RIN 1512-AC33

Elimination of Statistical Classes for Large Cigars (2000R-410P)

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule removes the eight statistical classes for large cigars prescribed in ATF regulations. Since tobacco manufacturers and importers no longer use these statistical classes to report removals of large cigars subject to tax, this proposed rule eliminates obsolete regulations.

DATES: Written comments must be received on or before December 5, 2002.

ADDRESSES: Send written comments to: Chief, Regulations Division, Bureau of Alcohol, Tobacco and Firearms, 650 Massachusetts Avenue NW., Room 5000, Washington, DC 20226; (Attention Notice No. 962). See the "Public Participation" section of this notice for alternative means of commenting.

FOR FURTHER INFORMATION CONTACT: Robert Ruhf, Regulations Division, Bureau of Alcohol, Tobacco and Firearms, 650 Massachusetts Avenue NW., Washington, DC 20226 (telephone 202-927-8210 or e-mail to alctob@atfhq.atf.treas.gov).

SUPPLEMENTARY INFORMATION:

Background

For the reasons discussed below, we are proposing to eliminate the ATF regulations in 27 CFR parts 40 and 275 that prescribe eight ATF statistical classes for large cigars subject to tax. The first seven classes (Classes A through G) cover large cigars selling for \$235.294 or less per thousand, while the eighth class (Class H) covers those selling for more than \$235.294 per thousand.

Manufacturers in the United States

Manufacturers of tobacco products no longer use the eight ATF statistical classes to report removals of large cigars subject to tax. For periods prior to January 1, 2001, manufacturers used the eight statistical classes to report large cigar removals subject to tax. For periods beginning on or after January 1, 2001, manufacturers report such removals of large cigars in two classes. The two current ATF classes for large cigars are those with a sale price of (1) \$235.294 or less per thousand, or (2) more than \$235.294 per thousand. The sale price of more than \$235.294 per thousand is based on the maximum sale price for calculating the excise tax on large cigars prescribed by 26 U.S.C. 5701(a)(2).

Manufacturers of tobacco products report information about large cigars on ATF Form 5210.5, Monthly Report—Manufacturer of Tobacco Products. We have revised ATF Form 5210.5 to reflect the reduction in the number of classes for large cigars removed subject to tax. This reduction benefits manufacturers of tobacco products by reducing their reporting burden. Also, it does not jeopardize ATF's ability to protect the revenue.

When manufacturers submit ATF Forms 5210.5, ATF compiles their reports to prepare tobacco statistics for government and public use. The elimination of statistical classes will not adversely affect the governments or the general public that use the ATF tobacco statistics.

Importers

Prior to the year 2002, sections 2402.10.30.60 and 2402.10.30.90 of the Harmonized Tariff Schedule of the United States (HTSUS) referred to the eight ATF statistical classes for large cigars. These sections required persons who used the HTSUS to classify cigars, cheroots, and cigarillos, containing tobacco, according to their value. If such products had a value of less than 15 cents per item and weighed more than 1.36 kg per thousand, the products were classified according to the eight ATF statistical classes. Persons classified these products by ATF statistical classes A through G, or by ATF statistical class H.

Beginning January 1, 2002, sections 2402.10.30.60 and 2402.10.30.90 of the HTSUS no longer refer to the ATF statistical classes for such products. As stated in the record of change for the 14th edition of HTSUS (2002), this change reflects the modifications made to the HTSUS made by Presidential

Proclamation 7515 of December 18, 2001 (66 FR 66549).

Background and Purpose

The terrorist attacks of September 2001 killed thousands of people and heightened the need for development of various security measures throughout the seaports of the United States, particularly around those vessels and facilities which are frequented by foreign nationals and maintain an interest to national security. The President has continued the national emergencies he declared following the September 11, 2001 terrorist attacks (67 FR 58317 (Sep. 13, 2002) (continuing national emergency with respect to terrorist attacks), 67 FR 59447 (Sep. 20, 2002) (continuing national emergency with respect to persons who commit, threaten to commit or support terrorism)). The President also has

found pursuant to law, including the Magnuson Act (50 U.S.C. 191 *et seq.*), that the security of the United States is and continues to be endangered following the attacks (E.O. 13,273, 67 FR 56215 (Sep. 3, 2002) (security endangered by disturbances in international relations of U.S. and such disturbances continue to endanger such relations)). Following these attacks by well-trained and clandestine terrorists, national security and intelligence officials have warned that future terrorist attacks are likely. The Captain of the Port (COTP) of Miami has determined that there is an increased risk that subversive activity could be launched by vessels or persons in close proximity to the Ports of Palm Beach, Miami, Port Everglades, and Key West, Florida. These security zones are necessary to protect the public, ports, and waterways of the United States from potential subversive acts.

The Coast Guard Captain of the Port of Miami established temporary security zones in these areas following the September 11, 2001 attacks. Those temporary rules are as follows:

On September 11, 2001, the COTP issued a temporary final rule (TFR) (67 FR 9194, 9195, February 28, 2002, Docket # COTP Miami 01-093) establishing 100-yard security zones around certain vessels in the Port of Palm Beach, Miami, Port Everglades, and Key West, FL, that expired September 25, 2001. On September 25, 2001, the COTP issued another TFR (67 FR 1101, January 9, 2002, COTP Miami 01-115) that maintained these 100-yard security zones around certain vessels in the Ports of Palm Beach, Miami, Port Everglades, and Key West, FL, and added a reference to specific points (buoys) where moving zones were activated and deactivated. This second TFR expired on June 15, 2002.

On October 7, 2001, the COTP issued a TFR (67 FR 6652, February 13, 2002, COTP Miami 01-116) establishing fixed-security zones in Port Everglades and Miami, FL, that expired June 15, 2002.

On October 11, 2001, the COTP issued a TFR (67 FR 4177, January 29, 2002, COTP Miami 01-122) establishing a fixed-security zone for Port Everglades, FL, that expired June 15, 2002.

All of the above security zones were extended by a TFR issued on June 13, 2002 (67 FR 46389, COTP Miami-02-054) until December 15, 2002. That temporary final rule requested comments. As of June 26, 2002, the Coast Guard has not received any comments on that TFR.
