Agency Information Collection Activities: Proposed Collection; Comment Request; Tribal Operator Certification Program Information Collection Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following proposed Information Collection Request (ICR) to the Office of Management and Budget (OMB): Tribal Operator Certification Program ICR, EPA No. 2092.01. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before November 18, 2002.

ADDRESSES: People interested in making comments about the burden and/or cost estimates outlined in the Tribal Operator Certification Program ICR should direct comments to the Office of Ground Water and Drinking Water, Drinking Water Protection Branch, Mail Code 4606M, 1200 Pennsylvania Avenue, NW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: For more information, or to obtain a copy of the draft Tribal Operator Certification Program ICR without charge, please contact Lisa Christ (202) 564-8354, fax (202) 564-3755, e-mail: christ.lisa@epa.gov.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are Tribal Drinking Water Systems and Tribal Operator Certification Providers.

Title: Tribal Operator Certification Program Information Collection Request (EPA No. 2092.01).

Abstract: The Tribal Operator Certification Program was developed to increase public health protection by increasing training and certification of personnel operating community and nontransient noncommunity drinking

water systems in Indian Country. This voluntary program is intended to provide tribes with further training and certification opportunities in addition to existing training or certification programs offered by States, various federal agencies, and private organizations. The Information Collection Request will estimate the burden and cost to tribal drinking water system operators who seek certifications from EPA approved providers.

In addition, the burden and cost to Tribal Certification Providers will be estimated. The information collected will be used to measure EPA's goal for 80% of tribal community and nontransient noncommunity water systems to have a certified operator by 2005. Establishing a tribal operator certification program will help achieve this goal while bringing greater public health protection to tribal communities. The information collected will include: number and level of new certifications, number and level of renewal certifications, information regarding revoked and suspended certifications, and training status for tribal drinking water system operators. Responses to the collection of information are voluntary. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The estimated annual burden for the Tribal Operator Certification Program is approximately 2,597 hours. The estimated average burden hours per response is 17.6 hours. The estimated average number of

responses per respondent is 0.54. The estimated number of likely respondents annually is 271. The estimated annual cost is \$71,256; of which \$0 represents capital and start-up costs, and \$82 represents operation and maintenance costs. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: September 11, 2002.

Cynthia C. Dougherty,

Director, Office of Ground Water and Drinking Water.

Agency Information Collection Activities: Submission for OMB Review; Comment Request; NSPS for Equipment Leaks of VOC in Petroleum Refineries

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: NSPS for Equipment Leaks of VOC in Petroleum Refineries—Subpart GGG, OMB Control Number 2060-0067; expiring October 31, 2002. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before October 17, 2002.

ADDRESSES: Send comments, referencing EPA ICR No. 0983.07 and OMB Control No. 2060-0067, to the following

addresses: Susan Auby, U.S. Environmental Protection Agency, Collection Strategies Division (Mail Code 2822T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR contact Susan Auby at EPA by phone at (202) 566-1672, by e-mail at auby.susan@epa.gov, or download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 0983.07. For technical questions about the ICR contact Dan Chadwick at (202) 564-7054.

SUPPLEMENTARY INFORMATION:

Title: NSPS for Equipment Leaks of VOC in Petroleum Refineries—Subpart GGG, OMB Control No. 2060-0067; EPA ICR No. 0983.07, expiration date October 31, 2002. This is a request for extension of a currently approved collection.

Abstract: The New Source Performance Standards (NSPS) for Equipment Leaks of Volatile Organic Compounds (VOC) in Petroleum Refineries were proposed on January 4, 1983 and promulgated on May 30, 1984. These standards apply to the following facilities in petroleum refineries: compressors and the group of all equipment (e.g. valves, pumps, flanges, etc.) within a process unit in VOC service, commencing construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subpart GGG.

Owners or operators of the affected facilities described must make one-time-only notifications. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Monitoring requirements specific to Equipment Leaks of VOC in Petroleum Refineries provide information on which components are leaking VOCs. NSPS subpart GGG references the compliance requirements of NSPS subpart VV. Owners or operators are required to periodically (time period varies depending on equipment type and leak history) record information identifying leaking equipment, repair methods used to stop the leaks and dates of repair. Semiannual reports are required to measure compliance with the standards of NSPS subpart VV as referenced by

NSPS subpart GGG. These notifications, reports, and records are essential in determining compliance; and are required, in general, of all sources subject to NSPS. Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records.

All reports are sent to the delegated State or Local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA Regional Office. Responses to this information collection are mandatory. Section 111 of the Clean Air Act as Amended provide EPA with the authority for NSPS standards; 40 CFR part 60, NSPS subpart GGG, requires the collection of the emissions data.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on January 30, 2002, (67 FR 4421); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 57 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners and operators of petroleum refineries.

Estimated Number of Respondents: 48.

Frequency of Response: Initial, weekly, monthly, quarterly, semiannual.

Estimated Total Annual Hour Burden: 6,137 hours.

Estimated Total Annualized Capital, and O&M Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 0983.07 and OMB Control No. 2060-0067 in any correspondence.

Dated: August 23, 2002.

Oscar Morales,

Director, Collection Strategies Division.

EPA Science Advisory Board Executive Committee; Notification of Public Advisory Committee Meeting

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Executive Committee (EC) of the U.S. EPA Science Advisory Board (SAB) will meet on Tuesday, October 1, 2002 and Wednesday, October 2, 2002 at the Hotel Washington, (Federal Room) 515 15th Street, NW., Washington, DC. The meeting will begin by 9 a.m. on October 1 and adjourn no later than 3 p.m. on October 2, 2002 Eastern Time. The meeting is open to the public, however, seating is limited and available on a first come basis.

Purpose of the Meeting: This meeting of the SAB Executive Committee is one in a series of periodic meetings in which the EC takes action on reports generated by SAB Committees, meets with Agency leadership, and addresses a variety of issues germane to the operation of the Board. The agenda for the meeting will be posted on the SAB Web site (<http://www.epa.gov/sab>) approximately two weeks before the meeting and may include, but not be limited to the following:

1. Action on Committee reports, including:

(a) Radiation Advisory Committee (RAC): "Underground Storage Tanks (UST) Cleanup and Resource Conservation and Recovery Act (RCRA) Subtitle C Program Benefits, Costs, and Impacts Assessments: An EPA Science Advisory Board Advisory"

(b) Executive Committee's Trichloroethylene (TCE) Review Panel: "Review of Draft Trichloroethylene
