**Park-Ohio, Inc., Geneva Rubber
Division, Geneva, OH; Notice of
Negative Determination Regarding
Application for Reconsideration**

By application of January 31, 2004, the United Steelworkers of America, Local Union 905L requested administrative reconsideration of the Department's negative determination regarding eligibility for workers and former workers of the subject firm to apply for Trade Adjustment Assistance (TAA). The denial notice was signed on January 12, 2004, and published in the **Federal Register** on February 6, 2004 (69 FR 5866).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The TAA petition, filed on behalf of workers at Park-Ohio, Inc., Geneva Rubber Division, Geneva, Ohio engaged in the production of conduits and grommets, was denied because criterion (2) was not met. Companywide sales and production of conduits and grommets increased in 2002 compared to 2001 and further increased in January-November 2003 compared to the same period in 2002. In addition, Park-Ohio, Inc. shifted production of conduits and grommets from the subject facility to another domestic location.

In the request for reconsideration, the union alleged that sales and production at the subject facility could not have increased in 2003, because production in Geneva, Ohio was terminated in June of 2003.

It was determined during the original investigation that Park-Ohio, Inc., Geneva Rubber Division, Geneva, Ohio did indeed stop its production in June of 2003. However, all production from this facility was transferred to a new facility in Cleveland, Ohio. The company official was requested to provide companywide sales and production figures for injection rubber molded products which combined both

Geneva and Cleveland facilities. Analysis of this data determined that sales and production at Park-Ohio, Inc. increased during the relevant period.

The union official also alleges that Park-Ohio, Inc. did not shift production from the subject facility domestically, but is shifting it to China and Mexico.

Upon further review of the original investigation and petitioner's correspondence it was revealed that the same union representative who signed a request for reconsideration, also filed the petition for TAA. In the letter attached with the original petition, the union representative states that " * * * Park-Ohio Industries illegally moved our work to another facility in Cleveland * * * ", which contradicts the petitioner's later allegations that there was no domestic shift in production. Furthermore, the Department received several statements from the company official of Park-Ohio, Inc. that confirm all production of conduits and grommets was shifted from the subject facility to a new facility in Cleveland, Ohio.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed in Washington, DC, this 26th day of March, 2004.

DEPARTMENT OF LABOR

Employment Standards Administration Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determination in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of

the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described herein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department.

Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration,

Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC. 20210.
