed historical sales, cost data, and product unit cost for unusual trends or anomalies; and (3) analyzed the effect of program changes,

new products, technology investments, and other factors on future sales and product costs. The products covered by this notice are discussed in detail below.

Periodic Evaluations of Fees. A primary component of the fees is the prevailing private-sector rates charged to FEMA for labor and materials. Because these rates and the actual review and processing costs may vary from year to year, FEMA will evaluate the fees periodically and publish

revised fee schedules, when needed, as notices in the **Federal Register**.

Fee Schedule for Requests for Conditional Letters of Map Amendment and Conditional and Final Letters of Map Revision Based on Fill

Based on a review of actual cost data for Fiscal Year 2000 and Fiscal Year 2001, FEMA established the following review and processing fees, which are to be submitted with all requests that are not otherwise exempted under 44 CFR 72.5:

Request for single-lot/single-structure CLOMA and CLOMR-F	\$500
Request for single-lot/single-structure LOMR-F	425
Request for single-lot/single-structure LOMR-F based on as-built information (CLOMR-F previously issued by FEMA)	325
Request for multiple-lot/multiple-structure CLOMA	700
Request for multiple-lot/multiple-structure CLOMR-F and LOMR-F	800
Request for multiple-lot/multiple-structure LOMR-F based on as-built information (CLOMR-F previously issued by FEMA)	700

Fee Schedule for Requests for Conditional Map Revisions

Based on a review of actual cost data for Fiscal Year 2000 and Fiscal Year

2001, FEMA established the following review and processing fees, which are to be submitted with all requests that are

not otherwise exempted under 44 CFR 72.5:

Request based on new hydrology, bridge, culvert, channel, or combination thereof	\$4,000
Request based on levee, berm, or other structural measure	4,500

Fee Schedule for Requests for Map Revisions

Based on a review of actual cost data for Fiscal Year 2000 and Fiscal Year

2001, FEMA established the following review and processing fees, which are to be submitted with all requests. Unless the request is otherwise exempted under 44 CFR 72.5, requesters must submit the

review and processing fees shown below with requests for LOMRs and PMRs dated September 1, 2002, or later, that are not based on structural measures on alluvial fans.

Request based on bridge, culvert, channel, or combination thereof	\$4,200
Request based on levee, berm, or other structural measure	6,000
Request based on as-built information submitted as followup to CLOMR	3,800

Fees for Conditional and Final Map Revisions Based on Structural Measures on Alluvial Fans

FEMA has maintained \$5,000 as the initial fee for requests for LOMRs and CLOMRs based on structural measures on alluvial fans. FEMA also will continue to recover the remainder of the review and processing costs by invoicing the requester before issuing a determination letter, consistent with current practice. The prevailing private-sector labor rate charged to FEMA (\$50 per hour) will continue to be used to calculate the total reimbursable fees.

Fee Schedule for Requests for Flood Insurance Study Backup Data

Non-exempt requesters of FIS technical and administrative support data must submit fees shown below with requests dated September 1, 2002, or later. These fees are based on the complete recovery costs to FEMA for retrieving, reproducing, and distributing the data, as well as maintaining the

library archives, and for collecting and depositing fees. FEMA maintains the current fee schedule, as indicated in the **Federal Register** notice published on May 3, 2000, at 65 FR 25726—25728.

All entities except the following will be charged for requests for FIS technical and administrative support data:

- Private architectural-engineering firms under contract to FEMA to perform or evaluate studies and restudies;
- Federal agencies involved in performing studies and restudies for FEMA (i.e., U.S. Army Corps of Engineers, U.S. Geological Survey, Natural Resources Conservation Service, and Tennessee Valley Authority);
- Communities that have supplied the Digital Line Graph base to FEMA and request the Digital Line Graph data (Category 6 below);
- Communities that request data during the statutory 90-day appeal period for an initial or revised FIS for that community;

• Mapped participating communities that request data at any time other than during the statutory 90-day appeal period, provided the data are requested for use by the community and not a third-party user; and

• State NFIP Coordinators, provided the data requested are for use by the State NFIP Coordinators and not a third-party user.

FEMA has established seven categories into which requests for FIS backup data are separated. These categories are:

Category 1—Paper copies, microfiche, or diskettes of hydrologic and hydraulic backup data for current or historical FISs;

Category 2—Paper or mylar copies of topographic mapping developed during FIS process;

Category 3—Paper copies or microfiche of survey notes developed during FIS process;

Category 4—Paper copies of individual Letters of Map Change (LOMCs);

Category 5—Paper copies of Preliminary Flood Insurance Rate Map or Flood Boundary and Floodway Map panels;

Category 6—Computer tapes or CD-ROMs of Digital Line Graph files; and

Category 7—Computer diskettes and user's manuals for FEMA computer programs.

Under the current fee schedule, a non-refundable fee of \$120 is charged to initiate a request under Categories 1, 2, and 3 above. This fee covers the preliminary costs of research and retrieval. If the data requested are

available and the request is not cancelled, the final fee is calculated as a sum of a standard per-product charge plus a per-case surcharge of \$93, designed to recover the cost of library maintenance and archiving. The total costs of processing requests under Categories 1, 2, and 3 will vary, based on the complexity of the research involved in retrieving the data and the volume and medium of data to be reproduced and distributed. The initial fee will be applied against the total costs to process the request, and FEMA will invoice the requester for the balance

before the data are provided. No data will be provided to a requester until all required fees have been paid.

No initial fee is required to initiate a request for data under Categories 4 through 7. Requesters will be notified by telephone about the availability of the data and the fees associated with requested data.

As with requests for data under Categories 1, 2, and 3, no data will be provided to requesters until all required fees are paid. A flat user fee for each of these categories of requests, shown below, will continue to be required.

Request Under Category 4 (First Letter)	\$40
Request Under Category 4 (Each additional letter)	10
Request Under Category 5 (First panel)	35
Request Under Category 5 (Each additional panel)	2
Request Under Category 6 (per county)	150
Request Under Category 7 (per copy)	25
