Needs and Uses: 47 CFR 73.1510 requires a licensee of an AM, FM, and TV broadcast station to file an informal application with the FCC to request an experimental authorization to conduct technical experimentation directed toward improvement of the technical phases of operation and service. This request shall describe the nature and purpose of experimentation to be conducted, the nature of the experimental signal transmission, and the proposed hours and duration of the experimentation. Needs and Uses: 47 CFR 76.924 of FCC rules specifies cost accounting and cost allocation requirements for regulated cable operators. Section 76.924 was established as part of the cable rate regulation requirements set forth in the *Cable Television Consumer Protection and Competition Act of 1992* ("1992 Cable Act"), which requires cable operators to rearrange their accounting records to comply with the requirements set forth in section 76.924. Because these requirements became effective July 21, 1993, existing cable operators are assumed to have already rearranged their accounting records and comply with this recordkeeping requirement. Cable operators use the information derived from their accounting records to complete their rate filings, while the local franchising authorities use it to review these rate filings.

OMB Control Number: 3060-0703.

The LFA uses the information derived from FCC Form 1205 filings to review equipment and installation rates.
