Needs and Uses: With this submission to the Office of Management and Budget (OMB), the Commission is extending this collection (no change in requirements) for this information collection in order to obtain the full three-year clearance from OMB. The Commission has adjusted the burden hours and burden costs to more accurately reflect the Commission's actual experience in conducting section 272 audits.

Under section 272 and the Commission's implementing rules, a Bell Operating Company (BOC) and its

section 272 affiliate may not jointly own transmission and switching equipment, although this restriction is subject to sunset. The separate section 272 affiliate must maintain separate books of account and have separate officers and directors. The separate section 272 affiliate may not obtain credit under arrangements that would permit the creditor to look to the assets of the BOC. The section 272 affiliate must conduct all transactions with the BOC on an arm's length basis, pursuant to the Commission's affiliate transaction rules, with the terms and conditions of such transactions reduced to writing and available for public inspection on the Internet. This collection has recordkeeping and reporting requirements. Section 272(d) states that companies required to maintain a separate affiliate "shall obtain and pay for a Federal/State audit every two years conducted by an independent auditor to determine whether such company has complied with this section and the regulations promulgated under this section, and particularly whether such company has complied with the separate accounting requirements under [section 272(b)]." The information collected in this submission to OMB is intended to prevent discrimination, cost misallocation and other anti-competitive conduct by the BOCs.
