Approval and Promulgation of Air Quality Implementation Plans; Virginia; Revision Establishing the Western Virginia VOC and NO_x Emissions Control Area, and the Enabling Authority for NO_x RACT Determinations in the Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Virginia establishing a new volatile organic compound (VOC) and nitrogen oxide (NO_x) emissions control area. This new area, entitled, the Western Virginia Emissions Control Area, consists of the City of Winchester and Frederick County which comprise the Northern Shenandoah Valley Ozone Early Action Compact area (EAC), and Roanoke County, Botetourt County, Roanoke City, and Salem City, which comprise the Roanoke EAC. EPA is also proposing to approve the enabling authority to implement NO_x Reasonably Available Control Technology (RACT) in the affected areas. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and

anticipates no adverse comments. A more detailed description of the state submittal and EPA's evaluation are included in a Technical Support Document (TSD) prepared in support of this rulemaking action. A copy of the TSD is available, upon request, from the EPA Regional Office listed in the **ADDRESSES** section of this document. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

Inert Ingredients; Proposal to Revoke Pesticide Tolerance Exemptions for Three CFC Chemicals

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to revoke exemptions from the requirement of a tolerance for three inert ingredients (dichlorodifluoromethane, dichlorotetrafluoroethane, and trichlorofluoromethane) because these substances are no longer in active Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) pesticide product registrations and/or their use in pesticide products sold in the U.S. has been prohibited under the Clean Air Act for over a decade by EPA's ban on the sale or distribution, or offer for sale or distribution in interstate commerce of certain nonessential products that contain or are manufactured with ozone depleting compounds. These ingredients are subject to reassessment by August, 2006 under section 408(q) of the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA). Upon the issuance of the final rule revoking the tolerance exemptions, five tolerances will be counted as "reassessed" for purposes of FFDCA's section 408(q).
