SUPPLEMENTARY INFORMATION:

I. Abstract

The Contact Facilitation Service (CFS) is a U.S. Department of Commerce database, designed to put U.S. producers together with export service

providers. Many U.S. firms have never exported because of a fear of the risks involved in exporting and a lack of knowledge of the international marketplace. New-to-export firms need the assistance of export service firms offering export trade services. One of the purposes of the Export Trading Company (ETC) Act of 1982 is to increase United States exports of goods and services by encouraging more efficient provision of export trade services to U.S. producers and suppliers. Section 104 of the Act directs Commerce to provide a service to facilitate contact between producers of exportable goods and services and firms offering export trade services.

The International Trade Administration (ITA) maintains the CFS database of U.S. manufacturers, export trading and management companies, wholesalers/distributors, and international service firms. The CFS is designed to help promote exports and enable U.S. producers to locate export service providers. Export Service firms registered in the CFS database are listed in annual print editions of the U.S. Trade Assistance Directory, distributed throughout the United States. U.S. producers of goods and services registered in the CFS database are listed in the annual print editions of the U.S. Department of Commerce Exporters' Yellow Pages™, distributed worldwide. These directories also are accessible online at <http://www.myexports.com>. The print and electronic produced and made available through ITA's "MyExports" program. Without the information collected by the form, the CFS database and the resulting directories would be unreliable and ineffective, because users of this kind of data need current information about the listed companies.
