BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP03-49-000]

**National Fuel Gas Supply Corporation;
Notice of Intent To Prepare an
Environmental Assessment for the
Proposed Abandonment of Facilities at
Summit Storage Field and Request for
Comments on Environmental Issues**

March 13, 2003.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of a proposal by National Fuel Gas Supply Corporation (National Fuel) to abandon certain facilities at its Summit Storage Field in Summit Township, Erie County, Pennsylvania.¹ These facilities consist of about 752 feet of 4-inch pipe, that would be disconnected and abandoned in place to minimize construction-related disturbances, and two injection/withdraw wells, and one observation well that would be plugged and abandoned. The EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the abandonment of the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the projects are approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" was attached to the notice National Fuel provided to affected landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>).

Summary of the Proposed Projects

National Fuel proposes to plug and abandon natural gas storage wells P-

¹ National Fuel's application was filed with the Commission under Section 7 of the Natural Gas Act and part 157 of the Commission's regulations.
