Food and Drug Administration

Establishment of Medical Device User Fee Rates for Fiscal Year 2003 and Interim Procedures; Correction

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; correction.

SUMMARY: The Food and Drug Administration (FDA) is correcting a correction notice that appeared in the **Federal Register** of January 10, 2003 (68 FR 1469). The document corrected a notice that appeared in the **Federal Register** of November 21, 2002 (67 FR 70228), which announced the rates and interim procedures for medical device user fees for fiscal year (FY) 2003. The November 21, 2002, document was inadvertently published with confusing language regarding the fee that must be paid by a small business that submits a 510(k) premarket notification for FDA review during FY 2003. The document intended to state that all 510(k)s submitted for FDA review during FY 2003 are subject to a standard fee of \$2,187, and that all submitters who are subject to a fee, including a small business, are required to pay this fee. This document corrects the error in the correction notice.

ADDRESSES: Persons with access to the Internet may obtain further information on the Medical Device User Fee and Modernization Act of 2002 at <http://www.fda.gov/cdrh/mdufma> or <http://www.fda.gov/cber/mdufma/mdufma.htm>.

FOR FURTHER INFORMATION CONTACT: Frank Claunts, Office of Management and Systems (HFA-20), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-4427.

SUPPLEMENTARY INFORMATION: In FR Doc. 03-494, appearing in the **Federal Register** of January 10, 2003, the following correction is made:

1. On page 1469, in the second column, at the bottom of the page, item

3 is revised to read "On page 70229, in table 1, in the fourth column, in the last row, correct 'None in FY 2003' to read '2.187'."

Dated: January 16, 2003.

Public Health Service

National Toxicology Program; Call for Public Comments on 10 Nominations, Proposed for Listing in the Report on Carcinogens, Eleventh Edition

Background

The National Toxicology Program (NTP) solicits final public comments on the nominations reviewed in 2002 for listing in the Report on Carcinogens, Eleventh Edition ("the Report"). This Report (previously known as the Annual Report on Carcinogens) is a Congressionally mandated listing of known human carcinogens and reasonably anticipated human carcinogens and its preparation is delegated to the National Toxicology Program by the Secretary, Department of Health and Human Services (DHHS). Section 301 (b) (4) of the Public Health Service Act, as amended, provides that the Secretary, (DHHS), shall publish a biennial report which contains a list of all substances (1) which either are known to be human carcinogens or may reasonably be anticipated to be human carcinogens; and (2) to which a significant number of persons residing in the United States (US) are exposed. The law also states that the reports should provide available information on the nature of exposures, the estimated number of persons exposed and the extent to which the implementation of Federal regulations decreases the risk to public health from exposure to these chemicals.

In 2002, ten nominations were reviewed for listing in the Eleventh Report. This review included two Federal and one non-government, scientific peer reviews and public comment and review. The three scientific review committees evaluated all available data relevant to the criteria for inclusion of candidate nominations in the Report. The criteria used in the review process and a detailed description of the review procedures, including the steps in the current formal review process, can be obtained from
