

or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that Order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation.

Under figure 2–1, paragraph (34)(g), of the Instruction, an "Environmental Analysis Check List" and a "Categorical Exclusion Determination" are not required for this rule.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; and 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.

■ 2. Add a new § 165.T11–037 to read as follows:

§ 165.T11–037 Safety Zone: Colorado River, Between Davis Dam and Laughlin Bridge.

(a) *Location.* The following area is a safety zone: from that portion of the Colorado River, starting at Davis Dam, mile marker 276, to the Laughlin Bridge, mile marker 274.1.

(b) *Effective period.* This safety zone will be in effect from 7:30 a.m. (p.d.t.) on May 31, 2003 until 5:30 p.m. (p.d.t.) on June 1, 2003.

(c) *Regulations.* In accordance with the general regulations in § 165.23 of this part, entry into, transit through or anchoring within the safety zone is prohibited unless authorized by the Coast Guard Captain of the Port, San Diego, or his designated representative. The designated Patrol Commander for this event will be Chief Petty Officer Rich Dann. The Patrol Commander may be contacted via VHF–FM channel 16.

Dated: May 13 2003.

Robert E. McFarland,

Lieutenant Commander, U.S. Coast Guard, Acting Captain of the Port, San Diego.

33 CFR Part 165

[CGD13–03–001]

RIN 1625–AA00 (Formerly RIN 2115–AA97)

Safety Zone Regulation; Fort Vancouver Fireworks Display, Columbia River, Vancouver, WA

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is establishing a safety zone on the waters of the Columbia River in the vicinity of Vancouver, Washington that will be enforced every July 4. The Captain of the Port, Portland, Oregon, is taking this action to safeguard watercraft and their occupants from safety hazards associated with the fireworks display. Entry into this safety zone is prohibited unless authorized by the Captain of the Port.

DATES: This rule is effective from June 27, 2003.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket (CGD13–03–001) and are available for inspection or copying at USCG MSO/Group Portland 6767 N.

Basin Ave, Portland, Oregon 97217 between 7 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Lieutenant Junior Grade Tad Drozdowski, Operations Department, at (503) 240–9370.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On February 14, 2003, we published a notice of proposed rulemaking (NPRM) entitled Safety Zone Regulation; Fort Vancouver Fireworks Display, Columbia River, Washington in the **Federal Register** (68 FR 7471). We received no letters commenting on the proposed rule. No public hearing was requested, and none was held.

Background and Purpose

The Coast Guard is establishing a temporary safety zone to allow a safe fireworks display. This event may result in a number of vessels congregating near the fireworks launching barge. The safety zone is needed to protect watercraft and their occupants from safety hazards associated with the fireworks display.

Discussion of Comments and Changes

No comments were received from the public regarding this proposed rule.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security (DHS). The Coast Guard expects the economic impact of this proposal to be so minimal that a full regulatory evaluation under the regulatory policies and procedures of DHS is unnecessary. This expectation is based on the fact that the regulated area established by the proposed regulation will encompass less than one mile of the Columbia River for a period of only one and a half hours at night when vessel traffic is low.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not

dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

This rule will affect the following entities, some of which may be small entities: The owners or operators of vessels intending to transit a portion of the Columbia River from 9:30 p.m. to 11 p.m. every July 4. This safety zone will not have significant economic impact on a substantial number of small entities for the following reasons. This rule will be in effect for only one and a half hours in the evening when vessel traffic is low. Traffic will be allowed to pass through the zone with the permission of the Captain of the Port or his designated representatives on scene, if safe to do so. Because the impacts of this proposal are expected to be so minimal, the Coast Guard certifies under 5 U.S.C. 605(b) of the Regulatory Flexibility Act (5 U.S.C. 601–612) that this final rule will not have a significant economic impact on a substantial number of small entities.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process. Request for comments and assistance was published in the notice of proposed rulemaking for this rule.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247).

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of

compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that Order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect

on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have analyzed this rule under Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction, from further environmental documentation. A final “Environmental Analysis Check List” and a final “Categorical Exclusion Determination” are available in the docket where indicated under **ADDRESSES**.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—[AMENDED]

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1(g), 6.04–1, 6.04–6 and 160.5; Department of Homeland Security Delegation No. 0170.

■ 2. Section 165.1314 is added to read as follows:

§ 165.1314 Safety Zone; Fort Vancouver Fireworks Display, Columbia River, Vancouver, Washington.

