[Project No. 2105-095]

Pacific Gas & Electric Company; Notice of Availability of Environmental Assessment

July 21, 2005.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects' staff has prepared an Environmental Assessment (EA) for an application for a non-capacity related amendment of the Lake Almanor Development of the Upper North Fork Feather River Project. The Upper North Fork Feather River Project, FERC No. 2105, is located on the Butt Creek and North Fork Feather River in Plumas County, California.

The EA contains the staff's analysis of the potential environmental impacts of the proposal and concludes that approval of the proposal would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a July 20, 2005, Commission order titled "Order Approving Application for Amendment of License and Revised Exhibit K," which is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's website at <http://www.ferc.gov> using the "elibrary" link. Enter the docket number (prefaced by P-) and excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

For further information, contact Rebecca Martin at (202) 502-6012.

Magalie R. Salas,

Secretary.

[Docket No. ER05-795-001]

ISO New England Inc. and New England Power Pool; Notice of Technical Conference

July 22, 2005.

The Federal Energy Regulatory Commission hereby gives notice that members of its staff will hold a technical conference with ISO New England Inc. (ISO-NE) to discuss certain aspects of the "Joint Request for Clarification, or in the Alternative, Rehearing; Request for Expedited Action; and Request for Deferral of Filing Requirements of ISO New England Inc. and New England Power Pool" (Joint Request) filed on June 23, 2005 in Docket No. ER05-795-001.

The conference will take place on Thursday, July 28, 2005 from 8:30 a.m. to 9:30 a.m. (e.d.t.), in Room 3M-3 of the Federal Energy Regulatory Commission, 888 First St., NE., Washington DC 20426.

Specifically, the purpose of the conference is to discuss the mechanism for selecting generating units to provide Regulation Service as proposed in an April 7 filing, and how Regulation Clearing Prices would be established. The conference will also discuss any possible inconsistencies in the description of the mechanism as found in (i) the proposed Tariff revisions (especially section III.1.11.5 and section III.3.2.2), (ii) the Joint Request,¹ and (iii) the proposed revisions to the ISO-NE Manual for Market Operations, Manual M-11 (Revision XX—ASM Phase I), section 3 (especially section 3.2.5).²

During the conference, ISO-NE should be prepared to explain the proposed steps that would be taken to select generators to provide Regulation Service and to determine the Regulation

Clearing Price. To aid in this discussion, Staff requests ISO-NE to use the hypothetical example described in the Appendix to this Notice to illustrate how Resources would be selected to provide Regulation Service and how the Regulation Clearing Price would be determined. ISO-NE should also be prepared to explain whether, under its proposal, the Resources selected to provide Regulation Service would be those whose total costs of providing Regulation Service are the lowest. In addition, ISO-NE should be prepared to discuss the rationale for recalculating updated Regulation Rank Prices for generating units with Regulation Offer Prices that are less than the initial Regulation Clearing Price, as described in section 3.2.5(2) of the proposed revision to Manual M-11.

The conference is open for the public to attend. In addition, a telephone line will be provided for interested parties to call in and participate in the conference. Below is the call-in information for the conference call:

Date: July 28, 2005.

Time: 8:30 a.m. to 9:30 a.m. e.d.t.

Toll-free Number: 877-546-1566.

Passcode: 65271.

Leader's Name: Mr. David Mead.

Parties interested in submitting comments following the conference must do so no later than August 11, 2005.

FERC conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations please send an e-mail to accessibility@ferc.gov or call toll free 1-866-208-3372 (voice) or 202-208-1659 (TTY), or send a FAX to 202-208-2106 with the required accommodations.

For more information about the conference, please contact: David Mead at (202) 502-8028 or david.mead@ferc.gov.

Magalie R. Salas,

Secretary.

Appendix

The following is a hypothetical example to be used during the technical conference to help illustrate how Resources would be selected to provide Regulation Service and how the Regulation Clearing Price would be determined.

