SUPPLEMENTARY INFORMATION:

Background

At 64 FR 34958 (June 29, 1999), the Department amended its regulations to improve program performance related to the certification of temporary employment of nonimmigrant agricultural (H-2A workers) in the United States. One improvement was to modify the requirement that an employer notify the State Workforce Agency (SWA), in writing, of the exact date on which the H-2A workers depart for the employer's place of business. The rule states that the departure date is now deemed to be the third day before the employer's first date of need for the foreign workers. Only if the workers do not depart by the date of need is the employer required to notify the SWA as soon as the employer knows that the workers will not depart by the first date of need, but no later than such date of need. The employer also must notify the SWA of the workers' expected departure date en route to the employment, if known. The departure date is used as the starting date of the contract period for the purposes of the "50 percent rule" under 20 CFR 655.103(e). That regulation provides that the employer must continue to provide employment to any qualified and eligible U.S. worker who applies to the employer until 50 percent of the work contract period under which the foreign worker in the job has elapsed. The employer's obligation to engage in positive recruitment ends on the day the foreign workers depart for the employer's place of business. The employer, however, must keep an active job order on file until the "50 percent rule" has been met. The amendment to the regulations regarding the departure date notification substantially reduced the reporting burden on employers yet continued to allow the SWA to properly administer the "50 percent rule."

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collections techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

DOL and the SWAs continue to use the dates listed on the employer's application to calculate the employer's responsibilities under the "50-percent rule." The departure date (the third date before the date of need) is deemed the start date of the contract period in administration of the "50-percent rule" under 20 CFR 655.103(e).

The collection of information requirement is being extended to reflect annual reporting hour burdens changes based on an increase in the number of respondents.

DEPARTMENT OF LABOR

Employment Standards Administration; Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from the date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used

in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration to the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.
