

Background

On October 28, 1998 (63 FR 57610), we listed six aquatic snails, in the Mobile River Basin, as threatened (painted rocksnail, round rocksnail, lacy elimina) or endangered (cylindrical lioplax, flat pebblesnail, plicate rocksnail) under the Act. These six snails are endemic to portions of the Mobile River Basin in central Alabama. The cylindrical lioplax, flat pebblesnail, and round rocksnail are found in the Cahaba River drainage; the lacy elimina and painted rocksnail are in the Coosa River drainage; and the plicate rocksnail is in the Black Warrior River drainage. These snails require rock, boulder, or cobble substrates and clean, unpolluted water and are found on shoals and riffles of large streams and rivers. Impoundment and water quality degradation have eliminated the six snails from 90 percent or more of their historic habitat. Known populations are restricted to small portions of stream drainages. These surviving populations are currently threatened by pollutants such as sediments and nutrients that wash into streams from the land surface.

Restoring an endangered or threatened animal or plant to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of the endangered species program. To help guide the recovery effort, we are preparing recovery plans for most listed species. Recovery plans describe actions considered necessary for conservation of the species, establish criteria for downlisting or delisting, and estimate time and cost for implementing recovery measures.

The Act requires the development of recovery plans for listed species, unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act requires us to provide a public notice and an opportunity for public review and comment during recovery plan development. We will consider all information presented during a public comment period prior to approval of each new or revised recovery plan. We and other Federal agencies will take these comments into account in the course of implementing approved recovery plans.

The objective of this technical agency draft plan is to provide a framework for the recovery of these six aquatic snails so that protection under the Act is no longer necessary. As reclassification and recovery criteria are met, the status of these species will be reviewed and they will be considered for reclassification or removal from the *Federal List of*

Endangered and Threatened Wildlife and Plants (50 CFR part 17).

Public Comments Solicited

We solicit written comments on the recovery plan described. We will consider all comments received by the date specified above prior to final approval of the draft recovery plan.

Please submit electronic comments as an ASCII file format and avoid the use of special characters and encryption. Please also include your name and return address in your e-mail message. If you do not receive a confirmation from the system that we have received your e-mail message, contact us directly by calling our Mississippi Field Office (see **ADDRESSES** section).

Our practice is to make all comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home addresses from the record, which we will honor to the extent allowable by law. In some circumstances, we would withhold also from the rulemaking record a respondent's identity, as allowable by law. If you wish for us to withhold your name and/or address, you must state this prominently at the beginning of your comments. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of Final Agency Determination to take land into trust under 25 CFR part 151.

SUMMARY: The Principal Deputy Assistant Secretary—Indian Affairs made a final agency determination to

acquire approximately 12.72 acres of land into trust for the Suquamish Tribe of Washington on April 21, 2004. This notice is published in the exercise of authority delegated by the Secretary of the Interior to the Principal Deputy Assistant Secretary—Indian Affairs by 209 Departmental Manual 8.1.

FOR FURTHER INFORMATION CONTACT:

George Skibine, Office of Indian Gaming Management, Office of Policy—Economic Development, MS-4606 MIB, 1849 C Street, NW., Washington, DC 20240; Telephone (202) 219-4066.

SUPPLEMENTARY INFORMATION: This notice is published to comply with the requirement of 25 CFR 151.12(b) that notice be given to the public of the Secretary's decision to acquire land in trust at least 30 days prior to signatory acceptance of the land into trust. The purpose of the 30-day waiting period in 25 CFR 151.12(b) is to afford interested parties the opportunity to seek judicial review of final administrative decisions to take land in trust for Indian tribes and individual Indians before transfer of title to the property occurs. On April 21, 2004, the Principal Deputy Assistant Secretary—Indian Affairs decided to accept approximately 12.72 acres of land into trust for the Suquamish Tribe of Washington under the authority of the Indian Reorganization Act of 1934, 25 U.S.C. 465. On April 10, 2003, the Regional Solicitor, Pacific Northwest Region determined that the acquisition of this parcel in trust status for gaming is consistent with the Indian Gaming Regulatory Act, 25 U.S.C. 2719 (a)(1), because the parcel is located within the boundaries of the Suquamish Reservation as the reservation existed on October 17, 1988.
