

processing practices are associated with fecal contamination of fruits and vegetables. Handling and processing methods used in the produce industry may increase the risk that these foods will become contaminated with fecal matter. The study will describe the chain of processing-shipping practices for five vulnerable produce groups

(leafy greens, leafy herbs, green onions, cabbage, melon/cantaloupe). Critical practices where contamination with foodborne pathogens is likely will be identified by measuring the microbial quality of produce at each step during processing. Sources of fecal contamination will be determined by measuring the microbial quality of

process water, measuring fecal indicator organisms on hand rinses from packing shed laborers, and conducting sanitary surveys of sources of human and animal feces in and around the processing areas. CDC, National Center for Environmental Health is requesting a 3-year clearance. There is no cost to respondents.

Respondents	No. of respondents	No. of responses/ respondent	Avg. burden/ response (in hours)	Total burden (in hours)
Packing Facility Recruiting visit	20	1	30/60	10
Packing Shed Manager Interview (in person)	20	2	30/60	20
Hand Rinse Sample Collection	100	2	30/60	100
Total	130

Dated: October 16, 2002.

John Moore,

Acting Associate Director, Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 498-1210.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Seleda Perryman, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project: Domestic Violence Prevention Enhancement and Leadership through Alliances (DELTA)—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Domestic violence is a large, potentially preventable source of physical and emotional harm for women, children, and families. One promising approach to domestic violence prevention is the coordinated community response (CCR) model wherein multiple agencies within a community come together to work collectively on domestic violence issues. However, many CCRs formed to date focus on responding to rather than preventing acts of violence. The CDC is launching the Domestic Violence Prevention Enhancement and Leadership Through Alliances (DELTA) demonstration program to stimulate the development of prevention-focused programs and the diffusion of the programs into the existing operations of CCRs, using nine state domestic violence coalitions as intermediaries.

This project, conducted by Mathematica Policy Research, Inc. (MPR) will first identify and describe

each state's CCR structures and operations, then evaluate the DELTA Program's success in developing and disseminating prevention enhancements to CCRs. Mathematica will use an environmental scan to identify the full population of CCRs in each state, as well as profile the organizational, political, and economic landscape in which the CCRs operate. This information will assist CDC and the state coalitions in developing prevention enhancements that are responsive to the capacities and circumstances of local CCRs while at the same time providing baseline measures to facilitate and evaluation of the DELTA program. The DELTA program evaluation will then use these baseline measures, together with additional data collected each year throughout program implementation to assess how well the program performs in strengthening collaborative activity across domestic violence programs, developing prevention enhancements and incorporating them into current CCR operations, and institutionalizing organizational changes that will sustain primary prevention as part of the everyday workings of state coalitions and CCRs. Mathematica will conduct interviews with the nine state coalitions that are DELTA grantees every six months and conduct an annual survey of all local CCRs in the nine DELTA states. MPR will also conduct a one-time survey of state domestic violence coalitions and up to ten other organizations in each of the 41 non-DELTA states. There is no cost to respondents for any of these surveys.

Respondents	No. of respondents	No. of responses/ respondent	Avg. burden/ response (in hrs.)	Total burden (in hrs.)
Telephone interviews with administrators of state domestic violence coalitions in DELTA states	9	7	30/60	32
Telephone interviews with other organizations	36	1	30/60	18
Mail Survey of local CCRs in DELTA states	288	4	20/60	384
Mail survey of state domestic violence coalitions in non-Delta states	41	1	30/60	21
Mail survey of other state agencies or advocacy groups in non-Delta states	123	1	30/60	62
Telephone interviews with CCRs in Delta states	40	1	30/60	20
Total				537

Dated: October 16, 2002.

John Moore,

Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare and Medicaid Services

[Document Identifiers: CMS-10041]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare and Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare and Medicaid Services (CMS) (formerly known as the Health Care Financing Administration (HCFA)), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Type of Information Collection Request: Extension of a currently approved collection; *Title of Information Collection:* Long Term Care Awareness Project; *Form No.:* CMS-10041 (OMB# 0938-0825); *Use:* CMS-CBC needs to collect these data to pilot

test a national campaign to educate current and future Medicare beneficiaries and their families about long term health care needs, as requested in the Presidential Initiative for Fiscal Year 2000 Budget. Project findings will be used to design and implement a nationwide campaign. Respondents will be from two groups: 55-70 year-olds and persons with disability who are 18-64 years of age; *Frequency:* Quarterly; *Affected Public:* Individuals or Households; *Number of Respondents:* 2000; *Total Annual Responses:* 2000; *Total Annual Hours:* 667.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access CMS's Web site address at <http://www.hcfa.gov/regs/prdact95.htm>, or e-mail your request, including your address, phone number, OMB number, and CMS document identifier, to Paperwork@hcfa.gov, or call the Reports Clearance Office on (410) 786-1326. Written comments and recommendations for the proposed information collections must be mailed within 60 days of this notice directly to the CMS Paperwork Clearance Officer designated at the following address: CMS, Office of Strategic Operations and Regulatory Affairs, Division of Regulations Development and Issuances, Attention: Dawn Willingham, Room N2-14-26, 7500 Security Boulevard, Baltimore, Maryland 21244-1850.

Dated: October 17, 2002.

John P. Burke, III,

Paperwork Reduction Act Team Leader, CMS Reports Clearance Officer, Office of Strategic Operations and Strategic Affairs, Division of Regulations Development and Issuances.
