Title: Domestic Quarantines.

OMB Control Number: 0579-0088.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701-7772) the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. Plant Protection and Quarantine, a program within USDA's Animal and Plant Health Inspection Service, (APHIS) is responsible for implementing this Act and does so through the enforcement of its domestic quarantine regulations

contained in title 7 of the Code of Federal Regulations, CFR part 301. Implementing these quarantines often requires us to collect information from a variety of individuals who are involved in growing, packing, handling, transporting, and exporting of plants and plant products. The information collected from these individuals is vital to helping ensure that injurious plant diseases and insect pests do not spread within the United States. Information to be collected is necessary to determine compliance with domestic quarantines. Federal/State domestic quarantines are necessary to regulate the movement of articles from infested areas to non-infested area. Collecting information requires the use of a number of forms and documents. APHIS will collect information using various forms and documents.

Need and Use of the Information: APHIS will collect information by interviewing growers and shippers at the time the inspections are being conducted and by having growers and shippers of exported plants and plant products complete an application for a transit permit. Information is collected from the growers, packers, shippers, and exporters of regulated articles to ensure that the articles, when moved from a quarantined area, do not harbor injurious plant diseases and insect pests. The information obtained will be used to determine compliance with regulations and for issuance of forms, permits, certificates, and other required documents.

SUPPLEMENTARY INFORMATION:

Title: Voluntary Recalls of Meat and Poultry Products.

Type of Request: New information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*). These statutes mandate that FSIS protect the public by ensuring that meat and poultry products are safe, wholesome, unadulterated, and properly labeled and packaged.

FSIS is requesting a new information collection addressing paperwork requirements regarding the Agency's voluntary recalls from commerce of meat and poultry products. Although FSIS is responsible for the inspection of egg products under the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*), the Food and Drug Administration handles the recalls of egg products under a Memorandum of Understanding with FSIS.

A firm that has produced or imported meat or poultry product that is adulterated or misbranded and is being distributed in commerce, may voluntarily recall the product in question. When there is a recall, FSIS asks that the recalling firm provide the Agency with some basic information, including the identity of the recalled product, the reason for the recall, and information about the distributors and retail consignees to whom the product was actually shipped. Under the FMIA, firms are required to keep such records that fully and correctly disclose all transactions in their business (21 U.S.C. 642). Under the PPIA, firms are required to keep such records as are properly necessary for the effective enforcement of the PPIA (21 U.S.C. 460(b)).

When a firm voluntarily recalls a product, FSIS conducts recall