Assume that 150 MW of Regulation Capability must be procured to provide Regulation Service for a particular hour. Assume that 6 different Resources, A through F, have submitted offers to provide Regulation Service. Each of the 6 Resources has an Automatic Response Rate of 10 MW per minute, and thus, a Regulation Capability of 50 MW (i.e., 10 MW per minute times 5 minutes). Although each Resource has submitted a different Energy Bid (shown in

¹ The Joint Request (at 6-7) describes a 7-step process for determining the Resources that would be selected to provide Regulation Service and for determining the Regulation Clearing Price.

² The ISO-NE Manual for Market Operations has not been filed with the Commission. It may be found on the ISO-NE Web site at [http://www.iso-ne.com/rules_proceeds/isone_mnls/M-11_Market%20Operations_\(Revision%20XX\)_10-01-05.doc](http://www.iso-ne.com/rules_proceeds/isone_mnls/M-11_Market%20Operations_(Revision%20XX)_10-01-05.doc).

the table below), the Energy Bid of each Resource is constant over its entire operating range. The day-ahead and real-time LMP throughout New England during the hour in question is \$70/MWh. None of the bids from the Resources has any start-up or minimum

load costs. The Capability-to-Service Ratio used in calculating the Regulation Service Credit for each Resource is 0.1. (ISO-NE should comment during the conference whether it is reasonable to assume that the Capability-to-Service Ratio used in selecting

Resources would be the same for all Resources.)

Assume that the 6 Resources submit the following in their bids to supply Regulation Service and Energy:

INFORMATION IN BIDS TO SUPPLY REGULATION SERVICE AND ENERGY AND DERIVED OPPORTUNITY COST, IN \$/MWH

Resource	Regulation offer	Energy bid	Derived opportunity cost
A	\$10	\$85	\$15
B	20	75	5
C	40	70	0
D	45	70	0
E	50	40	30
F	60	25	45

ISO-NE should be prepared to explain during the conference how its proposal would determine which of these Resources would be selected to provide Regulation Service, and how the Regulation Clearing Price would be determined. If additional information is also needed to determine which Resources are selected and what Regulation Clearing Price is calculated, ISO-NE should identify the information at the conference and add reasonable hypothetical values for this information to the above example.

[Docket No. AD05-12-000]

Report on Generator Offers in the Midwest Independent Transmission System Operator Market Launch; Notice Inviting Comments on Staff Report

July 22, 2005.

The Commission is posting, and inviting comment upon, a staff report, "Report on Generator Offers in the Midwest Independent Transmission System Operator Market Launch" (Report). The Report presents information and staff conclusions related to generator supply offers made into the Midwest Independent Transmission System Operator (MISO) during the two months following the launch of the MISO Energy Markets, a period during which MISO market participants were required to offer supply into MISO at cost.

The purpose of this Notice is to solicit comment on the Report and, in particular, on staff's recommendations (contained in Section VI of the Report, Analysis and Observations) that may assist the Commission in the

development of policies relating to the issues raised in the Report. The Report will be posted on the Commission's Web site at <http://www.ferc.gov>.

Comments on the Report should be filed within 30 days of the issuance of this Notice. The Commission encourages electronic submission of comments in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the comment to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

All filings in this docket are accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and will be available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Questions regarding this Notice should be directed to:

David Tobenkin, Office of Market Oversight and Investigations, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, 202-502-6445, david.tobenkin@ferc.gov.

William Meroney, Office of Market Oversight and Investigations, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, 202-502-8069, william.meroney@ferc.gov.

Comment Date: 5 p.m. Eastern Time on August 22, 2005.

Magalie R. Salas,
Secretary.

Notice of Membership of Performance Review Board for Senior Executives (PRB)

July 22, 2005.

The Federal Energy Regulatory Commission hereby provides notice of the membership of its Performance Review Board (PRB) for the Commission's Senior Executive Service (SES) members. The function of this board is to make recommendations relating to the performance of senior executives in the Commission. This action is undertaken in accordance with Title 5, U.S.C., Section 4314(c)(4). The Commission's PRB will remove the following member: William F. Hederman. And will add the following member: Shelton M. Cannon.
