\* The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. HHS, with the HHS'

NLCP contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do.

Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on June 9, 1994 (59 FR 29908) and on September 30, 1997 (62 FR 51118). After receiving DOT certification, the laboratory will be included in the monthly list of HHS certified laboratories and participate in the NLCP certification maintenance program.

#### SUPPLEMENTARY INFORMATION:

##### Background

While still a part of the Department of Transportation, in January 2003, the Transportation Security Administration (TSA) proposed establishing a new system of records under the Privacy Act, known as "Aviation Security Screening Records." TSA intends to use this system of records to facilitate TSA's passenger and aviation security screening program under the Aviation and Transportation Security Act. TSA intends to use the CAPPS II system to conduct risk assessments to ensure passenger and aviation security.

Prior to March 1, TSA was an operating administration within the Department of Transportation (DOT). While part of the DOT, TSA published for public comment proposed system of records DOT/TSA 010. See 68 FR 2101 and 2002, Jan. 15, 2003. On March 1, 2003, TSA became a component of the Department of Homeland Security (DHS) and is now continuing work towards the system of records DHS/TSA 010.

Substantial comments were received in response to the prior Privacy Act notice. Those comments can be reviewed online at <http://dms.dot.gov/>, by entering the docket number "1437" under "Simple Search." Significant changes have been made to date to the proposed CAPPS II system in light of these comments, and the comments and concerns raised will continue to be considered during the testing and evaluation periods. Accordingly, we are publishing an Interim Final Notice of System of Records, modified to address public comment thus far, which is effective for and applicable to the internal test activity described herein. With the publication of this notice,
