6. Other Submission Requirements: Applications for grants under this program must be submitted electronically unless you qualify for an exception to this requirement in accordance with the instructions in this section.

a. Electronic Submission of Applications.

Applications for grants under the WEEA program—CFDA Number 84.083A—must be submitted electronically using the Grants.gov Apply site. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not e-mail an electronic copy of a grant application to us.

We will reject your application if you submit it in paper format unless, as described elsewhere in this section, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under *Exception to Electronic Submission Requirement*.

You may access the electronic grant application for the WEEA program at: <http://www.grants.gov>. You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search.

Please note the following:

- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.

- Applications received by Grants.gov are time and date stamped. Your application must be fully uploaded and submitted with a date/time received by the Grants.gov system no later than 4:30 p.m., Washington, DC time, on the application deadline date. We will not consider your application if it was received by the Grants.gov system later than 4:30 p.m. on the application deadline date. When we retrieve your application from Grants.gov, we will

notify you if we are rejecting your application because it was submitted after 4:30 p.m. on the application deadline date.

- The amount of time it can take to upload an application will vary depending on a variety of factors including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this program to ensure that your application is submitted timely to the Grants.gov system.

- To use Grants.gov, you, as the applicant, must have a D-U-N-S Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five business days to complete the CCR registration.

- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your application in paper format.

- You must submit all documents electronically, including all information typically included on the Application for Federal Education Assistance (ED 424), Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications. Any narrative sections of your application should be attached as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format.

- Your electronic application must comply with any page limit requirements described in this notice.

- After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Department will retrieve your application from Grants.gov and send you a second confirmation by e-mail that will include a PR/Award number (an ED-specified identifying number unique to your application).

- We may request that you provide us original signatures on forms at a later date.

Exception to Electronic Submission Requirement: You qualify for an exception to the electronic submission requirement, and may submit your application in paper format, if you are

unable to submit an application through the Grants.gov system because—

- You do not have access to the Internet; or
- You do not have the capacity to upload large documents to the Grants.gov system; and
- No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevent you from using the Internet to submit your application. If you mail your written statement to the Department, it must be postmarked no later than two weeks before the application deadline date. If you fax your written statement to the Department, we must receive the faxed statement no later than two weeks before the application deadline date.

Address and mail or fax your statement to: Dr. Frances Yvonne Hicks, U.S. Department of Education, 400 Maryland Avenue, SW., room 4W208, Washington, DC 20202–5943. FAX: (202) 205–5630.

1. *Selection Criteria:* The selection criteria for this program are from the Women's Educational Equity Act

(WEEA) and 34 CFR 75.210 of EDGAR. (**Note:** Men and boys may participate in any program or activity assisted with funds under this program.) The maximum possible score for each criterion is indicated in parentheses with the criterion in this notice. The maximum score for all of the criteria is 100 points. The criteria are as follows:

Selection Criteria for Implementation Grants pursuant to Section 5613(b)(2) (20 U.S.C. 7283(b)(2)) of WEEA and 34 CFR 75.210:

- (a) *Effectively achieving the purposes of WEEA* (15 points). The Secretary reviews each application to determine how well the project will effectively achieve the purposes of the Women's Educational Equity program.

Note: Applicants should consider the following statutory provisions when responding to this criterion. The purpose of the WEEA is: (a) To promote gender equity in education in the United States; (b) to provide financial assistance to enable educational agencies and institutions to meet the requirements of title IX of the Educational Amendments of 1972; and (c) to promote equity in education for women and girls who suffer from multiple forms of discrimination based on sex, race, ethnic origin, limited English proficiency, disability, or age.

- (b) *Project as a component of a comprehensive plan* (10 points). The Secretary reviews each application to determine the extent to which the project is a significant component of a comprehensive plan for educational equity and compliance with title IX of the Educational Amendments of 1972 in the particular school district, institution of higher education, vocational-technical institution, or other educational agency or institution.

- (c) *Implementing an institutional change strategy* (10 points). The Secretary reviews each application to determine the extent to which the project would implement an institutional change strategy with long-term impact that will continue as a central activity of the applicant after the grant has been terminated.

- (d) *Need for project* (15 points). The Secretary considers the need for the proposed project. In determining the need for the proposed project, the Secretary considers the following factors:

- (i) The magnitude of the need for the services to be provided or the activities to be carried out by the proposed project.

on sex, race, ethnic origin, limited English proficiency, disability, or age.

