Foreign-Trade Zones Board

[Docket 14-2002]

Foreign-Trade Zone 153—San Diego, California; Application for Subzone; DNP Electronics America, LLC (Projection Television Screens) Chula Vista, California

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of San Diego, grantee of FTZ 153, requesting special-purpose subzone status for the manufacturing and warehousing facilities of DNP Electronics America, LLC (DNP), located in Chula Vista, California. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on February 8, 2002.

The DNP facility (5.4 acres, 80 employees), is located at 2391 Fenton Street, Chula Vista, California. The facility will initially be used for the manufacturing and warehousing of projection television screens (HTS

9010.60.00, duty rate 2.6%).

Components and materials sourced from abroad (representing 100% of all parts consumed in manufacturing) include: UV resin, and acrylic plates (HTS 3824.90.9150, 3920.51.5000 and 3921.19.0000, duty rate ranges from 5.0% to 6.5%). The application also requests authority for future manufacturing of shadowmask (HTS 8540.91.50, 5.4%), LCD color filters (HTS 9001.20.00, 3.5%), photomasks (HTS 3705, duty-free), and lead frames (HTS 8542, duty-free) using the following imported components: chemical products, plates of plastic, glass plate for photomask and color filter, metal coil for shadow mask and aperture grille, metal coil for lead frame, nickel plates and parts for projection screens (HTS 3824, 3920, 3921, 7014.00.50, 7209.28.0000, 7225.99.0000, 7226.99.0000, 7410.22.0000, 7506, and 9010, duty rate ranges from duty-free to 8.4%).

FTZ procedures would exempt DNP from Customs duty payments on the foreign components used in export production. Some 80 percent of the plant's shipments are exported. On its domestic sales, DNP would be able to choose the duty rates during Customs entry procedures that apply to finished screens (2.6%) for the foreign inputs noted above. In addition, DNP products shipped to domestic television manufacturers with subzone status could be subject to the finished or unfinished television duty rate. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been appointed examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at one of the following addresses:

1. Submissions Via Express/Package Delivery Services: Foreign-Trade-Zones Board, U.S. Department of Commerce, Franklin Court Building—Suite 4100W, 1099 14th St. NW., Washington, DC 20005; or

2. Submissions Via the U.S. Postal Service: Foreign-Trade-Zones Board, U.S. Department of Commerce, FCB—Suite 4100W, 1401 Constitution Ave. NW., Washington, DC 20230.

The closing period for their receipt is April 16, 2002. Rebuttal comments in response to material submitted during the foregoing period may be submitted

during the subsequent 15-day period (to May 1, 2002).

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Massachusetts Port Authority, grantee of FTZ 27, requesting special-purpose subzone status for the warehousing facilities of Reebok International, Ltd. (Reebok), located in Lancaster, Stoughton and Norwood, Massachusetts. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on February 7, 2002.

The Reebok facility is comprised of three sites with some 450 employees in Norfolk and Worcester County, Massachusetts: Site 1 (34 acres, 485,000 square feet)—located at 100 Technology Center Drive, Stoughton, Norfolk County; Site 2 (55 acres, 212,000 square feet)—located at 625 University Avenue, Norwood, Norfolk County; and Site 3 (137 acres, 285,000 square feet)—located at 580 Fort Pond Road, Lancaster, Worcester County. The facilities are used for the storage and distribution of imported footwear (primarily HTS 6402.19, 6402.91, 6402.99, 6403.19, 6403.91, 6403.99, 6404.11, 6405.10, and 6406.99, duty rate ranges from duty-free to 48%).

Zone procedures would exempt Reebok from Customs duty payments on products that are reexported. On its domestic sales, the company would be able to defer duty payments until

merchandise is shipped from the plant and entered for consumption. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been appointed examiner to investigate the application and report to the Board.

Foreign-Trade Zones Board

[Docket 12-2002]

Foreign-Trade Zone 28—New Bedford, MA; Application for Subzone Status; Brittany Dyeing & Printing Corporation, (Textile Finishing)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the City of New Bedford, grantee of FTZ 28, requesting special-purpose subzone status for the textile finishing plant of Brittany Dyeing & Printing Corporation (Brittany), located in New Bedford, Massachusetts. The application was submitted pursuant to

the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on February 7, 2002.

The Brittany plant (3 acres/226,000 sq.ft.) is located at 1357 Rodney French Boulevard in the city of New Bedford, Massachusetts. The facility (247 employees) is used to process customer-owned textile fabrics for the U.S. market and export. In this activity, foreign, quota-class woven fabrics (HTSUS 5208.11.20, .40, .80; 5208.12.40, .60, .80; 5209.11.00) would be admitted to the zone under privileged foreign status (19 CFR 146.41) in greige form to be dyed, printed, and finished using domestic dyes and chemicals. The finishing activity may involve shrinking, sanferizing, desizing, sponging, bleaching, cleaning/laundering, calendaring, hydroxylating, decatizing, fulling, mercerizing, chintzing, moirring, framing/beaming, stiffening, weighting, crushing, tubing, thermofixing, anti-microbial finishing, shower proofing, flame retardation, and embossing of customer-owned fabric. The finished privileged foreign status fabric would either be exported from the proposed subzone or be transferred for Customs entry under its original textile quota and HTS classifications (no activity would be permitted that would result in transformation, tariff shift, or change in quota class or country of origin), with appropriate duty assessment and quota decrement.

FTZ procedures would exempt Brittany from Customs duty payments on the foreign fabric processed for re-export. On shipments for the U.S. market, full duty payment would be deferred until the fabric is transferred from the zone for Customs entry. The application indicates that the savings from FTZ procedures would help improve the facility's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the following addresses:
