

40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution

Avenue, NW., Room S-3014, Washington, DC 20210.

NUCLEAR REGULATORY COMMISSION

Notice of Extension of the Public Comment Period for Scoping Process To Prepare an Environmental Impact Statement for the License Renewal of Nuclear Power Plants

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has extended the public comment period for the scoping process on the update to the "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants", NUREG-1437 (May 1996) and Addendum 1 (August 1999). The public comment period is extended to September 17, 2003.

The GEIS and Addendum 1 to the GEIS were prepared pursuant to 10 CFR part 51 and are available for public inspection at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, or from the Publicly Available Records component

of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Public Electronic Reading Room (PERR) link. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff at 1-800-397-4209, or 301-415-4737, or by e-mail to PDR@nrc.gov. The GEIS, Addendum 1, and Supplements may also be viewed on the Internet at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1437/>. The NRC prepares site-specific supplements to the GEIS for each license renewal application assessing the environmental impacts specific to that power plant location; these reports may be useful to scoping participants to understand the environmental review process and the environmental issues associated with the review for license renewal. The Supplements to the GEIS can also be viewed on the Internet in the context for each project and are listed by project at: <http://www.nrc.gov/reactors/operating/licensing/renewal/applications.html>. The update of the GEIS is a generic activity and, therefore, is not the appropriate forum to consider site-specific issues or concerns.

Any interested party may send written comments on the environmental scope of the GEIS Update Project to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mail stop T-6 D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Comments may also be delivered to Room T-6 D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. during Federal workdays. To be considered in the scoping process, written comments should be postmarked by September 17, 2003. Electronic comments may be sent by e-mail to the NRC at LRGEISUpdate@nrc.gov. Electronic submissions should be sent no later than September 17, 2003, to be considered timely in the scoping process. All comments received by the NRC will be available electronically and accessible through the NRC's PERR link at <http://www.nrc.gov/reading-rm/adams.html>.