(a) *Location.* The following area is a safety zone: All waters of the Columbia River at Vancouver, Washington bounded by a line commencing at the northern base of the Interstate 5 highway bridge at latitude 45°37′16.5″ N, longitude 122°40′22.5″ W; thence south along the Interstate 5 highway bridge to Hayden Island, Oregon at latitude 45°36′51.5″ N, longitude 122°40′39″ W; thence east along Hayden Island to latitude 45°36′36″ N, longitude 122°39′48″ W (not to include Hayden Bay); thence north across the river thru the preferred channel buoy, RG Fl(2+1)R 6s, to the Washington shoreline at latitude 45°37′1.5″ N, longitude 122°39′29″ W; thence west along the

Washington shoreline to the point of origin.

(b) *Regulations.* In accordance with the general regulations in § 165.23 of this part, no person or vessel may enter or remain in this zone unless authorized by the Captain or the Port or his designated representatives.

(c) *Authority.* In addition to 33 U.S.C. 1231, the authority for this section includes 33 U.S.C. 1226.

(d) *Enforcement period.* This section will be enforced every July 4, from 9:30 p.m. (P.D.T.) to 11 p.m. (P.D.T.).

Dated: May 13, 2003.

Paul D. Jewell,

Captain, U.S. Coast Guard, Captain of the Port.

[OAR-2002-0053, FRL-7502-4]

RIN 2060-AK35

Standards of Performance for Stationary Gas Turbines

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: On April 14, 2003, the EPA published a direct final rule to amend the standards of performance for stationary gas turbines, along with a parallel proposal to be used as a basis for final action in the event that we received any adverse comments on the direct final rule amendments. Because we received adverse comments and a request for a public hearing, we are withdrawing the direct final rule. We will address all comments in a subsequent final rule based on the parallel proposal published on April 14, 2003.

DATES: As of May 28, 2003, EPA withdraws all changes to 40 CFR 60.17, 60.331, 60.332, 60.333, 60.334, and 60.335, published at 68 FR 17990 on April 14, 2003.

ADDRESSES: Docket number OAR-2002-0053, containing supporting information used in the development of the withdrawal is available for public viewing at the Air Docket in the EPA Docket Center, Room B108, 1301 Constitution Ave., NW., Washington, DC 20460. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The

telephone number for the Public Reading Room is (202) 566-1744. The telephone number for the Air Docket is (202) 566-1742.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to view public comments, access the index of the contents of the official public docket, and access those documents in the public docket that are available electronically. Once in the system, select "search" and key in the appropriate docket identification number.

Certain types of information will not be placed in the EPA Dockets. Information claimed as confidential business information and other information whose disclosure is restricted by statute, which are not included in the official public docket, will not be available for public viewing in EPA's electronic public docket. The EPA's policy is that copyrighted material will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in this document.

FOR FURTHER INFORMATION CONTACT: Mr. Jaime Pagan, Combustion Group, Emission Standards Division (C439-01), U.S. EPA, Research Triangle Park, North Carolina 27711; telephone number (919) 541-5340; facsimile number (919) 541-5450; electronic mail address pagan.jaime@epa.gov.

SUPPLEMENTARY INFORMATION: On April 14, 2003, we published a direct final rule (68 FR 17990) and a parallel proposal (68 FR 18003) amending the standards of performance for stationary gas turbines (40 CFR part 60, subpart GG). The amendments codified several alternative testing and monitoring procedures that have routinely been approved by EPA. The amendments also reflected changes in emission control technologies and turbine design since the original promulgation of the rule on September 10, 1979.

We stated in the preamble to the direct final rule and parallel proposal that if we received significant material adverse comment on one or more distinct provisions of the direct final rule, we would publish a timely withdrawal of those distinct provisions in the **Federal Register**. The direct final rule stated that the deadline for submitting public comments was May

14, 2003, and that the effective date of the provisions would be May 29, 2003. The proposal also stated that if a public hearing was requested by April 24, 2003, the hearing would be held on May 14, 2003, at the New EPA Facility Complex in Research Triangle Park, North Carolina, at 10 a.m., and that the comment period would be extended until 30 days after the date of the public hearing.

In a proposed rule published elsewhere in this issue, EPA gives notice that since a public hearing was requested, the comment period has been extended until June 13, 2003, which clearly falls after what would have been the effective date of the direct final rule. We have decided to withdraw the entire direct final rule to avoid allowing the direct final rule to become effective before all public comments have been received. The EPA will promulgate a final rule in the near future that considers all of the comments received and any material testimony presented at the public hearing.

Accordingly, the entire direct final rule is withdrawn as of May 28, 2003. We will take final action on the proposed rule after considering the comments received. We will not institute a second comment period on this action.
