

300 ppb. This is ten thousand fold higher than the theoretical exposure from the olive fly attract and kill target device.

E. Cumulative Exposure

Because of the method of application and the low use rates of ammonium bicarbonate, little to no exposure is expected. Since ammonium bicarbonate is approved as a direct food additive and is listed as "Generally Recognized as Safe" by the U.S. Food and Drug Administration, there is no concern regarding the potential for cumulative effects of ammonium bicarbonate from the proposed use with other substances due to a common mechanism of action.

F. Safety Determination

1. *U.S. population.* Evidence of ammonium bicarbonate's low toxicity is demonstrated in the data reported for the related salts, ammonium chloride and sodium bicarbonate. The U.S. Food and Drug Administration has placed the following limitations on the maximum allowable levels of ammonium bicarbonate in processed foods: up to 3.2% in baked goods, grain, snack foods and reconstituted vegetables. This is the equivalent of 32,000 ppm of ammonium bicarbonate concentration in these foods.

Ammonium bicarbonate is exempt from the requirement of a tolerance under 40 CFR 180.1001(c) when it is used as a surfactant, suspending agent or dispensing agent in pesticide formulations applied to growing crops or to raw agricultural commodities after harvest. The amount of ammonium bicarbonate used in a pesticide formulation is not restricted by 40 CFR 180.1001(c). Therefore, any level of residue of ammonium bicarbonate in or on olives is currently acceptable when used for these purposes.

Given the method of application of ammonium bicarbonate where it is bound in a polymer within a discrete target device it is extremely unlikely for this compound to come into contact with and result in residues in or on olive fruit. Thus, aggregate exposure to ammonium bicarbonate from use in the olive fly attract and kill target device and any risk to human health will be negligible.

2. *Infants and children.* Given the low toxicity of the related salts ammonium chloride and sodium bicarbonate and the allowable levels of ammonium bicarbonate in processed foods, there is a reasonable certainty of no harm to children and infants from the use of the olive fly attract and kill target device in olive orchards.

G. Effects on the Immune and Endocrine Systems

Certis USA has no information to suggest that ammonium bicarbonate will adversely affect the immune or endocrine systems.

H. Existing Tolerances

Ammonium bicarbonate is exempt from the requirement of a tolerance under 40 CFR 180.1001(c) when used as an inert ingredient in pesticide formulations applied to growing crops or to raw agricultural commodities after harvest. Ammonia is exempt from the requirement of a tolerance under 40 CFR 180.1003 when used as a fungicide applied to grapefruit, lemons, oranges, and corn grain.

I. International Tolerances

There is no Codex maximum residue level (MRL) for ammonium bicarbonate. Canada has established permitted residue levels of ammonium bicarbonate in cocoa products and in unstandardized food products.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7382-9]

Office of Environmental Information Contact Information Data Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of information availability and request for comments.

SUMMARY: Notice of availability is hereby given for a 45-day public comment period on the Contact Information Data Standard. The draft standard consists of a list of data elements, definitions for these elements, notes, and explanatory preamble language. Also included in the Docket are a set of Frequently Asked Questions Concerning the Contact Information Data Standard. The draft standard was developed by the partnership efforts of States, Tribes, and U.S. Environmental Protection Agency participating in the Environmental Data Standards Council (EDSC). The EDSC convened Action Teams consisting of representatives from EPA, and the States to develop the core set of data elements to facilitate the sharing of information regarding contact name, address, and communication information. The EPA and the EDSC invite comment on these standards from States, EPA, Tribes, database managers in the public and private sectors, and the general public with interest in

development and use of data for which defines the who, where, and how in contacting a person or organization.

DATES: Comments must be submitted on or before November 12, 2002.

ADDRESSES: Comments may be submitted electronically, by mail, by facsimile, or through hand delivery/courier. Follow the detailed instructions as provided in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Linda Spencer, OEI/OIC/CSTD, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue (MC 2822T), Washington, DC 20460, Phone: 202 566 1651, Fax: 202 566 1624, e-mail: spencer.linda@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. How Can I Get Copies of This Document and Other Related Information?

1. Docket

EPA has established an official public docket for this action under Docket ID No. OEI-2002-0007. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the OEI Docket in the EPA Docket Center, (EPA/DC) EPA West, Room B102, 1301 Constitution Ave., NW, Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1742, and the telephone number for the OEI Docket is (202) 566-1752).

