DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 1251]

Approval of Processing Activity Within Foreign-Trade Zone 113 Midlothian, TX; Siemens Westinghouse Power Corporation (Inc.), (Industrial Power Generation Equipment)

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) adopts the following Order:

WHEREAS, Foreign-Trade Zone Operations, Inc., operator of FTZ 113, has requested authority on behalf of Siemens Westinghouse Power Corporation (Inc.), to process foreign-origin turbines and domestic industrial power generators under zone procedures within FTZ 113 (filed 4-29-2002, FTZ Docket 21-2002), and;

WHEREAS, the application seeks FTZ authority to admit foreign-origin steam turbines and domestically-produced electric generators and to withdraw the equipment for entry as generator sets; and,

WHEREAS, notice inviting public comment has been given in the **Federal Register** (67 FR 31180, 5-9-2002); and,

WHEREAS, the Board adopts the findings and recommendations of the examiner's report and finds that the requirements of the Act and the Board's regulations are satisfied, and that approval of the application is in the public interest;

NOW, THEREFORE, the Board hereby approves the request, subject to the Act and the Board's regulations, including Section 400.28.

Signed in Washington, DC, this 7th day of October, 2000.

Faryar Shirzad,

Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

Attest:

Dennis Puccinelli,

Executive Secretary.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 48-2002]

Foreign-Trade Zone 185—Culpeper, Virginia; Application For Foreign-Trade Subzone Status, Flint Ink North America Corporation (Pigments, Inks, and Varnish Products) Weyers Cave, VA

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Culpeper County Chamber of Commerce, grantee of FTZ 185, requesting special-purpose subzone status for the manufacturing and distribution facilities (pigments, inks, and varnish products) of Flint Ink North America Corporation (Flint Ink) in Weyers Cave, Virginia. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on October 7, 2002.

The Flint Ink facilities are located at two sites in Weyers Cave: (1) 106 Triangle Drive (57,500 square feet of enclosed space on 7.1 acres); and (2) 447 Weyers Cave, Road (52,000 square feet of enclosed space on 22.455 acres. The facilities (51 employees) are used to manufacture, test, package, and warehouse pigments, inks, and varnish products primarily for use by the graphic arts industry.

Foreign-sourced materials account for approximately 10 to 50 percent of the finished-product value of Flint Ink's

current products, and may include items from the following categories: petroleum oils and mineral oils, distillates; hydrogen chloride and chlorosulfuric acid; sodium and potassium hydroxides; chlorides, chloride oxides, chloride hydroxides, bromides, bromide oxides, iodides and iodide oxides; nitrites and nitrates; acyclic alcohols and their derivatives; phenols and phenol-alcohols; ketones, quinines, and their derivatives; polycarboxylic acids and their derivatives; carboxylic acids and their derivatives; amine function compounds; carboxamide-function compounds and amide-function compounds of carbonic acid; heterocyclic compounds, and nucleic acids and their salts; nucleic acids and their salts, and other heterocyclic compounds; synthetic organic coloring matter, preparations based thereon, and synthetic organic products used as fluorescent brightening agents or luminophores; other coloring matter; printing ink, writing or drawing ink, and other inks; artificial waxes and prepared waxes; rosin, resin, and derivatives thereof; reaction initiators, reaction accelerators, and catalytic preparations; polymers of vinyl chloride or other halogenated olefins in primary forms; polymers of vinyl acetate or other vinyl esters, and other vinyl polymers, in primary forms; petroleum resins, coumarone-indene resins, polyterpenes, polysulfides, polysulfones, and other products in primary forms; and cellulose and its chemical derivatives in primary forms.

