1. Section 205 of the Federal Power Act (FPA), 16 U.S.C. 824d (2000); accord 18 CFR part 35 (2003), requires that all rates, terms and conditions of jurisdictional services be filed with the Commission. In Order No. 2001,¹ a final rule establishing revised public utility filing requirements for rates, terms and conditions of jurisdictional services,² the Commission required public utilities, including power marketers, to file, among other things, Electric Quarterly Reports summarizing the contractual terms and conditions in their agreements for all jurisdictional services (including market-based power sales, cost-based power sales, and transmission service) and transaction information (including rates) for short-term and long-term market-based power sales and cost-based power sales during the most recent calendar quarter. In Order No. 2001-C,³ the Commission required utilities to file their Electric Quarterly Reports using software provided by the Commission. Commission staff review of the Electric Quarterly Report submittals has revealed that a number of utilities that previously had been granted authority to sell power at market-based rates have failed to file Electric Quarterly Reports. Accordingly, this order notifies those utilities that their market-based rate authorizations will be withdrawn unless they comply with the Commission's requirements.

2. In Order No. 2001, the Commission stated that, [i]f a public utility fails to file a[n] Electric Quarterly Report (without an appropriate request for extension), or fails to report an agreement in a report, that public utility may forfeit its market-based rate authority and may be required to file a new application for market-based rate authority if it wishes to resume making sales at market-based rates.⁴
