## **Impact of Various Acts and Executive**

After carefully reviewing the changes implemented by this amendment, it was determined that:

(1) This was a significant regulatory action under section 3(f)(4) of Executive Order 12866 "Regulatory Planning and Review", and required a review by the Office of Management and Budget;

(2) The Corporation hereby certifies that the Regulatory Flexibility Act does not apply because there is no "significant economic impact on a substantial number of small entities';

(3) That the Unfunded Mandates Reform Act of 1995 (2 U.S.C. chapter 25, subchapter II) does not apply because the amendment does not result in any annual expenditures of \$100 million by State, local, Indian Tribal governments or the private sector;

(4) That the Paperwork Reduction Act does not apply because the amendments do not impose any additional reporting or record-keeping requirements;

(5) That the Small Business Regulatory Enforcement Fairness Act of 1996 does not apply because it is not a major rule as defined by section 251 of the Small Business Regulatory Enforcement Fairness Act of 1996, and would not result in an annual effect on the economy of \$100 million or more; result in an increase in cost or prices; or have significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based companies to compete with foreignbased companies in domestic and export markets; and

(6) That Executive Order 13132, "ralism" does not apply because it would not have substantial direct effects on the States or the relationship between the national government and

the States.

#### List of Subjects in 45 CFR Part 2552

Aged, Grant programs—social programs, Volunteers.

For the reasons set forth in the preamble, the Corporation for National and Community Service amends 45 CFR part 2552 as follows:

#### PART 2552—FOSTER GRANDPARENT **PROGRAM**

1. The authority citation for part 2552 continues to read as follows:

Authority: 42 U.S.C. 4950 et seq.

2. Revise § 2552.23(c)(2)(iv) to read as follows:

#### § 2552.23 What are a sponsor's program responsibilities?

- (c) \* \* \*
- (2) \* \* \*

(iv) That states the station assures it will not discriminate against Foster Grandparents or in the operation of its program on the basis of race; color; national origin, including individuals with limited English proficiency; sex; age; political affiliation; religion; or on the basis of disability, if the participant or member is a qualified individual with a disability; and

3. In § 2552.42, revise paragraph (b) to read as follows:

#### § 2552.42 What income guidelines govern eligibility to serve as a stipended Foster **Grandparent?**

(b) For applicants to become stipended Foster Grandparents, annual income is projected for the following 12 months, based on income at the time of application. For serving stipended Foster Grandparents, annual income is counted for the past 12 months. Annual income includes the applicant or enrollee's income and that of his/her spouse, if the spouse lives in the same residence. Sponsors shall count the value of shelter, food, and clothing, if provided at no cost by persons related to the applicant, enrollee, or spouse.

4. Revise § 2552.51 to read as follows:

#### § 2552.51 What are the terms of service of a Foster Grandparent?

A Foster Grandparent shall serve a minimum of 15 hours per week and a maximum of 40 hours per week. A Foster Grandparent shall not serve more than 2088 hours per year. Within these limitations, a sponsor may set service policies consistent with local needs.

5. Revise § 2552.61 to read as follows:

#### § 2552.61 May a sponsor serve as a volunteer station?

Yes, a sponsor may serve as a volunteer station, provided this is part of the application workplan approved by the Corporation.

Dated: September 23, 2002.

FEDERAL COMMUNICATIONS

### Assessment and Collection of Regulatory Fees for Fiscal Year 2002

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule; correction.

**SUMMARY:** The Commission makes the following edits to the Assessment and Collection of Regulatory Fees For Fiscal Year 2002, Report and Order, adopted on July 3, 2002 and released on July 5, 2002.

DATES: Effective September 27, 2002.

