**DEPARTMENT OF THE INTERIOR****Office of Surface Mining Reclamation and Enforcement****Public Meetings To Discuss the Preparation of an Environmental Impact Statement on Excess Spoil Generation and Disposal and Stream Buffer Zones Rulemaking**

**AGENCY:** Office of Surface Mining Reclamation and Enforcement, Interior.

**ACTION:** Notice of meetings.

**SUMMARY:** On June 16, 2005, we, the Office of Surface Mining Reclamation and Enforcement (OSM), announced in the **Federal Register** our intent to prepare an environmental impact statement (EIS) to analyze the effects of possibly revising our regulations pertaining to excess spoil generation and disposal, and stream buffer zones. We asked you to contact us if you wanted us to meet with you to discuss the scope of the proposed action,

reasonable alternatives to the proposed action, and significant issues that should be examined in the course of preparing the EIS.

Eighteen people contacted us to request public scoping meetings at various locations in the Appalachian coal fields. We are pleased to accommodate these requests by holding scoping meetings in Knoxville, Tennessee; Hazard, Kentucky; Charleston, West Virginia; and Pittsburgh, Pennsylvania. Details applicable to these meetings are contained in this announcement.

**DATES:** The meeting dates are:

1. August 22, 2005, 6 p.m. to 9 p.m., Knoxville, TN.
2. August 23, 2005, 6 p.m. to 9 p.m., Hazard, KY.
3. August 24, 2005, 6 p.m. to 9 p.m., Charleston, WV.
4. August 25, 2005, 6 p.m. to 9 p.m., Pittsburgh, PA.

**ADDRESSES:** The meeting locations are:

1. Knoxville—Hilton Hotel, Sequoia Room, 501 W. Church Avenue, Southwest, Knoxville, Tennessee.
2. Hazard—Hazard Community Technical College, One Community College Drive, First Federal Center, Room 123A, Hazard, Kentucky.
3. Charleston—Embassy Suites Hotel, Ballroom ABC, 300 Court Street, Charleston, West Virginia.
4. Pittsburgh—Best Western Parkway Center, 8th Floor in the Horizon Room, 875 Greentree Road, Greentree, Pennsylvania.

**FOR FURTHER INFORMATION CONTACT:**

David G. Hartos, Office of Surface Mining Reclamation and Enforcement, U.S. Department of the Interior, 3 Parkway Center, Pittsburgh, PA 15220; telephone: (412) 937-2909. E-mail address: [DHARTOS@OSMRE.GOV](mailto:DHARTOS@OSMRE.GOV).

**SUPPLEMENTARY INFORMATION:** On January 7, 2004, we published in the **Federal Register** proposed changes to regulations regarding excess spoil disposal, the stream buffer zone, and corresponding changes to the stream diversion regulations. In that notice, we said that we prepared a draft environmental assessment (EA) on the rule and that it was available for review. We also said that we had tentatively concluded that the proposed rule will not have a significant effect on the human environment, and that we anticipate that a finding of no significant impact (FONSI) would be issued with the final rule.

We subsequently determined that preparation of an EIS would be an appropriate mechanism to fully assess alternative approaches to these specific proposed actions and their potential

impacts. On June 16, 2005 (70 FR 35122), we published a notice in the **Federal Register** announcing our intent to prepare an EIS to analyze the effects of possibly revising our regulations pertaining to excess spoil generation and disposal and stream buffer zones. We asked for your input regarding the scope of impacts of the proposed action, the topics that we should examine, and any reasonable alternatives that should be considered. We also said that we would hold meetings if there was sufficient interest in having such meetings.

Eighteen people, some representing organizations, contacted us and asked for meetings in various locations in the Appalachian coal fields. We are pleased to accommodate these requests by holding four meetings at the sites listed under **ADDRESSES**.

These meetings will be open to anyone who would like to attend and participate. The primary purpose of the meetings is to assist us in focusing the preparation of the upcoming EIS on those significant issues and reasonable alternatives related to the proposed action. Other issues to be discussed are impact topics, data needs, and national, State, and local concerns. The meetings will be informal and interactive and, where possible, seating will be around small tables to facilitate the exchange of ideas. The meetings are not intended to be adversarial or a debate on the merits of the proposed action.

We will keep detailed notes of the meeting and make these notes publicly available in the administrative record. Please note that we will not have a court reporter present and oral testimony will not be taken and transcribed, but we will accept written comments and suggestions regarding the upcoming EIS.

Any disabled individual who needs special accommodation to attend a public hearing is encouraged to contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: August 3, 2005.