2. Electronic Access

You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search,"

then key in the appropriate docket identification number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as CBI and other information whose disclosure is restricted by statute, which is not included in the official public docket, will not be available for public viewing in EPA's electronic public docket. EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. To the extent feasible, publicly available docket materials will be made available in EPA's electronic public docket. When a document is selected from the index list in EPA Dockets, the system will identify whether the document is available for viewing in EPA's electronic public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B. EPA intends to work towards providing electronic access to all of the publicly available docket materials through EPA's electronic public docket.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EPA's electronic public docket as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EPA's electronic public docket. The entire printed comment, including the copyrighted material, will be available in the public docket.

Public comments submitted on computer disks that are mailed or delivered to the docket will be transferred to EPA's electronic public docket. Public comments that are mailed or delivered to the Docket will be scanned and placed in EPA's electronic public docket. Where practical, physical objects will be photographed, and the photograph will be placed in EPA's electronic public docket along with a brief description written by the docket staff.

For additional information about EPA's electronic public docket visit EPA Dockets online or see 67 FR 38102, May 31, 2002.

B. How and To Whom Do I Submit Comments?

You may submit comments electronically, by mail, by facsimile, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate docket identification number in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments. However, late comments may be considered if time permits.

1. Electronically

If you submit an electronic comment as prescribed below, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment. Also include this contact information on the outside of any disk or CD ROM you submit, and in any cover letter accompanying the disk or CD ROM. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. EPA's policy is that EPA will not edit your comment, and any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

i. EPA Dockets. Your use of EPA's electronic public docket to submit comments to EPA electronically is EPA's preferred method for receiving comments. Go directly to EPA Dockets at <http://www.epa.gov/edocket>, and follow the online instructions for submitting comments. To access EPA's electronic public docket from the EPA Internet home page, select "Information Sources," "Dockets," and "EPA Dockets." Once in the system, select "search," and then key in Docket ID No. **OEI-2002-0007**. The system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment.

ii. E-mail. Comments may be sent by electronic mail (e-mail) to OEI.docket@epa.gov, Attention Docket ID No. **OEI-2002-0007**. In contrast to

EPA's electronic public docket, EPA's e-mail system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through EPA's electronic public docket, EPA's e-mail system automatically captures your e-mail address. E-mail addresses that are automatically captured by EPA's e-mail system are included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

iii. Disk or CD ROM. You may submit comments on a disk or CD ROM that you mail to the mailing address identified in Unit 1.B. These electronic submissions will be accepted in WordPerfect or ASCII file format. Avoid the use of special characters and any form of encryption.

iv. By Mail. Send your comments to: OEI Docket, Environmental Protection Agency, Mailcode: 6102T, 1200 Pennsylvania Ave., NW, Washington, DC, 20460, Attention Docket ID No. **OEI-2002-0007**.

v. By Hand Delivery or Courier. Deliver your comments to: Public Reading Room, Room B102, EPA West Building, 1301 Constitution Avenue, NW, Washington, DC, Attention Docket ID No. **OEI-2002-0007**. Such deliveries are only accepted during the Docket's normal hours of operation as identified in Unit I. A. 1.

vi. By Facsimile. Fax your comments to: 202-566-1753, Attention Docket ID. No. **OEI-2002-0007**.

C. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at your estimate.
5. Provide specific examples to illustrate your concerns.
6. Offer alternatives.
7. Make sure to submit your comments by the comment period deadline identified.
8. To ensure proper receipt by EPA, identify the appropriate docket identification number in the subject line on the first page of your response. It would also be helpful if you provided the name, date, and **Federal Register** citation related to your comments.

II. Environmental Data Standards Council (EDSC) Background

Data sharing has become an increasingly important aspect of sound environmental management. States, Tribes, and EPA together face the critical challenge of sharing information among themselves and with their respective stakeholders and public. Fundamental to the seamless exchange of data are data standards. Data standards help improve the ability of partners (internal and external) to exchange data efficiently and accurately, and also assist secondary users of data to understand, interpret, and use data appropriately. Recognition of the need for EPA, States and Tribes to develop and agree upon data standards for environmental information sharing has led to the creation of the EDSC. Data standards are documented agreements on formats and definitions of data elements. Standards are developed only when there is an environmental management business reason.

