

DATES: Comments and/or requests for public hearing must be received before March 26, 2004.

ADDRESSES: Comments should be addressed to Evelyn MacKnight, U.S. EPA, Region III, 3WP11, 1650 Arch Street, Philadelphia, Pennsylvania, 19103.

FOR FURTHER INFORMATION CONTACT: Evelyn MacKnight, (215) 814-5717, at the above address. Those who are deaf or hearing-impaired may use the Relay Service at 1-800-654-5984 and request that the call be relayed.

SUPPLEMENTARY INFORMATION: Section 402 of the Federal Clean Water Act (CWA) created the NPDES program under which the Administrator of EPA may issue permits for the discharge of pollutants into the waters of the United States under conditions required by the CWA. Section 402(b) allows States to assume NPDES program responsibilities upon approval by EPA. On April 1, 1974, Delaware was authorized by EPA to administer the NPDES program; the State also received the authority to administer the General Permits program on October 23, 1992.

EPA has issued a regulation at 40 CFR part 123 that establishes the requirements for NPDES State Programs. Section 123.62 establishes procedures for revision of authorized NPDES State Programs. Pursuant to § 123.62(a), a State may initiate a program revision and must keep EPA informed of proposed modifications to its regulatory authority. On July 28, 2003, the State of Delaware submitted its regulation revisions for formal review by EPA. Pursuant to § 123.62(b)(1), a State program submittal is complete whenever the State submits such documents as EPA determines are necessary under the circumstances. In this instance, EPA determined that the State submittal was complete on November 19, 2003, with the submission of a statement from the State's Attorney General's office which certified that the regulations were duly adopted pursuant to State law. Section 123.62(b)(2) requires EPA to issue public notice by publication in the **Federal Register** and in newspapers having Statewide coverage, and to provide a period of public comment of at least 30 days whenever the Agency determines that a program revision is substantial. EPA has determined that the Delaware Regulation Revision, which is described below, constitutes a substantial revision to Delaware's NPDES program. Section 123.62(b)(2) also requires EPA to hold a public hearing regarding the proposed revision

"if there is significant public interest based on requests received."

The Delaware Regulation Revision includes amendments to sections 1 through 8 and sections 10 through 14 of the DNREC's Regulations Governing the Control of Water Pollution. The majority of the amendments focus on DNREC's issuance and administration of NPDES permits in the State of Delaware. In addition, DNREC updated its regulations for the construction and operation of wastewater/pollution control facilities and adopted regulations that formalize a periodic assessment of municipal treatment plant performance and infrastructure needs. Regulations were also adopted to address administrative procedures for evaluating and issuing a State certification that an activity will be conducted in such a manner that won't violate the applicable surface water quality criteria or standards, as required by Federal law. Delaware also included a number of water quality-based requirements, including the determination of Total Maximum Daily Loads (TMDLs), allowances for intake credits, and consideration for erosion and corrosion from facilities' piping.

At the close of the public comment period (including, if necessary, the public hearing), the EPA Regional Administrator, with the concurrence of the Associate General Counsel for Water and the Director of the Office of Compliance and Enforcement, will decide whether to approve or disapprove the Delaware Regulation Revision as a revision to the Delaware NPDES program. The decision to approve or disapprove will be based upon satisfying or meeting the requirements of the CWA and 40 CFR part 123. The Delaware Regulation Revision may be reviewed by the public from 8 a.m. to 4 p.m. at the EPA office in Philadelphia, Monday to Friday (excluding holidays), at the address appearing earlier in this notice. Copies of the submittal may be obtained for a fee by contacting Evelyn MacKnight as indicated in the **ADDRESSES** section.

All comments or objections received by March 26, 2004, will be considered by EPA before taking final action on the program revision.

Please bring the foregoing to the attention of persons whom you know are interested in this matter. All written comments and questions on this matter should be addressed to Evelyn MacKnight at the above address or telephone number.

Dated: February 4, 2004.

Thomas Voltaggio,

Acting Regional Administrator, Region III.

Synopsis

The Joint Conference was convened in 1999 as part of the Commission's ongoing efforts to ensure that advanced services are deployed as rapidly as possible to all Americans. It serves as a forum for an ongoing dialogue between the Commission, state regulators, and local and regional entities regarding the deployment of advanced telecommunications capabilities, and is comprised of commissioners from state public utilities commissions and from the Federal Communications Commission.

The Joint Conference is responsible for monitoring and collecting data regarding the practices of carriers as they deploy advanced services throughout the nation. It has also held a series of field hearings across the country and has conducted Broadband Summits to examine how best to accelerate the deployment of affordable advanced services to rural and other under-served telecommunications users. Through these and other activities, the Joint Conference has worked cooperatively to promote the widespread deployment of advanced services.

To help the Joint Conference achieve its broad mandate, and pursuant to section 410(b) of the Communications Act of 1934, 47 U.S.C. 410(b), the *Order* appoints Commissioner Susan P. Kennedy of the California Public Utilities Commission, Thomas L. Welch, Chairman of the Maine Public Utilities Commission, and Deborah Tate, Chairman of the Tennessee Regulatory Authority, to serve on the Federal-State Joint Conference on Advanced Telecommunications Services. The *Order* also appoints Bob Rowe, Chairman of the Montana Public Service Commission, formerly a non-voting member, to serve as a full member of the Federal-State Joint Conference on Advanced Telecommunications Services.

The number of members on the Joint Conference has been increased in order to augment diversity in Joint Conference membership and thereby widen the range of viewpoints and expertise. This is critical to informed decision-making as federal and state regulators join forces to encourage the deployment of advanced telecommunications services. Increasing the size of the Joint Conference is also consistent with the approach the Commission has taken with other joint boards, where the complexity and magnitude of the board's charter warranted a relatively large membership in order to address the broad range of issues presented.

The *Order* requires that a copy of all filings in CC Docket 99–294 be served on each of the following members of the Joint Conference at the following addresses:

- The Honorable Michael K. Powell, FCC Chairman, Federal Communications Commission, 445 12th Street, SW, Washington, DC 20554.
