The 4.9 GHz Band Transferred From Federal Government Use

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document the Commission considers a petition for reconsideration filed on July 30, 2003, by the National Public Safety Telecommunications Council (NPSTC). NPSTC requests the Commission to reconsider certain technical rules in which the Commission adopted licensing and service rules for the 4940-4990 MHz (4.9 GHz) band. The Commission endeavors to provide 4.9 GHz band licensees with the maximum operational flexibility practicable and to encourage effective and efficient utilization of the spectrum. The document makes significant strides towards ensuring that agencies involved in the protection of life and property

possess the communications resources needed to successfully carry out their mission.

DATES: Effective July 18, 2005.

FOR FURTHER INFORMATION CONTACT: Tim Maguire, tmaguire@fcc.gov, Public Safety and Critical Infrastructure Division, Wireless Telecommunications Bureau, (202) 418-0680, or TTY (202) 418-7233.

SUPPLEMENTARY INFORMATION: This is a summary of the Federal Communications Commission's *Memorandum Opinion and Order*, FCC 04-265, adopted on November 9, 2004, and released on November 12, 2004. The full text of this document is available for inspection and copying during normal business hours in the FCC Reference Center, 445 12th Street, SW., Washington, DC 20554. 1. The 4.9 GHz band was transferred from Federal Government to non-Federal Government use in 1999, in accordance with the provisions of the Omnibus Budget Reconciliation Act. In 2000, the Commission released a *Notice of Proposed Rulemaking* (65 FR 14230, March 16, 2000) proposing to allocate the 4.9 GHz band to non-Government fixed and mobile services, and to allow flexible use of this band. In 2002, the Commission adopted the fixed and mobile allocation, designated the band for use in support of public safety, and sought comment on the establishment of licensing and service rules for the 4.9 GHz band. In the *Third Report and Order*, the Commission adopted service rules for use of this band and addressed petitions for reconsideration of its decision to prohibit aeronautical mobile operations in this band.

2. The current NPSTC petition urges us to adopt two different emission masks, one mask for low power operations, the other for high power operations. NPSTC also proposes a technology standard for general and interoperability use in the 4.9 GHz band, and seeks mandatory regional planning and the inclusion of a conflict resolution process in regional plans. We received comments on the NPSTC proposals from equipment manufacturers, standards organizations, public safety licensees and others.
