projects, and owners of private multifamily residential building projects. Total projected cost estimates are requested the first month and monthly progress reports are requested until the project is completed.

The Census Bureau uses the information collected on these forms to publish estimates of the monthly value of construction put in place: (1) For nonresidential projects owned by private companies or individuals; (2) for projects owned by state and local agencies; and (3) for multifamily residential building projects owned by private companies or individuals. Statistics from CPRS become part of the monthly ''Value of Construction Put in Place'' series that is used extensively by the Federal Government in making policy decisions and become part of the gross domestic product (GDP). Construction now accounts for more than eight percent of GDP.

Published statistics are used by all levels of government to evaluate economic policy, to measure progress toward national goals, to make policy decisions, and to formulate legislation. For example, the Bureau of Economic Analysis uses the data to develop national accounts. The Federal Reserve Board and the Department of the Treasury use the value of construction put in place data to forecast GDP. The private sector uses the statistics for market analysis and other research such as estimating the demand for building materials and to schedule production distribution and sales efforts.

Type of Request: New collection.

Burden: 4,800 hours.

Number of Respondents: 16,000.

Avg Hours Per Response: 18 minutes.

Needs and Uses: The U.S. Census Bureau requests authorization from the Office of Management and Budget to conduct the 2004 Coverage Research Followup (CRFU). Improved coverage is one of the four major goals for Census 2010. As part of the effort to meet this goal, the Census Bureau is planning to conduct a new operation in conjunction with the 2004 Census Test. CRFU is intended to evaluate the effectiveness of revised procedures for improving coverage and reducing duplication. The CRFU operation will be conducted in both 2004 Census Test sites—Northwest Queens, NY, and three rural counties in Georgia (Colquitt, Tift, and Thomas). The CRFU operation will gather information regarding the effectiveness of the wording and presentation of the residence rules instructions and the two coverage questions included in the 2004 Census Test questionnaire. CRFU also will obtain information about the types of possible duplicates for which a household (HH) should be contacted in order to resolve residence status.

The CRFU operation will be followed by a Quality Control procedure designed to ensure that the CRFU enumerators completed their interviews and recorded respondent information correctly.

Affected Public: Individuals or households.

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of Economic Analysis.

Title: BEA Customer Satisfaction Survey.

Form Numbers(s): Not applicable.

Agency Approval Number: None.

Type of Request: Reinstatement.

Burden: 125 hours.

Number of Respondents: 500.

Average Hours Per Response: 15 minutes.

Needs and Uses: The Bureau of Economic Analysis (BEA) would like to conduct a Customer Satisfaction Survey to obtain feedback from customers on the quality of BEA products and services. The results of the information collected will serve to assist BEA in improving the quality of its data products and its methods of dissemination.

BEA needs to inform and educate all of its staff about the public's perception of the agency. This customer satisfaction survey will give us first-hand knowledge of what our customers want, need, and expect from BEA. To more effectively inform and educate the public on what we do, how we do it, and why we do it, we need to obtain reliable information on how the public views our output. The results of this survey will serve that purpose.

The Survey and a cover letter with instructions on how to complete the survey will be mailed to 5,000 potential respondents. BEA will request that responses be returned 30 days after the mailing. The survey will also be posted on BEA's Web site for 2,000 potential respondents. The survey will be designed so that all responses are anonymous and therefore eliminates the necessity for record keeping of respondents.

Affected Public: Individuals from profit and non-profit organizations and individuals from other Federal, state, and local government agencies.

Frequency: Annually.

Respondent's Obligation: Voluntary.

Legal Authority: Executive Order 12862, Section (b), of September 11, 1993.

SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration's U.S. Commercial Service is mandated by Congress to help U.S. businesses, particularly small and medium-sized companies, export their products and services to global markets.

As part of its mission, the U.S. Commercial Service uses ''Quality Assurance Surveys'' to collect feedback from the U.S. business clients it serves. These surveys ask the client to evaluate the U.S. Commercial Service on its customer service provision. Results from the surveys are used to make improvements to the agency's business processes in order to provide better and more effective export assistance to U.S. companies.

The purpose of the attached survey is to collect feedback from U.S. businesses that receive advocacy services from the U.S. Commercial Service. In providing these services, the U.S. Commercial Service advocates on behalf of a U.S. company that is bidding on a project or government contract, trying to recover payment or goods, or facing a barrier to market entry.
