This information collection allows FSA to determine compliance with the TQSA standards. The TQSA program was implemented to ensure that FSA commodity purchases meet customer requirements and needs. Suppliers of commodities covered by the TQSA program have had to meet quality control and food safety standards to assure the quality of the end product being purchased by FSA.

Expiration Date: October 31, 2004.

Type of Request: Revision and extension of a currently approved information collection.

Abstract: The information collected under OMB Control Number 0560-0214, as identified above, allows FSA to administer the TQSA program. The forms approved by this information collection are used by TQSA auditors, employed by FSA, or supplier representatives to secure and record information about the supplier's facility, audit information, and to submit corrective action plans to nonconformances previously found. The information collected is necessary to provide those charged with purchasing FSA commodities a basis to determine whether the supplier's quality management system meets applicable TQSA standards for contract bidding eligibility and to monitor the capability of the quality management system once approved supplier status is achieved. The information collected allows FSA to bill suppliers for the amount of hours TQSA auditors spent auditing supplier's quality management system.

Estimate of Burden: Public reporting burden for this information collection is estimated to average 30 minutes per response.

Respondents: Commodity suppliers participating in the TQSA program.

Estimated Number of Respondents: 200.

Trade Adjustment Assistance for Farmers

AGENCY: Foreign Agricultural Service, USDA.

FOR FURTHER INFORMATION, CONTACT: Jean-Louis Pajot, Coordinator, Trade Adjustment Assistance for Farmers, FAS, USDA, (202) 720-2916, e-mail: trade.assistance@fas.usda.gov.

Notice of Initiation of Antidumping Duty Investigations: Bottle-Grade Polyethylene Terephthalate (PET) Resin from India, Indonesia, Taiwan, and Thailand

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Initiation of Antidumping Duty Investigations.

EFFECTIVE DATE: April 20, 2004.

FOR FURTHER INFORMATION CONTACT: Charles Riggle at (202) 482-0650 or Amber Musser at (202) 482-1777, AD/CVD Enforcement Office 5, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Initiation of Investigations

The Petition

On March 24, 2004, the U.S. Department of Commerce (the Department) received a petition filed in proper form by the United States PET Resin Producers Coalition (the petitioner). The Department received supplemental information from the petitioner on April 5, 2004.

In accordance with section 732(b)(1) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that imports of polyethylene terephthalate resin (bottle-grade PET resin) from India, Indonesia, Taiwan, and Thailand are, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that imports from India, Indonesia, Taiwan, and Thailand are materially injuring, or are threatening to materially injure, an industry in the United States.

The Department finds that the petitioner filed the petition on behalf of the domestic industry because it is an interested party as defined in section 771(9)(C) of the Act and it has demonstrated sufficient industry support with respect to each of the antidumping investigations that it is requesting the Department to initiate. See *infra*, "Determination of Industry Support for the Petition."
