

2002. The Rubber Manufacturers Association (the RMA), Ispat Germany, Lincoln Electric and Bluff City filed rebuttals to petitioners' June 28 submission on July 8, 11, 17, and 29, 2002, respectively. The RMA filed additional comments on July 30, 2002.¹

The Department has analyzed these requests and the petitioners' objections and we find no modifications to the scope are warranted. See Memorandum from Richard Weible to Faryar Shirzad, "Carbon and Certain Alloy Steel Wire Rod; Antidumping Duty (Brazil, Canada, Germany, Indonesia, Mexico, Moldova, Trinidad and Tobago, and Ukraine) and Countervailing Duty (Brazil, Canada, Germany, Trinidad and Tobago, and Turkey) Investigations: Requests for Scope Exclusion" dated August 23, 2002, which is on file in the CRU.

Critical Circumstances

The petitioners have alleged that critical circumstances within the meaning of section 703(e) of the Act exist with respect to the subject merchandise.

Because our final determination in this case is negative, we need not further address the issue of whether critical circumstances exist with respect to imports of subject merchandise from Turkey.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this investigation are addressed in the "Issues and Decision Memorandum" from Richard W. Moreland, Deputy Assistant Secretary, Import Administration to Faryar Shirzad, Assistant Secretary, Import Administration, dated August 23, 2002 ("Decision Memorandum"), which is hereby adopted by this notice. Attached to this notice as Appendix I is a list of the issues which parties have raised and to which we have responded in the *Decision Memorandum*. Parties can find a complete discussion of all issues raised in this investigation and the corresponding recommendations in this public memorandum which is on file in the CRU. In addition, a complete version of the *Decision Memorandum* can be accessed directly on the Internet at <http://ia.ita.doc.gov/frn/> under the heading "Turkey." The paper copy and electronic version of the *Decision Memorandum* are identical in content.

¹ On August 9, 2002, Bekaert Corporation requested an exclusion for certain high chrome/high silicon steel wire rod from the scope of these investigations. This request was filed too late to be considered for the final determinations in these investigations.

Suspension of Liquidation

In the *Preliminary Determination*, the total net countervailable subsidy rates for all the responding companies were *de minimis* and, therefore, we did not suspend liquidation. For the final determination, because the rates for all the responding companies remain *de minimis*, we are not directing the Customs Service to suspend liquidation of CASWR from Turkey, pursuant to section 705(c)(2) of the Act.

ITC Notification

In accordance with section 705(d) of the Act, we will notify the International Trade Commission of our determination.

Return or Destruction of Proprietary Information

This notice serves as the only reminder to parties subject to an Administrative Protection Order ("APO") of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Failure to comply is a violation of the APO.

This determination is published pursuant to sections 705(d) and 777(i) of the Act.

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Navy Operations of Surveillance Towed Array Sensor System Low Frequency Active Sonar

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of issuance of a Letter of Authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended, and implementing regulations, notification is hereby given that a 1-year Letter of Authorization (LOA) to take marine mammals incidental to the U.S. Navy's operation of Surveillance Towed Array Sensor System Low Frequency Active (SURTASS LFA) sonar operations has been issued to the Chief of Naval Operations, Department of the Navy, 2000 Navy Pentagon, Washington, DC, and persons operating under his authority.

DATES: Effective from August 16, 2002, through August 15, 2003.

ADDRESSES: A copy of the July 16, 2002, application is available by writing to Donna Wieting, Chief, Marine Mammal Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910, or by telephoning the contact listed here.

FOR FURTHER INFORMATION CONTACT: Kenneth R. Hollingshead, Office of Protected Resources, NMFS, (301) 713-2055, ext 128.

SUPPLEMENTARY INFORMATION:

Background

Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs the Secretary of Commerce to allow, upon request, the incidental, but not intentional taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and regulations are issued.

Permission may be granted for periods of 5 years or less if NMFS finds that the taking will have no more than a negligible impact on the species or stock(s), and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses. In addition, NMFS must prescribe regulations that include permissible methods of taking and other means effecting the least practicable adverse impact on the species and its habitat, and on the availability of the species for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance. The regulations must include requirements pertaining to the monitoring and reporting of such taking.

Regulations governing the taking of marine mammals incidental to the U.S. Navy's operation of SURTASS LFA sonar were published on July 16, 2002 (67 FR 46712), and remain in effect until August 15, 2007. For detailed information on this action, please refer to that document. These regulations include mitigation, monitoring, and reporting requirements for the incidental taking of marine mammals by the SURTASS LFA sonar system.

Summary of Request

On July 16, 2002, NMFS received an application from the U.S. Navy for an LOA under the regulations issued on July 16, 2002 (67 FR 46712), and effective on August 15, 2002. This application updated the information contained in both the original application for an LOA dated August 12,

1999, and the revised application submitted on April 6, 2000, for takings of marine mammals by harassment incidental to deploying the SURTASS LFA sonar system for training, testing and routine military operations. The July 16, 2002, mission intention letter requested a taking by harassment, under section 101(a)(5)(A) of the MMPA, of small numbers of marine mammals incidental to operation of the SURTASS LFA sonar system while conducting up to an estimated 6 active sonar missions (or equivalent shorter missions not to exceed 432 hours of transmit time) for one year in the Archipelagic Deep Basins Province, North Pacific Tropical Gyre (West) Province, and North Pacific Tropical Gyre (East) Province within the Pacific Trade Wind Biome and in the Kuroshio Current Province, and Pacific Subarctic Gyres (West) Province within the Pacific Westerly Winds Biome, as identified in 50 CFR 216.180(a).

Authorization

Accordingly, NMFS issued an LOA to the U.S. Navy on August 16, 2002, authorizing the taking of small numbers of marine mammals incidental to operating the SURTASS LFA sonar system for training, testing and routine military operations. Issuance of this LOA is based on findings, described in the preamble to the final rule (67 FR 46712, July 16, 2002), that the total takings by this activity will result in only small numbers of marine mammals being taken, have no more than a negligible impact on marine mammal stocks, and will not have an unmitigable adverse impact on the availability of the affected marine mammal stocks for subsistence uses. A copy of the Letter of Authorization and other cited documents are available at: http://www.nmfs.noaa.gov/prot_res/PR2/Acoustics_Program/Sound.htm Sonar

This LOA remains valid until August 15, 2003, provided the Navy is in conformance with the conditions of the regulations and the LOA and the mitigation, monitoring, and reporting requirements described in 50 CFR 216.184-216.186 (67 FR 46712, July 16, 2002) and in the LOA are undertaken.

Dated: August 26, 2002.

David Cottingham

Deputy Director, Office of Protected Resources, National Marine Fisheries Service.
