## DEPARTMENT OF HOMELAND SECURITY

### Notice Designating University of Southern California as Center for Homeland Security

**AGENCY:** Department of Homeland Security.

**ACTION:** Notice.

**SUMMARY:** The Department of Homeland Security has designated the University of Southern California as a Center for Homeland Security (HS-Center).

#### FOR FURTHER INFORMATION CONTACT:

Laura Petonito, Deputy Director, University Programs, Science and Technology Division, Department of

Homeland Security, Washington, DC 20528; telephone 202-401-1113, facsimile 202-772-9916; e-mail [laura.petonito@dhs.gov](mailto:laura.petonito@dhs.gov).

#### SUPPLEMENTARY INFORMATION:

##### Background

Section 308 of the Homeland Security Act of 2002, Pub. L. 107-296, (Homeland Security Act), as amended by the Omnibus Appropriation Act of 2003, Pub. L. 108-7, directs the Department of Homeland Security (Department) to sponsor extramural research, development, demonstration, testing and evaluation programs relating to homeland security. As part of this program, the Department is to establish a university-based center or centers for homeland security.

The purpose of these centers is to provide a locus to attract and retain academic scholars in pursuit of homeland security-related disciplines. The Centers are envisioned to be an integral and critical component of the Department's capability to anticipate, prevent, respond to, and recover from terrorist attacks. The Centers will leverage multidisciplinary capabilities of universities and fill gaps in current knowledge.

Section 308(b)(2)(B) of the Homeland Security Act lists fourteen areas of substantive expertise that, if demonstrated, might qualify universities for designation as university-based centers. The listed areas of expertise include, among others, food safety, first responders, multi-modal transportation, and responding to incidents involving weapons of mass destruction. However, the list is not exclusive. Section 308(b)(2)(C) gives the Secretary discretion to consider additional criteria beyond those specified in section 308(b)(2)(B) in selecting universities for this program, as long as the Department issues a **Federal Register** notice explaining the criteria used for the designation.

##### Criteria

In 2002, the National Research Council (NRC) issued a report entitled "Making the Nation Safer: The Role of Science and Technology in Countering Terrorism." In this report, the NRC recommended a number of substantive areas for research that could contribute to national security. Among other issues, the NRC report identified the need to perform risk analysis and modeling of vulnerabilities and economic analysis of security enhancements as areas for which research is needed.

The Department agrees that research in these areas will contribute