(e) *Quality of Project Personnel* (10 points). The Secretary considers the quality of the personnel who will carry out the proposed project. In determining the quality of project personnel, the Secretary considers the extent to which the applicant encourages applications for employment from persons who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability. In addition, the Secretary considers the following factors:

(i) The qualifications, including relevant training and experience, of key project personnel.

(ii) The qualifications, including relevant training and experience, of project consultants or subcontractors.

(f) *Quality of the management plan* (20 points). The Secretary considers the quality of the management plan for the proposed project. In determining the quality of the management plan for the proposed project, the Secretary considers the following factors:

(g) *Quality of the project evaluation* (20 points). The Secretary considers the quality of the evaluation to be conducted of the proposed project. In determining the quality of the evaluation, the Secretary considers the following factors:

(i) The extent to which the methods of evaluation include the use of objective performance measures that are clearly related to the intended outcomes of the project and will produce quantitative and qualitative data to the extent possible.

(ii) The extent to which the evaluation will provide guidance about effective strategies suitable for replication or testing in other settings.

Note: A strong evaluation plan should be included in the application narrative and should be used, as appropriate, to shape the development of the project from the beginning of the grant period. The plan should include benchmarks to monitor progress toward specific project objectives and also outcome measures to assess the impact on teaching and learning or other important outcomes for project participants. More specifically, the plan should identify the individual or organization that has agreed to serve as evaluator for the project and describe the qualifications of that evaluator. The plan should describe the evaluation design, indicating: (1) What types of data will be collected; (2) when various types of data will be collected; (3) what methods will be used; (4) what instruments will be developed and when; (5) how the data will be analyzed; (6) when reports of results and outcomes will be available; and (7) how the applicant will use the information collected through the evaluation to monitor progress of the funded project and to provide accountability information both about success at the initial site and effective strategies for replication in other settings. Applicants are encouraged to devote an appropriate level of resources to project evaluation.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial

information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in accordance with 34 CFR 75.118. We may also require more frequent performance reports in accordance with 34 CFR 75.720(c). [Docket No. CP05-70-000]

Southern Star Central Gas Pipeline, Inc.; Notice of Application

February 24, 2005.

Take notice that Southern Star Central Gas Pipeline, Inc., 4700 Highway 56, Owensboro, Kentucky 42301, filed in Docket No. CP05-70-000 on February 15, 2005, an application pursuant to sections 7(b) and (c) of the Natural Gas Act (NGA) for authorization to abandon an injection/withdrawal well (Well #65) and replace it with another (Well #89) in its North Welda Storage Field located in Anderson County, Kansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be also viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (202) 502-8222 or TTY, (202) 208-1659.

Any questions regarding this application should be directed to David N. Roberts, Manager, Regulatory Affairs, at (270) 852-4654.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the date noted below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's

Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP05-13-000, CP05-11-000, CP05-12-000, and CP05-14-000]

Ingleside Energy Center, LLC, San Patricio Pipeline, LLC; Notice of Availability of the Draft Environmental Impact Statement for the Proposed Ingleside Energy Center LNG Terminal and Pipeline Project

February 24, 2005.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a draft Environmental Impact Statement (EIS) on the liquefied natural gas (LNG) import terminal and natural gas pipeline facilities in Nueces and San Patricio Counties, Texas proposed by Ingleside Energy Center, LLC and San Patricio Pipeline, LLC (collectively referred to as Ingleside San Patricio) in the above-referenced dockets.

The draft EIS was prepared to satisfy the requirements of the National Environmental Policy Act (NEPA). The staff concludes that approval of the proposed project with appropriate mitigating measures, as recommended, would have limited adverse environmental impact. The draft EIS also evaluates alternatives to the proposal, including system alternatives, alternative sites for the LNG import terminal, and pipeline alternatives; and requests comments on them.

Ingleside San Patricio's proposed facilities would have a nominal output of about 1.0 billion cubic feet of imported natural gas per day to the U.S. market. In order to provide LNG import, storage, and pipeline transportation services, Ingleside San Patricio requests Commission authorization to construct, install, and operate an LNG terminal and natural gas pipeline facilities.

- The draft EIS addresses the potential environmental effects of the construction and operation of the following LNG terminal and natural gas pipeline facilities in San Patricio and Nueces Counties, Texas:

- A new marine terminal basin connected to the La Quinta Channel that would include a ship maneuvering area and one protected berth to unload up to 140 LNG ships per year;

- Two double containment LNG storage tanks with a nominal working volume of approximately 160,000 cubic meters (1,006,000 barrels equivalent);

- LNG vaporization and processing equipment;

- 26.4 miles of 26-inch-diameter natural gas pipeline; and
