NUCLEAR REGULATORY COMMISSION

[Docket Nos. (as shown in Attachment 1), License Nos. (as shown in Attachment 1), EA-03-009]

In the Matter of All Pressurized Water Reactor Licensees; Errata to Order Modifying Licenses (Effective Immediately)

On February 11, 2003, the Nuclear Regulatory Commission (NRC) issued "Order Modifying Licenses (Effective Immediately)" (Order), EA-03-009, to all Licensees for pressurized water reactors. The Order imposes interim inspection requirements for reactor pressure vessel (RPV) heads and associated penetration nozzles.

The Order includes a provision for Licensees to request relaxations and if appropriate for the NRC to rescind or

relax requirements imposed by the Order. In anticipation of numerous requests for relaxation of the Order for inspections of specific penetration nozzles, the Order specified that the NRC staff would evaluate requests for relaxation of inspection requirements for specific penetration nozzles using its procedure for proposed alternatives to Section XI of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code pursuant to 10 CFR 50.55a, "Codes and standards." To ensure that this provision may be used as intended and as it has been explained to Licensees and other stakeholders following the issuance of the Order, it is necessary to amend a procedural aspect of the Order with respect to the authority to act on requests for relaxation regarding specific nozzle penetrations. This Errata does not in any way alter any substantive provision of the Order or requirements imposed thereby on any Licensee.

Accordingly, pursuant to sections 103, 104b, 161b, 161i, 161o, 182 and 186, of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202 and 10 CFR part 50, It is hereby Ordered, Effective Immediately, that my authority to relax or rescind any of the conditions of section IV of the Order in regard to requests for relaxation associated with specific penetration nozzles has been delegated to Project Directors or higher management positions within the Division of Licensing Project Management within the Office of Nuclear Reactor Regulation.

Since this Errata makes no substantive change to the Order, Licensees are not required to submit an answer pursuant to 10 CFR 2.202. In accordance with 10 CFR 2.202, any other persons adversely affected by this Errata may submit an answer to this Errata, and Licensees and any other person adversely affected by this Errata may request a hearing on this Errata, within twenty (20) days of the date of this Errata. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time in which to submit an answer or request a hearing must be made in writing to the Director, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555, and include a statement of good cause for the extension. The answer may consent to this Errata. Unless the answer consents to this Errata, the answer shall, in writing and under oath or affirmation, specifically set forth the matters of fact and law on which the Licensee or other person adversely affected relies and the reasons as to why the Errata should not
