SUPPLEMENTARY INFORMATION: A complete copy of Environmental Assessment #MT-010-03-08, which supports this restriction, may be viewed at: <http://www.mt.blm.gov/bifo/ea/ShootingEA/FinalShootingEA.pdf>.

While hikers, horseback riders, mountain bicyclists and other users can schedule their use around published hunting seasons for safety reasons; they are not able to avoid random target shooting. Local conditions, including heavy timber and rough terrain, reduce visibility and increase the hazard to other users from target shooters. Recent incidents involving random target shooting have resulted in endangerment and injury to other users. To reduce the incidence of future conflicts, three areas of public land known as the Acton Area, 21-Mile Area, and Shepherd Ah-Nei, located north of Billings, Montana, are being closed to target shooting with firearms. These areas will remain open to hunting by licensed hunters during seasons administered by the Montana Department of Fish, Wildlife and Parks.

This Restriction does not apply to other lands, specifically the “17-Mile” area located west of Highway 87, north of Billings, Montana, on the Crooked Creek Road.

Affected Lands: The affected lands are all public lands administered by the Billings Field Office, and include the following public lands:

Principal Meridian, Montana

Restriction

1.0 Restriction of Target Shooting on Affected Public Lands.

The following is prohibited: Discharge of firearms for the purpose of target shooting.

2.0 Exceptions

(a) This restriction does not apply to the hunting of lawful game by licensed hunters during seasons administered by the Montana Department of Fish, Wildlife and Parks.

(b) This restriction does not apply to archery marksmanship at fixed targets affixed to a backstop sufficient to stop and hold target or broad-head arrows.

(c) This restriction does not apply to special target shooting events, which may be authorized by the authorized officer under special permit.

Penalties: Violations of this restriction are punishable by a fine in accordance with the Sentencing Reform Act of 1984 (18 U.S.C. 3551 *et seq.*), and/or imprisonment not to exceed 12 months for each offense. The authority for this closure is 43 CFR 8364.1(a).

Call for Coal Resource and Other Resource Information for Public Lands in Daggett, Duchesne, and Uintah Counties, UT

AGENCY: Vernal Field Office, Bureau of Land Management, Vernal, Utah.

ACTION: Call for coal resource and other resource information.

SUMMARY: A Notice of Intent to prepare a Resource Management Plan for public lands and resources in Daggett, Duchesne and Uintah counties, Utah was published in the **Federal Register**, volume 66, No. 48, Monday, March 12, 2001. This supplements that notice with a call for coal resource and other resource information, as required in 43 CFR 3420.1.

DATES: The comment period will commence with the publication of this

notice in the **Federal Register** and end 30 days after publication.

ADDRESSES: Non-proprietary written comments should be sent to Coal Comments, Bureau of Land Management, Vernal Field Office 170 South 500 East, Vernal, Utah 84078; Fax 435–781–4410. Comments, including names and street addresses of respondents, will be available for public review at the Vernal Field Office during regular business hours, 7:45 a.m. to 4:30 p.m., Monday through Friday except holidays and may be published as part of the Environmental Impact Statement. Proprietary data marked as confidential may be submitted only to James Kohler, Chief, Branch of Solid Minerals, Utah State Office, Bureau of Land Management, P.O. Box 45155, Salt Lake City, Utah 84145–0155. Data marked as confidential shall be treated in accordance with the laws and regulations governing confidentiality of such information.

FOR FURTHER INFORMATION CONTACT: Pete Sokolosky, geologist, BLM Vernal Field Office, 170 South 500 East, Vernal, Utah 84078, phone: 435–891–4400, e-mail Pete_Sokolosky@ut.blm.gov.

SUPPLEMENTARY INFORMATION: The purpose of this call for coal information is to obtain any available coal resource data and any other resource information pertinent to applying the coal unsuitability criteria, and to identify any areas of interest for possible Federal coal leasing. The Resource Management Plan will identify areas acceptable for further consideration for leasing and estimate the amount of recoverable coal. Only those areas that have development potential may be identified as acceptable for further consideration for leasing. Coal companies, State and local governments and the general public are encouraged to submit information on coal geology, economic data and other development potential considerations. Where such information is determined to indicate developmental potential for an area, the area may be included in the land use planning evaluation for coal leasing. The BLM will use the unsuitability criteria and procedures outlined in 43 CFR part 3461 to assess where areas are unsuitable for all or certain stipulated methods of mining. Additionally, multiple use decisions that are not included in the unsuitability criteria may eliminate certain coal deposits from further consideration for leasing to protect other resource values and land uses that are locally, regionally or nationally important or unique. In making these multiple use decisions BLM will place particular emphasis on protecting the

following: Air and water quality, wetlands riparian areas and sole source aquifers; the Federal lands which, if leased, would adversely impact units of the National Park System, the National Wildlife Refuge System, the National Trail System, and the National Wild and Scenic Rivers System. Before adopting the resource management plan that makes an assessment of lands acceptable for further consideration for leasing, the BLM will consult with the state Governor and the state agency charged with the responsibility for maintaining the state's coal unsuitability program. Where tribal governments administer areas within or near the boundaries of the land use plan, the bureau shall consult with the appropriate tribal government.

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order withdraws 1,960.10 acres of public land from surface entry and mining for a period of 20 years for the Bureau of Land Management to protect wild horse and wildlife habitat, and watershed, recreation, cultural, and scenic values within the Pryor Mountain Wild Horse Range.

EFFECTIVE DATE: March 8, 2005.

FOR FURTHER INFORMATION CONTACT: Tom Carroll, Bureau of Land Management, Billings Field Office, 5001 Southgate Drive, Billings, Montana 59101, 406-896-5242.

Order

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (2000), it is ordered as follows:

1. Subject to valid existing rights, the following described public land is hereby withdrawn from settlement, sale, location, or entry under the general land laws, including the United States

mining laws (30 U.S.C. Ch. 2 (2000)), to protect wild horse and wildlife habitat, and watershed, recreation, cultural, and scenic values within the Pryor Mountain Wild Horse Range:

Sixth Principal Meridian, Wyoming