The EDSC's mission is to promote the efficient sharing of environmental information between EPA, States, Tribes, and other parties through the development of data standards. The EDSC identified contact information as an information area for which having a standard will create value to all interested parties. An Action Team deliberation process bringing together State, EPA, and Tribal parties began in June 2002 for the Contact Information Data Standard. The standard was delivered to the EDSC for consideration in August 2002 and approved for initiation of this 45-day public comment period.

After the comment period announced in this Notice, the EDSC and its Action Team will review comments received and make appropriate modifications. The EDSC will then consider approval of these data standards as appropriate. EDSC approval does not bind an individual agency to using a standard. It will be up to the individual or programs to determine if, when, and how it might use a standard developed under the auspices of the EDSC. It will be the intent of EPA to adopt and implement the consistent use of EDSC-approved standards in its information systems and programs.

III. Draft Contact Information Data Standard Background

The draft Contact Information Data Standard includes: (1) Point of Contact, (2) Address, and (3) Communication information. The Contact Information Data Standard helps define the answers

to: who, where, and how in contacting a person or organization. In order to ensure consistency among data standards, some of the data elements which are included in this Contact Information Data Standard have been incorporated from the Facility Identification Data Standard and the Permitting Standards which were previously approved by the EDSC. In addition to being available in the docket, the Draft Contact Information Data Standard and the Frequently Asked questions concerning the Data Standard can be accessed on the EDSC Web site at <http://www.epa.gov/edsc> or in the U.S. Environmental Protection Agency's Environmental Data Registry at <http://www.epa.gov/edr>.

IV. Future Revisions

EDSC standards will be periodically reviewed and revised as recommended by the EDSC. The most current standards will be posted at www.edsc.org and www.epa.gov/edr.

V. Review of Draft Standard to Date

The draft standard has received significant input through the representatives from EPA program, States, and Tribal organizations. In addition, the preliminary versions of the draft standards have been reviewed by State and EPA programs managers during the second quarter of 2002. EDSC members have also reviewed and recommended these draft standards for this public comment process.

Dated: September 17, 2002.

Mark Luttner,

*Director, Office of Information Collection,
Office of Environmental Information.*

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7382-5]

Amendment to Proposed Second Administrative Cashout Settlement Under Section 122(g) of the Comprehensive Environmental Response, Compensation, and Liability Act; In Re: Beede Waste Oil Superfund Site, Plaistow, NH

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of amendment to proposed second administrative settlement and request for public comment.

SUMMARY: In accordance with section 122(i) of the Comprehensive Environmental Response,

Compensation, and Liability Act, as amended, 42 U.S.C. 9622(i), notice is hereby given of an amendment to the proposed second administrative settlement for recovery of past and projected future response costs concerning the Beede Waste Oil Superfund Site in Plaistow, New Hampshire with the settling parties listed in the Supplementary Information portion of this notice. A notice for public comment for the proposed second administrative settlement, which is embodied in a CERCLA section 122(g) Administrative Order on Consent ("AOC"), was published in the **Federal Register** on September 10, 2002 (67 FR 57426). This notice simply amends the original **Federal Register** notice published as noted above to add one additional settling party listed in the Supplementary portion of this notice and to delete the United States Army Corps of Engineers from the list of settling parties. The revised aggregate total dollar amount for this settlement is approximately \$4,750,223.10 and the number of participating parties is 415. Please note that this amendment does not enlarge the comment period already commenced for this second settlement. As stated in 67 FR 57426 the comment period runs from September 10, 2002 to October 10, 2002. During this time, EPA will receive written comments relating to the notice of second settlement, including this amendment. The EPA will consider all comments received and may modify or withdraw its consent to the second settlement if comments received disclose facts or considerations which indicate that the second settlement is inappropriate, improper, or inadequate. The EPA's response to any comments received will be available for public inspection at the EPA Records Center, 1 Congress Street, Boston, MA 02114-2023 (Telephone Number: 617-918-1440).

DATES: Comments must be submitted on or before October 10, 2002.

ADDRESSES: The proposed second settlement is available for public inspection at the EPA Records Center, 1 Congress Street, Boston, MA 02114-2023. Please call 617-918-1440 to schedule an appointment. A copy of the proposed second settlement may be obtained from Kristin Balzano, U.S. Environmental Protection Agency, Region I, 1 Congress Street, Suite 1100 (SES), Boston, MA 02114-2023 (Telephone Number: 617-918-1772). Comments should reference the Beede Waste Oil Superfund Site in Plaistow, New Hampshire and EPA Docket No. CERCLA-1-2002-0025 and should be addressed to Kristin Balzano, U.S.
