

Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's rules of practice and procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Comments, recommendations, terms and conditions, and prescriptions may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site (<http://www.ferc.gov>) under the "e-Filing" link. k. This application has been accepted, and is ready for environmental analysis at this time. l. The existing project utilizing the U.S. Army Corps of Engineers Waterbury Dam and reservoir consists of: (1) A submerged concrete intake structure; (2) two 205-foot-long, 54-inch diameter steel penstocks which connect to a 79-inch-diameter penstock; (3) a powerhouse having one generating unit with an installed capacity of 5,520 kW; (4) a tailrace; (5) 50-foot-long, 33 kV transmission line; and (6) appurtenant facilities. The applicant does not propose any modifications to the project features or operation. The project would have an annual generation of 16,223 MWh and would be used to provide energy to its customers. m. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502-8222 or for TTY, (202) 502-8659. A copy is also available for inspection and reproduction at the address in item h above. n. The Commission directs, pursuant to Section 4.34(b) of the Regulations (see Order No. 533 issued May 8, 1991, 56 FR 23108, May 20, 1991) that all comments, recommendations, terms and conditions and prescriptions concerning the application be filed with the Commission within 60 days from the issuance date of this notice. All reply comments must be filed with the Commission within 105 days from the date of this notice.

Anyone may obtain an extension of time for these deadlines from the

Commission only upon a showing of good cause or extraordinary circumstances in accordance with 18 CFR 385.2008.

All filings must (1) bear in all capital letters the title "COMMENTS", "REPLY COMMENTS", "RECOMMENDATIONS," "TERMS AND CONDITIONS," or "PRESCRIPTIONS;" (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person submitting the filing; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, recommendations, terms and conditions or prescriptions must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). Agencies may obtain copies of the application directly from the applicant. Each filing must be accompanied by proof of service on all persons listed on the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b), and 385.2010. o. *Procedural schedule and final amendments*: The application will be processed according to the following Hydro Licensing Schedule. Revisions to the schedule will be made as appropriate.

Notice of application is ready for environmental analysis—September 2002

Notice of the availability of the draft EA—March 2003

Notice of the availability of the final EA—June 2003

Ready for Commission's decision on the application—June 2003

Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of this notice.

Linwood A. Watson, Jr.,

Deputy Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RM01-12-000]

Standard Market Design; Continuing Efforts To Standardize Inputs and Outputs for Electric Market Software

September 24, 2002.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of conference and agenda.

SUMMARY: As announced in the Commission's August 22, 2002, Notice of Follow-up Staff Conference on data and software standards (67 FR 55230, August 28, 2002) the Commission is convening a technical conference on October 3, 2002 at 9:00 a.m. to discuss continued efforts to standardize inputs and outputs for electric market software in connection with the implementation of the Commission's Standard Market Design (SMD) Rule. By this notice, the Commission is providing an agenda for the conference.

DATES: The Conference will be convened on October 3, 2002.

ADDRESSES: Federal Energy Regulatory Commission, 888 First Street, NE., Room—2C, Washington, DC 20426.

FOR FURTHER INFORMATION CONTACT: René Forsberg, Office of Markets, Tariff and Rates, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, (202) 502-8425. E-mail: Rene.forsberg@ferc.gov.

SUPPLEMENTARY INFORMATION:

Notice of Conference and Agenda

As announced in the Notice of Conference issued August 22, 2002, the staff of the Federal Energy Regulatory Commission (Commission) will hold a follow-up conference to the July 18, 2002 Conference on Data and Software Standards. This conference is scheduled for October 3, 2002 to continue our efforts to standardize inputs and outputs for electric market software in connection with the implementation of the Commission's Standard Market Design (SMD) rule. The conference will start at 9 a.m. the Federal Energy Regulatory Commission, 888 First Street, NE., in Washington DC, in the Commission Meeting Room.

Consistent with the Commission's efforts to assure the efficient operation of wholesale energy markets under the control of independent transmission and market operators, the second conference on software for SMD will explore the question of how to maximize the value and minimize the developmental and user costs of grid and market software and data transfers. This conference will seek to answer, through collaborative discussion, the questions of the appropriate process to develop more standardized and compatible software and data, what entities play a role in developing market and business rules and standards, and how should these matters be organized within the wholesale electric industry stakeholders for timely and cost

effective success. The day's Agenda is attached.

