SUPPLEMENTARY INFORMATION:

Part I: Introduction

The Help America Vote Act (HAVA), signed into law by President George W. Bush on October 29, 2002, contains several provisions that will enable an applicant to establish, expand, and improve access to and participation by individuals with the full range of disabilities (e.g., blindness or visual impairment, deafness or hearing impairment, mobility-related, dexterity-related, emotional or intellectual) in the election process. The Catalog of Federal Domestic Assistance Number for this announcement is: 93.617.

Background

On February 20, 2003, in Division (N)—“Emergency Relief and Offsets,” Title I Election Reform, Disabled Voters Services, the Miscellaneous Appropriations Act, 2003, Pub. L. 108-7, Congress appropriated \$13 million for States to operate the Election Assistance for Individuals with Disabilities (EAID) grant program. HAVA assigned responsibility for the EAID to the Secretary of Health and Human Services (the Secretary), who has assigned responsibility for carrying out this program to the Administration for Children and Families (ACF). Within ACF, the Administration on Developmental Disabilities (ADD) is responsible for the administration of the EAID grant program.

Eligible Applicants

As defined by section 901 of HAVA, States (including the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, and the Virgin Islands) are eligible to apply for grants under the EAID program. Grants are not available to local units of government directly from the Federal Government in FY 2003 because Division (N)—“Emergency Relief and Offsets,” Title I Election Reform, Disabled Voters Services, the Miscellaneous Appropriations Act, 2003, Pub. L. 108-7, only appropriated funds for grants to States for FY 2003. Thus, while units of local government as well as States are eligible for funding under Section 261 of the Help America Vote Act, the annual appropriations statute did not make funds available for grants to local governments.

Availability and Distribution of Funds

Congress appropriated \$13,000,000 for payments to States for Federal fiscal year 2003. Payment amounts to States and Territories will be based on the relative size of the voting age population (i.e., number of individuals 18 years of age or older as reported in the 2000 U.S. Census) of those States and Territories requesting payment, with the exception that no State or Territory applying for funds shall receive a payment of less than \$100,000. See Table I for the amount reserved for each State and Territory, assuming all 55 States and Territories submit applications. If fewer than 55 States and Territories submit applications, those States and Territories applying for payment will receive a proportionately higher amount than that listed on Table I.

Any payment distributed shall remain available until expended.

In order to receive a payment a State must meet all of the requirements in

Part II of this Notice. State governments receiving funds under this announcement will need to collaborate with local chief election officials and local units of government to determine where and how to expend funds.

The Federal Government reserves the right to audit expenditure of funds received under this announcement pursuant to section 902 of the Help America Vote Act, 42 U.S.C. 15542 and 45 CFR 92.26, where applicable.

Use of Allotments

Section 261 of HAVA provides that funds be made available to:

a. Make polling places, including the path of travel, entrances, exits, and voting areas of each polling facility, accessible to individuals with the full range of disabilities (e.g., blindness or visual impairment, deafness or hearing impairment, mobility-related, dexterity-related, emotional, or intellectual).

b. Provide the same opportunity for access and participation (including privacy and independence) to individuals with the full range of disabilities.

SUPPLEMENTARY INFORMATION: In
compliance with 44 U.S.C. 3507, FDA
has submitted the following proposed
collection of information to OMB for
review and clearance.

**Medical Device User Fee Cover Sheet;
Form FDA 3601**

The Federal Food, Drug, and Cosmetic
Act, as amended by the Medical Device
User Fee and Modernization Act of 2002
(MDUFMA) (Public Law 107-250),
authorizes FDA to collect user fees for
certain medical device applications.
Under this authority, companies pay a
fee for certain new medical device
applications or supplements submitted
to the agency for review. Because the
submission of user fees concurrently
with applications and supplements is
required, the review of an application
cannot begin until the fee is submitted.
Form FDA 3601, the "Medical Device
User Fee Cover Sheet," is designed to
provide the minimum necessary
information to: (1) Determine whether a
fee is required for review of an

application, (2) determine the amount of
the fee required, and (3) account for and
track user fees. The form provides a
cross-reference of the fees submitted for
an application with the actual
application by using a unique number
tracking system. The information
collected is used by FDA's Center for
Devices and Radiological Health (CDRH)
and Center for Biologics Evaluation and
Research (CBER) to initiate the
administrative screening of new medical
device applications and supplemental
applications.

Respondents to this collection of
information are device manufacturers.
Based on FDA's database system, there
are an estimated 5,000 manufacturers of
products subject to MDUFMA.
However, not all manufacturers will
have any submissions in a given year
and some may have multiple
submissions. The total number of
annual responses is based on the
number of submissions received by FDA
in fiscal year 2002. CDRH estimates
5,000 annual responses that include the
following: 50 premarket approval
applications, 4,400 premarket
notifications, 30 modular premarket
applications, 1 product development
protocol, 1 premarket report, 20 panel
track supplements, 150 real-time
supplements, and 348 180-day
supplements. CBER estimates 50 annual
responses that include the following: 2
premarket approval applications, 3
biologics license applications, 30
premarket notifications, 10 modular
premarket applications, and 5 180-day
supplements. The estimated hours per
response are based on past FDA
experience with the various
submissions, and range from 5 to 30
minutes. The hours per response are
based on the average of these estimates.

In the **Federal Register** of February
26, 2003 (68 FR 8907) FDA published a
60-day notice requesting public
comment on the information collection
provisions. No comments were received.
