SUPPLEMENTARY INFORMATION:

Additions

On June 10, June 24, July 1, and July 8, 2005, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice (70 FR 33883, 36561, 38099, and 39484) of proposed additions to the Procurement List.

The following comments pertain to Custodial Services, U.S. Department of Agriculture, Carolina, Puerto Rico:

Comments were received from the current contractor in response to a request for impact data. The commenter claimed that janitorial work is not appropriate for people who are blind or have other severe disabilities; as such people cannot do the majority of the tasks involved. The commenter also claimed that the prices are double or triple those charged by other contractors.

Seventy-five percent of the direct labor the nonprofit agency will be using to provide this janitorial service will be performed by people with severe disabilities. The price for the service is actually less than that estimated by the Government contracting office and that being charged by the current contractor. Nonprofit agencies have provided janitorial service nationwide under the Committee's Program for many years, using similar percentages of direct labor performed by people with severe

disabilities, and at fair market prices. Accordingly, the Committee does not agree with the current contractor's contentions.

The following comments pertain to Document Destruction, U.S. Department of Agriculture, Farm Service Agency, St. Louis Missouri:

Comments were received from the current contractor for this document destruction service in response to a request for impact data. The commenter noted that it is a National Association for Information Destruction (NAID) AAA Certified firm, and questioned whether the nonprofit agency which will be performing the service has adequate security and capability to perform the service at the specified location. The nonprofit agency is an NAID member and will receive its AAA Certification before it begins to provide the service. The nonprofit agency has been reviewed and found capable of providing the service.

The following comments pertain to Grounds Maintenance, U.S. Department of Agriculture, Southern Plains Agriculture Research Center, College Station, Texas:

Comments were received from the current contractor in response to a request for impact data. The contractor claimed that this grounds maintenance service involves a large job site and dangerous power equipment, requiring capable supervision and workers. The contractor also claimed that the service involves the use of harmful chemicals for control of weeds, insects and disease, as well as regular inspection and repair of the landscape irrigation system. Both the pest control and irrigation functions, according to the contractor, require State licenses.

The Nonprofit Agency has been reviewed and found capable of performing the functions set forth in the Statement of Work (SOW) which the Government contracting activity prepared for the nonprofit agency to perform the work. The Nonprofit Agency participates in the Texas State use program as well as the Committee's program, and is very experienced in grounds maintenance services. The SOW has been reduced in scope from that used by the current contractor, and does not contain any pest control or irrigation functions, so State licenses are no longer required.

The following material pertains to all of the items being added to the Procurement List:

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the services and impact of the additions on the current or most recent

contractors, the Committee has determined that the services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.
