SUPPLEMENTARY INFORMATION:

Background

The NACMCF was established in 1988, in response to a recommendation

of the National Academy of Sciences for an interagency approach to microbiological criteria for foods, and in response to a recommendation of the U.S. House of Representatives Committee on Appropriations, as expressed in the Rural Development, Agriculture, and Related Agencies Appropriation Bill for fiscal year 1988. The Charter for the NACMCF is available for viewing on the FSIS Internet Web page at http://www.fsis.usdas.gov/About/NACMCF_Charter/.

The NACMCF provides scientific advice and recommendations to the Secretary of Agriculture and the Secretary of Health and Human Services on public health issues relative to the safety and wholesomeness of the U.S. food supply, including development of microbiological criteria and review and evaluation of epidemiological and risk assessment data and methodologies for assessing microbiological hazards in foods. The Committee also provides advice to the Centers for Disease Control and Prevention and the Departments of Commerce and Defense.

Dr. Merle Pierson, Acting Under Secretary for Food Safety, USDA, is the Committee Chair; Dr. Robert E. Brackett, Director of Food and Drug Administration's Center for Food Safety and Applied Nutrition (CFSAN), is the Vice-Chair; and Gerri Ransom, FSIS, is the Executive Secretariat.

At the meetings the week of July 12–15, 2005 the Committee will discuss:

- The analytical utility of *Campylobacter* methodologies,
- The determination of cooking parameters for safe seafood for consumers, and
- Consumer guidelines for the safe cooking of poultry products.

FSIS will add these text descriptors along with a qualifier that the text is a simplified interpretation of the graph, chart, or table.
