

Comment: One commenter suggested that the priority focus on deaf, hard-of-hearing, and deaf-blind populations generally, and include diversity within that focus (rather than focusing exclusively on diversity).

Discussion: The focus of this priority is on persons from diverse racial, ethnic, and linguistic backgrounds. However, individual applicants may devise their own organizational framework, including target population. The peer review process will evaluate the merits of submitted proposals.

Changes: None.

Comment: One commenter suggested educating clinicians on communication with deaf-blind individuals.

Discussion: An applicant could pursue this issue under question (3), covering model communication strategies with deaf, hard-of-hearing, or deaf-blind individuals who have minimal language skills, or under questions (4) or (5). The peer review process will evaluate the merits of the proposals.

Changes: None.

Priority 3—Developing Models To Promote the Use of NIDRR Research

Comment: One commenter suggested that the priority be broadened to include research projects that were not sponsored by NIDRR.

Discussion: NIDRR understands the value of research sponsored by other entities, and it may be necessary to look at this research to fully develop topic areas; however, an emphasis on NIDRR-sponsored research is preferred.

Changes: The priority has been changed to reflect that NIDRR-sponsored research is preferred.

Comment: One commenter felt that nondisability-focused research should be included, such as that pertaining to welfare-

to-work projects, in order to infuse disability research with what has been learned in that area and to promote the transfer of disability research to the non-disability field.

Discussion: This comment is broader than the proposed priority area to develop specific models that could be useful for the utilization of disability research. Just developing a model that includes other types of research will not achieve the kind of outcome this commenter seeks. This might lend itself to a broader priority in the future.

Changes: None.

Comment: One commenter suggested that bullet number 3 be changed to add the words "alternate media" to ensure that training materials produced would be ready for use with audiences with disabilities.

Discussion: NIDRR agrees that NIDRR supported programs should develop products that are accessible to all individuals, including alternative formats.

Changes: The priority has been changed to add the word alternative.

Comment: One commenter suggested that the second unnumbered bullet be amended to include the words "rehabilitation researchers and" individuals with disabilities.

Discussion: NIDRR wants to ensure that this priority is relevant to rehabilitation researchers and to individuals with disabilities. In the original priority, we required participation of individuals with disabilities.

Changes: The priority has been changed to reflect rehabilitation researchers, as well as family members.