**Michael K. Robinson,**

*Acting Regional Director, Appalachian Region, Office of Surface Mining Reclamation and Enforcement.*

## INTERNATIONAL TRADE COMMISSION

[Investigation No. TA-421-06]

### Circular Welded Non-Alloy Steel Pipe From China

**AGENCY:** United States International Trade Commission.

**ACTION:** Institution and scheduling of an investigation under section 421(b) of the Trade Act of 1974 (19 U.S.C. 2451(b)) (the Act).

**SUMMARY:** Following receipt of a petition filed on August 2, 2005, on behalf of Allied Tube and Conduit Corp., Harvey, IL; IPSCO Tubulars, Inc., Camanche, IA; Maruichi American Corp., Santa Fe Springs, CA; Maverick Tube Corp., Chesterfield, MO; Sharon Tube Co., Sharon, PA; Western Tube Conduit Corp., Long Beach, CA; Wheatland Tube Co., Wheatland, PA; and the United Steelworkers of America, AFL-CIO, Pittsburgh, PA; the Commission instituted investigation No. TA-421-06, *Circular Welded Non-Alloy Steel Pipe From China*, under section 421(b) of the Act to determine whether circular welded non-alloy steel pipe<sup>1</sup> from

<sup>1</sup>For purposes of this investigation, the subject product includes certain welded carbon quality steel pipes and tubes, of circular cross-section, with an outside diameter of 0.372 inches (9.45 mm) or more, but not more than 16 inches (406.4 mm), regardless of wall thickness, surface finish (black, galvanized, or painted), end finish (plain end, beveled end, grooved, threaded, or threaded and coupled), or industry specification (ASTM, proprietary, or other), generally known as standard pipe and structural pipe (they may also be referred to as structural or mechanical tubing). The term carbon quality steel may include certain low alloy steel imported as other alloy steel pipes and tubes.

All pipe meeting the physical description set forth above that is used in, or intended for use in, standard and structural pipe applications is covered by the scope of this investigation. Standard pipe applications include the low-pressure conveyance of water, steam, natural gas, air and other liquids and gases in plumbing and heating systems, air conditioning units, automatic sprinkler systems, and other related uses. Standard pipe may also be used for light load-bearing and mechanical applications, such as for fence tubing, and as an intermediate product for protection of electrical wiring, such as conduit shells. Structural pipe is used in construction applications.

The imported products are currently provided for in the Harmonized Tariff Schedule of the United States (HTS) subheadings 7306.30.10 and 7306.30.50. Specifically, the various HTS statistical reporting numbers under which the subject standard pipe has been provided for since January 1, 1992, are as follows: 7306.30.1000, 7306.30.5025, 7306.30.5032, 7306.30.5040, 7306.30.5055, 7306.30.5085, and 7306.30.5090. Although the HTS category is provided for convenience and Customs purposes, the written description of the merchandise under investigation is dispositive.

Pipe multiple-stenciled to the ASTM A-53 specification and to any other specification, such as the API-5L or 5L X-42 specifications, or single-certified pipe that enters under HTS subheading 7306.10.10, is covered by this investigation when

China is being imported into the United States in such increased quantities or under such conditions as to cause or threaten to cause market disruption to the domestic producers of like or directly competitive products.

For further information concerning the conduct of this investigation, hearing procedures, and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 206, subparts A and E (19 CFR part 206).

**DATES:** Effective August 2, 2005.

**FOR FURTHER INFORMATION CONTACT:** Fred Ruggles (202-205-3187 or via E-mail, [fred.ruggles@usitc.gov](mailto:fred.ruggles@usitc.gov)), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>.

#### SUPPLEMENTARY INFORMATION:

*Participation in the investigation and service list.*—Persons wishing to participate in the investigation as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the Commission's rules, not later than seven days after publication of this notice in the **Federal Register**. The Secretary will prepare a service list containing the names and addresses of all persons, or their representatives, who are parties to this investigation upon the expiration of

used in, or intended for use in, one of the standard pipe applications listed above, regardless of the HTS category in which it is entered. Pipe shells that enter the United States under HTS subheading 7306.30.50, including HTS statistical reporting number 7306.30.5028, are also covered by this investigation. The investigation also covers pipe used for the production of scaffolding (but does not include finished scaffolding).

Products not included in this investigation are mechanical tubing (whether or not cold-drawn) provided for in HTS subheading 7306.30.50, tube and pipe hollows for redrawing provided for in HTS 7306.30.5035, or finished electrical conduit provided for in HTS 7306.30.5028. API line pipe used in oil or gas applications requiring API certifications is also not included in this investigation. Similarly, pipe produced to the API specifications for oil country tubular goods use are not included in this investigation.
