DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Multiple South and East Texas Counties, State of Texas

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that a Tier One Environmental Impact Statement (EIS) will be prepared for the proposed extension of Interstate Highway 69 (I-69) from near Laredo and the Lower Rio Grande Valley. The proposed I-69 facility is being evaluated as an element of the National High Priority Corridor 18 and Corridor 20 systems. In addition, I-69 is being evaluated as an element of the Trans-Texas System as outlined in the Trans-Texas Corridor Plan (TTCP). As currently envisioned, the proposed Trans-Texas System could include lanes for passenger vehicles, separate lanes for trucks, rail lines and a utility corridor.

FHWA is using a tiered approach for evaluating this proposal. Tier One will study the broader level decision to determine the location of an I-69/Trans-Texas Corridor. After the Tier One decision has been made, FHWA will proceed with the I-69 highway component by performing project level studies in a Tier Two decision process. Other Federal, State and/or Local agencies would pursue project decisions for the non-highway modes after the Tier One decision.

FOR FURTHER INFORMATION CONTACT: John Mack, P.E., District Engineer, Federal Highway Administration, 300 E. 8th Street, Room 826, Austin, Texas 78701, by telephone at (512) 536-5960.

SUPPLEMENTARY INFORMATION: Please refer to the previous Announcement of I-69 Status published as Federal Register Notice, Volume 65, No. 237, Friday, December 8, 2000.

Using a tiered approach to study I-69 in Texas, the FHWA, in cooperation with the Texas Department of Transportation (TxDOT), intends to prepare a Tier One EIS on a proposal to identify a corridor for ultimate construction of I-69 as a controlled access, multimodal transportation facility. This project responds to the need for a strategic, high priority highway serving the east-central United States, as outlined in the national High Priority Corridors 18 and 20 studies defined by Congress in the 1991 Intermodal Surface Transportation Efficiency Act (ISTEA), as extended in 1993 and 1995, and the 1998