Zone procedures would allow the company to choose the duty rates that apply to the finished products (the primary initial finished product has a duty rate of 1.8% *ad valorem*; potential finished products have rates ranging from duty-free to 9.2%) rather than the duty rates that would otherwise apply to the foreign-sourced materials noted above (duty-free to 9.2%; average of 7%). This savings from inverted tariffs would be the primary benefit derived from subzone status. FTZ procedures would also exempt Flint Ink from Customs duty payments on foreign materials used in production for export. In addition, Flint Ink states that it would realize logistical/procedural and other benefits. FTZ status may also make a site eligible for benefits provided under state/local programs. The application indicates that the savings from zone procedures will help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to

the Board. Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. Submissions Via Express/Package Delivery Services: Foreign-Trade-Zones Board, U.S. Department of Commerce, Franklin Court Building—Suite 4100W, 1099 14th St. NW., Washington, DC 20005; or

2. Submissions Via the U.S. Postal Service: Foreign-Trade-Zones Board, U.S. Department of Commerce, FCB—Suite 4100W, 1401 Constitution Ave., NW., Washington, DC 20230.

The closing period for their receipt is December 16, 2002. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to January 2, 2003.

A copy of the application and accompanying exhibits will be available for public inspection at the Office of the Foreign-Trade Zones Board's Executive Secretary at address Number 1 listed above, and at the Culpeper County Chamber of Commerce, 109 South Commerce Street, Culpeper, VA 22701.

Dated: October 10, 2002.

Dennis Puccinelli,

Executive Secretary.

[A-570-825]

Sebacic Acid from the People's Republic of China; Notice of Rescission of Antidumping Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of rescission of antidumping duty administrative review.

SUMMARY: On August 27, 2002, in response to requests by two exporters, the Department of Commerce initiated an administrative review of the antidumping duty order on sebacic acid from the People's Republic of China. The period of review is July 1, 2001, through June 30, 2002. The requests for administrative review were made by two exporters of the subject merchandise, Guangdong Chemicals Import and Export Co. and Tianjin Chemicals Import and Export Co. This

review has now been rescinded as a result of the timely withdrawal of the requests for administrative review by both exporters, as no other interested party requested the review.

EFFECTIVE DATE: October 17, 2002.

FOR FURTHER INFORMATION CONTACT:

Michael Strollo, Office of AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482-0629.

SUPPLEMENTARY INFORMATION:

The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the regulations of the Department of Commerce (the Department) are to 19 CFR part 351 (2002).

Background

On July 1, 2002, the Department published in the Federal Register a notice of "Opportunity to Request an Administrative Review" of the antidumping duty order on sebacic acid from the People's Republic of China (PRC). *See Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity To Request Administrative Review*, 67 FR 44172 (July 1, 2002). On July 10, 2002, two exporters, Guangdong Chemicals Import and Export Co. (Guangdong) and Tianjin Chemicals Import and Export Co. (Tianjin), requested an administrative review of this antidumping duty order on sebacic acid from the PRC.

In accordance with 19 CFR 351.221(b)(1), we initiated this review on August 27, 2002, covering the period of July 1, 2001, through June 30, 2002. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 67 FR 55000 (Aug. 27, 2002). On September 10, 2002, both exporters withdrew their requests for administrative review.

Rescission of Review

Guangdong and Tianjin timely withdrew their requests for administrative review for the above-referenced period on September 10, 2002. Therefore, because no other interested party requested a review of either Guangdong or Tianjin for this

period of review, in accordance with 19 CFR 351.213(d)(1) and consistent with our practice, we are rescinding this review of the antidumping order on sebacic acid from the PRC for the period of July 1, 2001, through June 30, 2002. This notice is published in accordance with section 751 of the Act and 19 CFR 351.213(d)(4).

Dated: October 9, 2002.

Louis Apple,

Acting Deputy Assistant Secretary/Import Administration, Group I.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 02-041. *Applicant:* The Ohio State University, Materials Science and Engineering, 2041 College Road, Columbus, OH 43210. *Instrument:* Electron Microscope, Model Tecnai F20 S-TWIN. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* The instrument is intended to be used for morphological and structural studies of ceramics and metals, including high temperature superconductors, high temperature metal alloys, evaporated metal thin films, silicon bicrystals, soils and geological minerals, polymers and possibly some biological samples. Also, the instrument will be used to measure the morphology and orientation of grains and particles, as well as the structure, long and short range ordering, number and type of defects and the elemental composition of various phases in the materials. Application accepted by Commissioner of Customs: September 25, 2002.
