## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 620-009 Alaska]

### NorQuest Seafoods, Inc.; Notice of Availability of Environmental Assessment

March 30, 2005.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for license for the Chignik Hydroelectric Project and has prepared an Environmental Assessment (EA) for the project. The project is located on the Indian Creek, in the town of Chignik, Alaska. The project occupies about two acres of United States land within the boundary of the Alaska Peninsula National Wildlife Refuge that is in the process of being conveyed to Far West, Inc., a local tribal Corporation.

The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. Any comments should be filed within 45 days from the issuance date of this notice, and should be addressed to the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1-A, Washington, DC 20426.
