Note: This is the maximum additional burden if all clients/participants complete three sets of items. CSAP and CSAT adolescent clients/participants do not usually receive all four data collections. Added burden proportion is an adjustment reflecting the extent to which programs typically already collect the data items. The formula for calculating the proportion of added burden is: Total number of items in the standard instrument minus the number of core GPRA items currently included divided by the total number of items in the standard instrument.

*Adults.

**Adolescents.

*** Four data collections for adolescents.

**** Screening, Brief Intervention, Treatment and Referral (SBIRT) grant program: 9,800 complete all GPRA sections; 114,600 complete sections A & H, all of these items are asked during the regular intake process resulting in zero burden; and 16,570 complete sections A, B, & H, all of these items are asked during the regular intake process resulting in zero burden.

Written comments and recommendations concerning the proposed information collection should be sent by April 21, 2005 to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.