Also attached is a chart that depicts our current view of the standards development process under the Commission's SMD. The RTO seams issues are to be developed by the Commission. Scheduling and other market and communication standards are to be developed by NAESB. The state estimator and other operational data standards are to be developed by NAESB, EPRI or by another approach. The chart also raises the question of whether there will be seams issues if the market and operational standards are developed by the same body.

New participants are invited to review recent activities on standard market design at <http://www.ferc.gov/Electric/RTO/Mrkt-Strct-comments/smd.htm>. For the Notice of Proposed Rulemaking

on Remedying Undue Discrimination Through Open Access Transmission Service and Standard Electricity Market Design (particularly paragraphs 351–360), click on *Standard Market Design and Structure NOPR*; for the transcript of the July 18, 2002, Technical Conference on Data and Software Standards, click on: *SMD Structure and Conferences*.

The conference will be transcribed. Those interested in acquiring the transcript should contact Ace Reporters at 202–347–3700 or 800–336–6646. Transcripts will be placed in the public record ten days after the Commission receives the transcripts. Additionally, Capitol Connection offers the opportunity for remote listening and viewing of the conference. It is available for a fee, live or over the Internet, via C-Band Satellite. Persons interested in

receiving the broadcast, or who need information on making arrangements should contact David Reininger or Julia Morelli at Capitol Connection (703–993–3100) as soon as possible or visit the Capitol Connection Web site at <http://www.capitolconnection.gmu.edu> and click on "FERC."

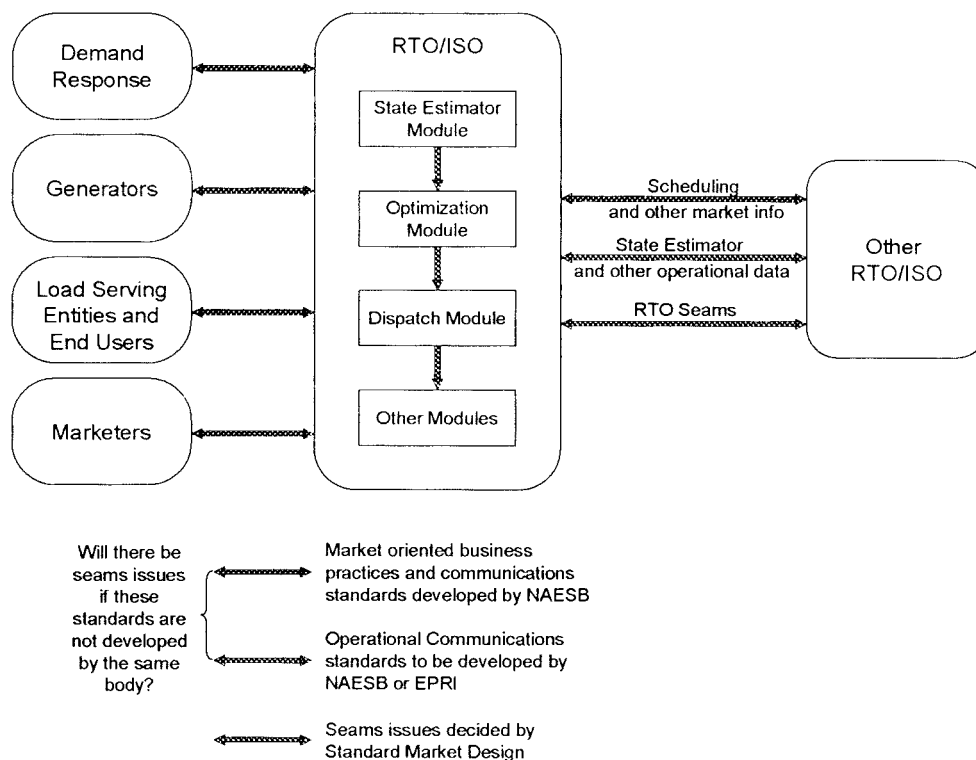

All interested parties are invited to attend. There is no registration fee. For additional information, please contact René Forsberg at 202–502–8425 (new phone number) or Rene.Forsberg@ferc.gov.

Linwood A. Watson, Jr.,
Deputy Secretary.

Chart: Standards Developments Under SMD
Conference Agenda

Standards Development Under SMD

Conference Agenda—October 3, 2002

- Opening Remarks: 9 a.m.–9:05 a.m.
- Who Has a Role in Standard-Setting? 9:05 a.m.–10:30 a.m.

