### 3:00 Adjourn

The meeting site is accessible to individuals with disabilities. An individual with a disability needing an auxiliary aid or service to participate in the meeting, such as interpreting service, assistive listening device, or materials in an alternate format, must notify the person listed under **FOR FURTHER INFORMATION CONTACT** two weeks before the scheduled meeting date. Although the BLM will attempt to meet a request received after that date, the requested auxiliary aid or service may not be available because of insufficient time to arrange it.

The Federal advisory committee management regulations [41 CFR 101–6.1015(b)] require BLM to publish, in the **Federal Register**, notice of a meeting 15 days prior to the meeting date.

### II. Public Comment Procedures

Members of the public may make oral statements to the Advisory Board on October 28, 2002, at the appropriate point in the agenda. This opportunity is anticipated to occur at 4 p.m. local time. Persons wishing to make statements should register with the BLM by noon October 28, 2002, at the meeting location. Depending on the number of speakers, the Advisory Board may limit the length of presentations. At previous meetings, presentations have been limited to three minutes in length. Speakers should address the specific wild horse and burro-related topics listed on the agenda. Speakers must submit a written copy of their statement to the address listed in the **ADDRESSES** section or bring a written copy to the meeting.

Participation in the Advisory Board meeting is not a prerequisite for submission of written comments. The BLM invites written comments from all interested parties. Your written comments should be specific and explain the reason for any recommendation. The BLM appreciates any and all comments, but those most useful and likely to influence decisions on management and protection of wild horses and burros are those that are either supported by quantitative information or studies or those that include citations to and analysis of applicable laws and regulations. Except for comments provided in electronic format, speakers should submit two copies of their written comments where feasible. The BLM will not necessarily consider comments received after the time indicated under the **DATES** section or at locations other than that listed in the **ADDRESSES** section.

In the event there is a request under the Freedom of Information Act (FOIA)

for a copy of your comments, the BLM will make them available in their entirety, including your name and address. However, if you do not want the BLM to release your name and address in response to a FOIA request, you must state this prominently at the beginning of your comment. BLM will honor your request to the extent allowed by law. BLM will release all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, in their entirety, including names and addresses.

### Electronic Access and Filing Address

Speakers may transmit comments electronically via the Internet to: *Janet Nordin@blm.gov*. Please include the identifier “WH&B” in the subject of your message and your name and address in the body of your message.

Dated: September 19, 2002.

### Conveyance of Mineral Interests in California

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of segregation.

**SUMMARY:** The private land described in this notice, aggregating 76.64 acres, is segregated and made unavailable for filings under the general mining laws and the mineral leasing laws to determine its suitability for conveyance of the reserved mineral interest pursuant to section 209 of the Federal Land Policy and Management Act of October 21, 1976. The mineral interests will be conveyed in whole or in part upon favorable mineral examination. The purpose is to allow consolidation of surface and subsurface of minerals ownership where there are no known mineral values or in those instances where the reservation interferes with or precludes appropriate non-mineral development and such development is a more beneficial use of the land than the mineral development.
