

moot in light of our action. We note that opponents' substantive arguments in opposing NAB's Motion are considered and disposed of in our determination.

Ordering Clauses

7. Authority for issuance of this Order is contained in sections 4(i), 303(f), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(f), and 303(r), and section 553(d) of the Administrative Procedure Act, 5 U.S.C. 553(d).

8. Pursuant to sections 4(i), 303(f), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(f), and 303(r), and section 553(d) of the Administrative Procedure Act, 5 U.S.C. 553(d), the expiration date of September 6, 2002, for the initial two-year mandatory BAS negotiation period for Phase 1 set forth in the *Second Report and Order* in ET Docket No. 95-18 is hereby suspended, effective August 2, 2002, for one year until September 6, 2003.

9. Pursuant to sections 4(i), 303(f), and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(f), and 303(r), the Motion for Stay of Mandatory Negotiation Period filed by the National Association of Broadcasters (NAB) and the Association for Maximum Service Television, Inc. (MSTV), is hereby dismissed.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.

List of Subjects in 47 CFR Parts 74 and 78

Communications equipment, Radio.

Rule Changes

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR parts 74 and 78 to read as follows:

PART 74—[AMENDED]

1. The authority citation for part 74 continues to read as follows:

Authority: 47 U.S.C. 154, 303, 307, and 554.

2. Section 74.690 is amended by adding the following note to paragraph (e):

§ 74.690 Transition of the 1990–2025 MHz band from the Broadcast Auxiliary Service to emerging technologies.

* * * * *

(e) * * *

Note to paragraph (e): FCC suspends for one year, until September 6, 2003, the expiration date for the initial two-year mandatory negotiation period in paragraph (e)(1) and the beginning of the involuntary relocation period in paragraph (e)(4).

PART 78—[AMENDED]

3. The authority citation for part 78 continues to read as follows:

Authority: Secs. 2, 3, 4, 301, 303, 307, 308, 309, 48 Stat., as amended, 1064, 1065, 1066, 1081, 1082, 1083, 1084, 1085, 47 U.S.C. 152, 153, 154, 301, 303, 307, 308, 309.

4. Section 78.40 is amended by adding the following note to paragraph (f):

§ 78.40 Transition of the 1990–2025 MHz band from the Cable Television Relay Service to emerging technologies.

* * * * *

Note to paragraph (f): FCC suspends for one year, until September 6, 2003, the expiration date for the initial two-year mandatory negotiation period in paragraph (e)(1) and the beginning of the involuntary relocation period in paragraph (f)(4).

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

49 CFR Part 541

[Docket No. NHTSA-2002-11443; Notice 02]

RIN 2127-AI73

Final Theft Data; Motor Vehicle Theft Prevention Standard

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Publication of final theft data.

SUMMARY: This document publishes the final data on thefts of model year (MY) 2000 passenger motor vehicles that occurred in calendar year (CY) 2000. The final 2000 theft data indicate that the vehicle theft rate for CY/MY 2000 vehicles (2.89 thefts per thousand vehicles) did not change from the theft rate for CY/MY 1999 (2.89 thefts per thousand vehicles) when compared to the theft rate experienced in CY/MY 1999. Publication of these data fulfills NHTSA's statutory obligation to periodically obtain accurate and timely theft data and publish the information for review and comment.

FOR FURTHER INFORMATION CONTACT: Ms. Deborah Mazyck, Office of Planning and Consumer Programs, NHTSA, 400 Seventh Street, SW., Washington, DC 20590. Ms. Mazyck's telephone number is (202) 366-0846. Her fax number is (202) 493-2290.

SUPPLEMENTARY INFORMATION: NHTSA administers a program for reducing motor vehicle theft. The central feature of this program is the Federal Motor Vehicle Theft Prevention Standard, 49 CFR part 541. The standard specifies performance requirements for inscribing and affixing vehicle identification numbers (VINs) onto certain major original equipment and replacement parts of high-theft lines of passenger motor vehicles.

The agency is required by 49 U.S.C. 33104(b)(4) to periodically obtain, from the most reliable source, accurate and timely theft data and publish the data for review and comment. To fulfill this statutory mandate, NHTSA has published theft data annually beginning with MYs 1983/84. Continuing to fulfill the "33104(b)(4)" mandate, this document reports the final theft data for CY 2000, the most recent calendar year for which data are available.

In calculating the 2000 theft rates, NHTSA followed the same procedures it used in calculating the MY 1999 theft rates. (For 1999 theft data calculations, see 66 FR 39554, July 31, 2001.) As in all previous reports, NHTSA's data were based on information provided to NHTSA by the National Crime Information Center (NCIC) of the Federal Bureau of Investigation. The NCIC is a government system that receives vehicle theft information from nearly 23,000 criminal justice agencies and other law enforcement authorities throughout the United States. The NCIC data also include reported thefts of self-insured and uninsured vehicles, not all of which are reported to other data sources.

The 2000 theft rate for each vehicle line was calculated by dividing the number of reported thefts of MY 2000 vehicles of that line stolen during calendar year 2000 by the total number of vehicles in that line manufactured for MY 2000, as reported to the Environmental Protection Agency (EPA).

The final 2000 theft data show no change in the vehicle theft rate when compared to the theft rate experienced in CY/MY 1999. The final theft rate for MY 2000 passenger vehicles stolen in calendar year 2000 of 2.89 thefts per thousand vehicles produced, did not change from the rate of 2.89 thefts per thousand vehicles experienced by MY 1999 vehicles in CY 1999. For MY 2000 vehicles, out of a total of 206 vehicle lines, 51 lines had a theft rate higher than 3.5826 per thousand vehicles, the established median theft rate for MYs 1990/1991. (See 59 FR 12400, March 16, 1994.) Of the 51 vehicle lines with a theft rate higher than 3.5826, 43 are

passenger car lines, eight are multipurpose passenger vehicle lines, and none are light-duty truck lines.

On Tuesday, March 12, 2002, NHTSA published the preliminary theft rates for CY 2000 passenger motor vehicles in the **Federal Register** (67 FR 11161). The agency tentatively ranked each of the MY 2000 vehicle lines in descending order of theft rate. The public was requested to comment on the accuracy of the data and to provide final production figures for individual vehicle lines. The agency did not

receive any written comments from the public. As a result, the final theft rates and rankings of vehicle lines did not change from those published in the March 2002 notice.

Further reanalysis of the theft rate data revealed that the number of vehicle lines reported with a theft rate higher than 3.5826 was incorrect. Preliminary theft data for CY 2000 inadvertently reported that there were 45 passenger car lines with theft rates higher than 3.5826. However, NHTSA is correcting the final theft data to report 43

passenger car lines with a theft rate higher than 3.5826 and eight multipurpose passenger car lines with a theft rate higher than 3.5826.

The following list represents NHTSA's final calculation of theft rates for all 2000 passenger motor vehicle lines. This list is intended to inform the public of calendar year 2000 motor vehicle thefts of model year 2000 vehicles and does not have any effect on the obligations of regulated parties under 49 U.S.C. Chapter 331, Theft Prevention.