#### FOR FURTHER INFORMATION CONTACT: Roland Helvajian, Office of Managing Director at (202) 418-0444.

SUPPLEMENTARY INFORMATION: The Office of the Managing Director wishes to make the following corrections in our recently released Assessment and Collection of Regulatory Fees for Fiscal Year 2002, Report and Order (67 FR 46297 (July 12, 2002). An Erratum identifying these corrections was released on August 21, 2002. The corrections are as follows:

1. On page 46301, paragraph 26 is corrected to read as follows:

#### v. Standard Fee Calculations and **Payment Dates**

26. For licensees and permittees of Media (formerly Mass Media) services, the responsibility for payment of regulatory fees rests with the holder of the permit or license on October 1, 2001. However, in instances where a Media service license or authorization is transferred or assigned after October 1, 2001, and arrangements to pay have not been made between the two parties, the fee is still due and must be paid by the licensee or holder of the authorization on the date that the fee payment is due. For licensees, permittees and holders of other authorizations in the Wireline Competition Bureau (formerly Common Carrier) and Cable Services (presently within the Media Bureau) whose fees are not based on a subscriber, unit, or circuit count, the fees paid should be for any authorization issued on or before October 1, 2001. A pending change in the status of a license or permit that is not granted as of that date is not taken into account, and the fee is based on the authorization that existed on October 1,

2. On page 46325, Attachment H, "Factors, Measurements and Calculations That Go Into Determining Station Signal Contours and Associated Population Coverages" is corrected to read as follows:

#### AM Stations

Specific information on each day tower, including field ratio, phasing, spacing and orientation was retrieved, as well as the theoretical pattern RMS figure (mV/m @ 1 km) for the antenna system. The standard, or modified standard if pertinent, horizontal plane radiation pattern was calculated using techniques and methods specified in §§ 73.150 and 73.152 of the Commission's rules. 1 Radiation values were calculated for each of 72 radials around the transmitter site (every 5 degrees of azimuth). Next, estimated soil conductivity data was retrieved from a database representing the information in FCC Figure M3. Using the calculated horizontal radiation values, and the retrieved soil conductivity data, the distance to the city grade (5 mV/m) contour was predicted for each of the 72 radials. The resulting distance to city grade contours were used to form a geographical polygon. Population counting was accomplished by determining which 2000 block centroids were contained in the polygon. The sum of the population figures for all enclosed blocks represents the total population for the predicted city grade coverage

#### **FM Stations**

The maximum of the horizontal and vertical HAAT (m) and ERP (kW) was

used. Where the antenna HAMSL was available, it was used in lieu of the overall HAAT figure to calculate specific HAAT figures for each of 72 radials under study. Any available directional pattern information was applied as well, to produce a radialspecific ERP figure. The HAAT and ERP figures were used in conjunction with the propagation curves specified in § 73.313 of the Commission's rules to predict the distance to the city grade (70 dBuV/m or 3.17 mV/m) contour for each of the 72 radials.2 The resulting distance to city grade contours were used to form a geographical polygon. Population counting was accomplished by determining which 2000 block centroids were contained in the polygon. The sum of the population figures for all enclosed blocks represents the total population for the predicted city grade coverage

Federal Communications Commission.

Marlene H. Dortch.

Secretary.

# FEDERAL COMMUNICATIONS COMMISION

#### 47 CFR Part 78

[CS Docket No. 99-250, FCC 02-149]

#### Cable Television Relay Service

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule; correction.

SUMMARY: In this document the Commission amended its rules to expand eligibility for licenses in the Cable Television Relay Service (CARS) to all Multichannel Video Programming Distributors ("MVPDs"). The action created an alternative channel scheme for 12 GHz CARS frequencies. Because an error was made in the publication of the final rule, this document contains a correction to the final rule document, which was published in the Federal Register on June 27, 2002 (67 FR 43257).

**DATES:** Effective September 27, 2002.

# FOR FURTHER INFORMATION CONTACT: Wayne T. McKee, 202–418–2355, or John P. Wong, 202–418–7012.

SUPPLEMENTARY INFORMATION: On June 27, 2002 (67 FR 43257), the Federal Register published a final rule in this proceeding. Instruction 3 revised the tables in § 78.18(a)(2) to add an alternate channel regime. The table for the Group C Channels incorrectly identified the lower boundaries of Alternate Channels Ca05 through Ca09. This document corrects § 78.18(a)(2).

In rule FR Doc. 02–16093 published June 27, 2002 (67 FR 63257) make the following corrections.

On page 43259, in § 78.18, the Group C Channels table in paragraph (a)(2) is corrected to read as follows:

#### §78.18 Frequency Assignments.

- (a) \* \* \*
- (2) \* \* \*

#### GROUP C CHANNELS

	Designation	Channel boundaries (GHz) [C channels]	Alternate change boundaries (GHz) [Ca channels]
