requires a broadcast station to identify the sponsor of programming for which consideration is provided. For programming advertising commercial products or services, generally mention of the product's name or service constitutes sponsorship identification. For television political advertisements for candidates seeking public office, the sponsor shall be identified with letters equal to or greater than four percent of the vertical height of the television screen. In addition, when an entity rather than an individual sponsors broadcast programming of a political or controversial nature, the licensee must retain a list of the executive officers, board of directors, or executive committee, etc., of the organization paying for the programming. Sponsorship announcements are waived when broadcasting "want ads" are sponsored by individuals, but the licensee must maintain a list of each advertiser's name, address, and telephone number. Each list must be available for public inspection.

Total Annual Burden: 10,903 hours.

Total Annual Costs: \$32,535,500.

The Commission staff use these data to ensure that applicants are qualified to participate in FCC auctions and to ensure that license winners are entitled to receive the new entrant bidding credit, if applicable. Exhibits regarding joint bidding agreements are designed to prevent collusion. Submission of engineering exhibits for non-table services enables the FCC to determine which applications are mutually exclusive.
