[DA 05–2215; MB Docket No. 05–246; RM–11263]

Radio Broadcasting Services; Meyersville and San Antonio, TX

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a Petition for Rule Making filed by Charles Crawford requesting the allotment of Channel 261A at Meyersville, Texas, as that community’s

first local aural transmission service. To accommodate this allotment, Petitioner requests the reclassification of FM Station KCYT, Channel 262C, San Antonio, Texas, to specify operation on Channel 262C0 pursuant to the reclassification procedures adopted by the Commission. *See 1998 Biennial Regulatory Review—Streamlining of Radio Technical Rules in Parts 73 and 74 of the Commission’s Rules*, 65 FR 79773 (December 20, 2000). In response to an Order to Show Cause why Station KCYT should not be downgraded from Channel 262C to 262C0, the licensee of FM Station KCYT stated that it would file an application meeting minimum Class C FM standards within the period required by our rules. Since such an application has not been filed, the Commission proposes to reclassify Station KCYT to Class C0. Channel 261A can be allotted with a site restriction 2.0 kilometers (1.2 miles) southwest of Meyersville, at reference coordinates 28–54–58 NL and 97–19–37 WL. To accommodate the proposed allotment, the Commission proposes the reclassification of FM Station KCYT to specify operation on Channel 262C0.

DATES: Comments must be filed on or before September 19, 2005, and reply comments on or before October 4, 2005. Any counterproposal filed in this proceeding need only protect FM Station KCYT, San Antonio, Texas, as a Class C0 allotment.

Radio Broadcasting Services; Glenmora and Marksville, LA and Orange, TX

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on two mutually exclusive Petitions for Rule Making. The first proposal, filed by Charles Crawford requests the allotment of Channel 292A at Glenmora, Louisiana, as that

community's first local aural transmission service. To accommodate this allotment, Crawford requests the reclassification of FM Station KIOC, Channel 291C, Orange, Texas, to specify operation on Channel 291C0 pursuant to the reclassification procedures adopted by the Commission. *See 1998 Biennial Regulatory Review—Streamlining of Radio Technical Rules in Parts 73 and 74 of the Commission's Rules*, 65 FR 79773 (2000). An Order to Show Cause was issued to Capstar TX Limited Partnership, licensee of FM Station KIOC to which no response was received. The second proposal, filed by Goudeau, Inc. proposes the allotment of Channel 292A at Marksville, Louisiana, as its second local service. A staff engineering analysis has determined that the reclassification of FM Station KIOC to specify operation on Channel 291C0 at Orange, Texas will eliminate any short spacing to the proposed Channel 292A at Glenmora, Louisiana. As a result, Channel 292A can be allotted to Glenmora, in conformity with the Commission's rules, provided there is a site restriction of 12.2 kilometers (7.6 miles) west at reference coordinates 31–00–35 NL and 92–42–30 WL. Alternatively, Channel 292A can be allotted to Marksville, Louisiana, consistent with the minimum distance separation requirements of § 73.207(b) of the Commission's rules, provided there is a site restriction of 9.7 kilometers (6 miles) west at reference coordinates 31–06–34 NL and 92–09–55 WL.

DATES: Comments must be filed on or before September 19, 2005, and reply comments on or before October 4, 2005. Any counterproposal filed in this proceeding need only protect FM Station KIOC, Orange, Texas, as a Class C0 allotment.

47 CFR Part 73

[DA 05–2205; MB Docket No. 05–243]

Radio Broadcasting Services; Meeteetse, Wyoming

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Audio Division, on its own motion, proposes the substitution of Channel 259C for vacant Channel 273C at Meeteetse, Wyoming. The current allotment of Channel 273C at Meeteetse is not in compliance with the minimum distance separation requirements of Section 73.207(b) of the Commission's rules. The proposed substitution would resolve an existing distance spacing conflict. In this instance, existing vacant Channel 273C at Meeteetse is short-spaced to the licensed site of FM Station KHOC, Channel 273C, Casper, Wyoming. Channel 273C at Meeteetse is located 260.3 kilometers apart from FM Station KHOC. The minimum distance spacing requirement is 290 kilometers. Channel 259C can be allotted to Meeteetse, Wyoming in conformity with the Commission's rules without a site restriction at reference coordinates 44–09–26 NL and 108–52–15 WL.