John Canavan Chairman, Electronic Scheduling Collaborative

Jim Buccigross Chairman, Executive Committee, NAESB/GISB

Robert Cummings NERC

Peter Hirsch Vice President Power Delivery Markets, EPRI
Gordon van Welie President/CEO, New England—ISO

Data and Software Standard-Setting Process: 10:30 a.m.–11:45 a.m.

Brian Hewson Manager—Energy Licensing, Market Readiness Project Manager, ONTARIO ENERGY BOARD/IMO

Lockheed Martin To Be Announced

Data Interchange-Standards Association To Be Announced

Jim Buccigross Chairman, Executive Committee, NAESB/GISB

- Lunch: 11:45 a.m.–1 p.m.
- Developing the Plan for Wholesale Electric Market and Grid Software Consistency: 1 p.m.–3:30 p.m.

Gordon van Welie President/CEO, New England ISO

Jay Britton Senior Systems Architect,
ALSTOM/ESCA
Gary Michor President/CEO, The SPI
Group
Petar Ristanovic Executive Consultant,
Siemens.
Andy Ott Gen. Mgr. of Mkt.
Coordination, PJM-ISO.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7389-4]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; National Emission Standards for Hazardous Air Pollutants for Source Categories: Generic Maximum Achievable Control Technology

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Title: National Emission Standards for Hazardous Air Pollutants for Source Categories: Generic Maximum Achievable Control Technology Standards (40 CFR part 63, subpart YY); OMB Control Number 2060-0420; expiration date September 30, 2002. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before November 1, 2002.

ADDRESSES: Send comments, referencing EPA ICR Number 1871.03 and OMB Control Number 2060-0420, to the following addresses: Susan Auby, United States Environmental Protection Agency, Collection Strategies Division (Mail Code 2822T), 1200 Pennsylvania Avenue, NW., Washington, DC 20460-0001; and to the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, contact Susan Auby at EPA by phone at (202) 566-1672, by e-mail at auby.susan@epa.gov or

download off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR Number 1871.03. For technical questions about the ICR, contact María Malavé in the Office of Compliance at (202) 564-7027 or via E-mail to malave.maria@epa.gov.

SUPPLEMENTARY INFORMATION:

Title: National Emission Standards for Hazardous Air Pollutants for Source Categories: Generic Maximum Achievable Control Technology (40 CFR Part 63, Subpart YY); OMB Control Number 2060-0420; EPA ICR Number 1871.03; expiration date September 30, 2002. This is a request for an extension of a currently approved collection.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Source Categories: Generic Maximum Achievable Control Technology (hereafter, this subpart is referred to as the "generic MACT"), published at 40 CFR part 63, subpart YY, were proposed on October 14, 1998 (63 FR 55178), and promulgated on June 29, 1999 (64 FR 34854). The rule addressed hazardous air pollutant (HAP) emission sources in four categories: Polycarbonates (PC) Production, Acrylic and Modacrylic Fibers (AMF) Production, Acetal Resins (AR) Production and Hydrogen Fluoride (HF) Production. On November 22, 1999, the Agency proposed wastewater provisions amendments (64 FR 63779) to the promulgated generic MACT applicable to the AR, AMF, and PC production source categories. The HF production source category does not have wastewater streams. This Information Collection Request (ICR) addresses these four source categories. On December 6, 2000, at 63 FR 76408, the Agency added four additional source categories to the Generic MACT rule including: cyanide chemicals manufacturing, carbon black production, ethylene production, and spandex production, which are being addressed by ICR Number 1983.02, OMB Number 2060-0489.

Respondents are required to submit one-time reports of the (1) start of construction for new facilities or an initial notification if it is an existing source at the time of rule promulgation, (2) anticipated and actual start-up dates for new facilities, and (3) physical or operational changes to existing facilities. Owners and operators must also submit periodic reports (semiannual or according to the schedule for Title V) and leak detection and repair (LDAR) semiannual reports which could be submitted with the periodic reports. The specific monitoring and recordkeeping

requirements will vary for each of the four source categories depending on the required control equipment and monitoring equipment. All records are to be maintained by the facility for a minimum of five years.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on October 29, 2002. No comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 138 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Any owner or operator of acetal resins production, acrylic and modacrylic fiber production, hydrogen fluoride production, and polycarbonates production.

Estimated Number of Respondents: 10.

Frequency of Response: Semiannual and on occasion.

Estimated Total Annual Hour Burden: 4,077.

Estimated Total Annualized Capital, O&M Cost Burden: \$107, 289.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR Number 1871.03 and OMB Control Number 2060-0420 in any correspondence.
