BILLING CODE 4510-28-M

NATIONAL FOUNDATION FOR THE ARTS AND HUMANITIES

Institute of Museum and Library Services; Proposed Collection, Comment Request Recruiting and Educating Librarians for the 21st Century Application Form

ACTION: Notice.

SUMMARY: The Institute of Museum and Library Services as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3508(2)(A)] This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently the Institute of Museum and Library Services is soliciting comments concerning the proposed study of the needs of assessment of end-users in library and museum digitization projects funded through the Institute of Museum and Library Services.

A copy of the proposed information collection request can be obtained by contacting the individual listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before October 7, 2002.

IMLS is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submissions of responses.

ADDRESSES: Send comments to Stephanie Clark, Office of Library Services, Institute of Museum and Library Services, 1100 Pennsylvania Ave., NW., Room 802, Washington, DC 20506. Fax: 202-606-1077 or by email sclark@imls.gov Fax or e-mail preferred.

SUPPLEMENTARY INFORMATION:

I. Background

The Institute of Museum and Library Services is an independent Federal grant-making agency authorized by the Museum and Library Services Act Public Law 104-208. The IMLS provides a variety of grant programs to assist the nation's museums and libraries in improving their operations and enhancing their services to the public. Museums and libraries of all sizes and types may receive support from IMLS programs.

The President's FY2003 Budget Request submitted to Congress in early February, 2002 proposes a \$10 million initiative to educate and train librarians. Anticipating the loss of as many as 68% of the current cohort of professional librarians by 2019, the initiative will be designed to "help recruit a new generation of librarians."

The President's proposed initiative recognizes the key role of libraries and librarians in maintaining the flow of information that is critical to support formal education; to guide intellectual, scientific, and commercial enterprise; to strengthen individual decisions; and to create the informed populace that lies at the core of democracy.

Draft application and guidelines are prepared contingent upon Congressional action.

Agency: Institute of Museum and Library Services.

Title: Recruiting and Educating Librarians for the 21st Century.

BILLING CODE 7036-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-247-OLA and ASLBP No. 02-789-01-OLA]

Atomic Safety and Licensing Board; In the Matter of Entergy Nuclear Indian Point 2, LLC, and Entergy Nuclear Operations, Inc., (Indian Point Nuclear Generating Unit No. 2); Public Notice of Prehearing Conference

August 2, 2002.

Before Administrative Judges: Michael C. Farrar, Chairman, Dr. Richard F. Cole, Dr. Charles N. Kelber.

The Atomic Safety and Licensing Board presiding over this license amendment proceeding hereby gives public notice that on Tuesday, August 27, 2002, it will hold a prehearing conference at the Hilton Rye Town, 699 Westchester Avenue, Rye Brook, New York. The conference will convene at 9:00 A.M. and conclude by 1:00 P.M. (no lunch break will be taken). The purpose of this prehearing conference is to hear arguments on (1) the standing of petitioner Riverkeeper, Inc. to intervene in the proceeding; (2) the admissibility of Riverkeeper's petition under regulatory standards governing late-filed intervention requests; and (3) the admissibility of any proposed contention(s) which Riverkeeper may file. This notice sets forth the background developments that led to the conference and covers matters related to public attendance and document availability.

A. Background

The issues before the Board in this license amendment proceeding relate to the admissibility of a late-filed intervention petition. The petition submitted by Riverkeeper challenges the pending application of Entergy Nuclear Indian Point 2, LLC and Entergy Nuclear Operations, Inc. (Entergy), the new operators of Indian Point Nuclear Generation Unit No. 2, for a license change that would, in effect, give the operators a one-time five-year extension of the period within which to conduct the "containment integrated leak rate" test that is otherwise required every ten years.

After conducting a review of the application, the NRC Staff issued a **Federal Register** notice (66 FR 44,161, 44,165 (August 22, 2001)) seeking

public comment on its proposal to make a "no significant hazards" determination as to the amendment request. The notice also provided the opportunity for anyone opposed to the amendment "whose interest may be affected" thereby to file within 30 days (by September 21, 2001) a petition to intervene in the proceeding and to request a hearing.

On March 18, 2002, nearly six months after the deadline for intervening, Riverkeeper filed a "Section 2.714 Petition for Leave to Intervene and Request for a Hearing." Riverkeeper justified its late filing, and its concomitant request for a hearing on the proposed license amendment, by pointing to the then-recent disclosure in the press of the discovery of rusted areas in the reactor containment building. The three participants in this proceeding—the petitioner Riverkeeper, the licensee Entergy, and the NRC Staff—have each filed several pleadings since that time, and are expected to be filing additional pleadings before the conference.

B. Public Attendance at Prehearing Conference

Members of the public are welcome to attend the conference, but are advised that this adjudicatory proceeding is open for observation only. In other words, oral presentations at the conference will be limited to the three organizations listed above, which have undertaken the task of full participation in the proceeding.

In accordance with the policies that govern NRC adjudicatory proceedings, members of the public who do attend will be subject to security screening, which may involve the use of metal detectors and the inspection of briefcases and handbags. Signs, banners, posters, and the like are not allowed because they are disruptive to the active participants in the proceeding and to other members of the audience.

C. Availability of Documents

Documents relating to the Entergy Indian Point Nuclear Generating Unit No. 2 license amendment application and the Riverkeeper petition for intervention at issue in this pretrial conference are now on file at the Commission's Public Document Room, 11545 Rockville Pike, Rockville, Maryland, 20850, and may also be obtained through ADAMS, the electronic Agencywide Documents Access and Management System, accessible through the NRC Web site, using the link <http://www.nrc.gov/reading-rm/adams.html>. Follow the instructions on the Web site to download and install the appropriate ADAMS software onto your computer.

After the installation is complete, read the available online instructions on how to search for documents on ADAMS. Documents are commonly accessed by using docket numbers. All publicly available documents relating to the Indian Point proceeding can be accessed by entering 05000247 in the docket field line in the "ADAMS Find" menu.

Dated at Rockville, Maryland, on August 2, 2002.

For the Atomic Safety and Licensing Board.

Michael C. Farrar,

Chairman, Administrative Judge.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-315 and 50-316]

In the Matter of Indiana Michigan Power Company, (Donald C. Cook Nuclear Plant, Units 1 and 2); Order Approving Application Regarding Proposed Corporate Restructuring

I

Indiana Michigan Power Company (I&M or the licensee) owns 100 percent of the Donald C. Cook Nuclear Plant (D.C. Cook), Units 1 and 2, located in Berrien County, Michigan. I&M exclusively operates the facility.

I&M is a wholly owned, direct subsidiary of American Electric Power Corporation (AEP). I&M is the sole holder of Facility Operating Licenses Nos. DPR-58 for D.C. Cook Unit 1, and DPR-71 for D.C. Cook Unit 2, issued by the U.S. Nuclear Regulatory Commission (NRC or the Commission) pursuant to Part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR Part 50) on October 25, 1974, and December 23, 1977, respectively.

II

Pursuant to section 184 of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.80, I&M filed an application dated March 28, 2002, requesting the Commission's consent to the indirect transfer of the D.C. Cook Units 1 and 2 licenses. The indirect transfer would occur as a result of a proposed corporate restructuring, under which an affiliate company, Central and South West Corporation (CSW), would become the direct parent company of I&M. I&M and CSW are currently wholly owned, direct subsidiaries of AEP. AEP is a registered holding company under the Public Utility Holding Company Act of 1935, as amended. Upon the completion of the
