

the final rule published on October 7, 2003, effective November 6, 2003, 13 CFR 120.829(a) states that "A CDC's portfolio must maintain a minimum average of one Job Opportunity per an amount of 504 loan funding that will be specified by SBA from time to time in a **Federal Register** notice. Such Job Opportunity average remains in effect until changed by subsequent **Federal Register** publication." The current standard which was established in 1990 requires a CDC's portfolio to reflect an average of one Job Opportunity per \$35,000 of 504 loan funding. The AA/FA may permit a CDC to average up to one per \$45,000 for good cause in Alaska; Hawaii; State-designated urban or rural jobs and enterprise zones; Empowerment Zones and Enterprise Communities; and Labor Surplus Areas. During the past twelve years since the Job Opportunity requirement was last modified, the cost of acquiring real estate has increased substantially. For example, construction wages have increased more than 65 percent and the consumer price index has increased 50 percent during the same period. Due to the substantial increases in costs, SBA is modifying the requirements by approximately 43 percent effective November 6, 2003, as follows:

A CDC's portfolio must reflect an average of one Job Opportunity per \$50,000 of 504 loan funding. The AA/FA may permit a CDC to average up to one per \$65,000 for good cause for all 504 projects located in

- (1) Alaska;
- (2) Hawaii;
- (3) State-designated urban or rural jobs and enterprise zones;
- (4) Empowerment Zones and Enterprise Communities; and
- (5) Labor Surplus Areas as listed by the Department of Labor.
